- *Freight Recovery
- *Equipment Staging
- *Spot Market Capture
- *One-Off Unique Freight

Company Overview

Founded in 2017, Portage Logistics assembled a staff with over 90 years of combined experience in Logistics and Logistics Project Planning. Our Core Carrier partners, with over 22,000 trailers of varying equipment types, allow us to efficiently and effectively stage equipment. We also strategically utilize that capacity in a one-off transaction. Both strategies provide reliable JIT transportation and consistent freight moves. In utilizing the same carriers, we build drivers who are familiar with pickup and delivery locations, building familiarity and increasing efficiency. Real time tracking and tracing along with 24/7 customer service insure that you are never in the dark while your freight is in transit. Currently Portage Logistics operates 100% in the private sector however many of us have experience in moving freight for FEMA and the DOD while under the employment of other 3PLs.

Electronic Capabilities

- *EDI and API Capable
- *Cell Phone Triangulation and ELD Tracking
