

AI USE IN MEDICAL PUBLICATION

A practical *JAMA Network* guide for medical writers

PERMITTED — DISCLOSE

- **Manuscript creation, revision or formatting**
Disclose in Acknowledgments

- **Literature searches**
Methods for research; Acknowledgments for other articles

- **Translation**
Only after a human writes the initial text

- **AI used within research**
Fully describe in Methods

- **Data or results visualizations**
Disclose the tool and version in the figure legend

PERMITTED — NO DISCLOSURE

- **Basic grammar and spelling checks**

AVOID OR NOT PERMITTED

- **Generating or formatting references**
- **Drafting Opinions, Letters or online Comments**
- **Preparing responses to editors or peer reviewers**
- **Entering unpublished manuscripts into external AI tools**
- **AI-generated or manipulated clinical images, video or audio**
Unless part of formally described research methods

WHEN DISCLOSING, INCLUDE

- ☐ Tool, manufacturer and version
- ☐ Date or dates used
- ☐ Task performed
- ☐ Manuscript section affected
- ☐ Confirmation of human review and responsibility

THE AUTHOR REMAINS RESPONSIBLE

Verify every claim and citation. Failure to disclose may lead to rejection or postpublication correction.
