

DIFFERENT TYPES OF VINYL

VINYL

PERMANENT

Goes on hard smooth surfaces like glass, metal, plastic & acrylic. Matte & gloss finish.

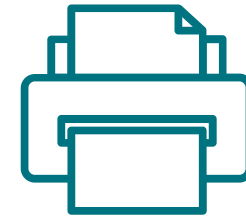

REMOVABLE

Less adhesive & removes easily. Perfect for decorating walls & windows.

OUTDOOR

Strong adhesive & weather resistant. Great for outdoor signs & car decals.

PRINTABLE

Create decals using a home printer. Perfect for stickers & multicolored designs.

SMART VINYL

Exactly the same as permanent vinyl but cuts without a mat on the Cricut Maker 3 & Explore 3.

HEAT TRANSFER VINYL

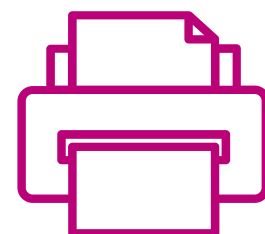

HTV / IRON-ON

Heat activated vinyl that can be pressed onto fabric, canvas, leather & wood.

SPORTFLEX

Heat activated stretchy vinyl used on fabrics like polyester & nylon.

PRINTABLE

Print designs onto heat activated vinyl & press on clothing.
