

Cricut CUTTING MATS

LIGHT GRIP MAT

STANDARD GRIP MAT

STRONG GRIP MAT

FABRIC GRIP MAT

DID YOU KNOW?

- Mats hold material in place when cutting
- Cutting area is half an inch smaller than the mat size
- To keep mats sticky, cover with clear plastic film when not in use
- Use a scraper to remove excess materials
- Clean with alcohol free baby wipes or soapy water
- Non-Cricut branded mats like Nicapa & HTVRont are just as good
- Maker 3 & Explore 3 machines still require a mat for anything that isn't a smart material
