

FAQS

When to book?

We advise contacting us after your 20 week scan. We will then book you in for your due date and of course update this once baby makes their appearance.

How old should baby be?

Ideally baby will be between 5-21days old at time of photo shoot.

This means they are super snuggly and sleepy ensuring we can create those gorgeous poses.

What if baby is very alert?

Please no need to worry. We will still be able to achieve gorgeous photos for you to cherish.

Is there a booking fee?

Yes, we kindly ask for a non refundable £50 booking fee to secure your slot. This will be deducted from the final amount due on the day of your session.

What is your cancelation policy?

Cancelation within 24hrs will result in a new booking needing to be made should you wish to re book. Please note as this would be a new booking, a new deposit is required. A minimum of 48hrs will be required to reschedule your session should you need to change the date. Your current deposit will carry over on this occasion

Is there parking on site?

As this is a home studio there is plenty of street parking surrounding the property.

What if i change my mind with the package choice on the day?

We can easily amend this for you and you will be updated on the final payment cost accordingly.

Do I need to bring anything on the day?

if you use a dummy please bring this along. Boob and bottle are great if little one needs a tiny top up in between sets. We welcome sentimental blankets to be brought should you wish for baby to be photographed in them.

We have opted for the Sibling / Parent photography package what clothing should i bring?

We advise plain, neutral and light colour clothing with no brand logos.

Who can attend on the day?

We kindly ask that this is limited to baby and parents. Siblings to attend when booking sibling package.

How many images will I receive?

You will receive around 20-30 images in a private viewing gallery for you to choose your final selection. Please note the number of final full resolution images depends on the package you have purchased (eg: 6, 8, 10 Full resolution/ any additional photos purchased)
