

Creating a Healthier, Safer Indoor Air Environment.

Airborne pollutants such as viruses, allergens, mould, bacteria, and smoke can impact greatly on the health, wellness and comfort of our indoor living environment.

Purify your air with the Panasonic Air-e Ceiling Mounted nanoe X Generator.

A compact, low power consumption and whisper quiet unit that penetrates fabrics thoroughly and reaches every corner of a room to inhibit harmful pollutants.

Create a fresher, safer, healthier living environment for all.
