Marvel movies in chronological order 2022 list.  List of marvel movies and series in chronological order.**

If you want to see the Marvel and Avengers movies in order as they happened, starting with the World War II-set Captain America: The First Avenger, we've listed all the MCU movies and series in chronological order, in one guide! But first, if you just want an overview of the Marvel Cinematic Universe by release date, we have that right here, as split up by the separate Phases: The Infinity Saga: Phase One (2008-2012) Phase Two (2013-2015) Phase Three (2016-2019) Captain America: Civil War (May 6, 2016) Doctor Strange (November 4, 2016) Guardians of the Galaxy Vol. 2 (May 5, 2017) Spider-Man: Homecoming (July 7, 2017) Thor: Ragnarok (November 3, 2017) Black Panther (February 16, 2018) Avengers: Infinity War (April 27, 2018) Ant-Man and the Wasp (July 6, 2018) Captain Marvel (March 8, 2019) Avengers: Endgame (April 26, 2019) Spider-Man: Far From Home (July 2, 2019) The Multiverse Saga: Phase Four (2021-2022) Phase Five (2023-2024) Phase Six (2024-2026) You can check out our regular feature on all upcoming Marvel movies with key details! Now, on to if you want to watch the MCU chronologically in-universe. So while Iron Man, set and released in 2008, can claim the banner as the first of the Marvel Cinematic Universe, within its story, Chris Evans has got Robert Downey Jr. beat. That's because Evans' origin story as Captain America in The First Avenger takes action in 1942.
There, we're also first fully introduced to the Tessarect, an energy cube that initializes the Infinity Saga, climaxing in 2019's Avengers: Endgame. The next movie set in the timeline is Captain Marvel, the blockbuster with a Blockbuster, set in 1995 with Brie Larson starring as the cosmic Carol Danvers. And then it's time to hit the start with Iron Man and RDJ's world-making turn as Tony Stark. The movies can be seen in release order after that, except for 2021's Black Widow, which is set in the aftermath of 2016's Captain America: Civil War. Through the epic finale of Endgame (which essentially completed the first 3 phases of the MCU), there was a forward time jump of 5 years, placing most everything in Phase 4 and onward in the near future. Phase 4 started at the movies with Shang-Chi, and has been inviting its lineup of series to really do some heavy lifting, with Loki, Wandavision, Falcon and the Winter Soldier, and Hawkeye pushing the story forward. Then there was the gigantic one-two Spider-Man punch with Far From Home and No Way Home. Moon Knight, Doctor Strange in the Multiverse of Madness, and now Thor: Love and Thunder are all set chronologically by release after that. And now, we've added She-Hulk. So if you want to watch the MCU by release order, the list above is your guide. But if you want to take an alternate route and see the movies chronologically within its own timeline (including the TV shows), check out our guide below! #3 #4 #5 #7 #8 #10 #13 Adjusted Score: 91971% Critics Consensus: With the help of its charismatic lead, some impressive action sequences, and even a few surprises, Iron Man 3 is a witty, entertaining adventure and a strong addition to the Marvel canon. #15 Adjusted Score: 105552% Critics Consensus: Guardians of the Galaxy is just as irreverent as fans of the frequently zany Marvel comic would expect -- as well as funny, thrilling, full of heart, and packed with visual splendor. #17 #18 #19 #21 #22 #23 #24 #25 #26 #30 #36 #39 #44 #45 #46 #47 The mighty Marvel has 12 upcoming movies with release dates and even more beyond that. On top of the upcoming Marvel Cinematic Universe movies, which will expand the Multiverse Saga in Phases 5, and 6, Sony Pictures Entertainment is also set to continue its live-action expansion of Sony's Spider-Man Universe. Sony also have further Spider-Verse projects in the works, including Spider-Man: Beyond the Spider-Verse, Kraven The Hunter and Venom 3, while the MCU will also develop on Disney+, with a variety of TV shows set to release before the end of the Multiverse Saga. In the wake of 2019's Avengers: Endgame, the shape of superhero storytelling on the big screen changed dramatically. Marvel Studios chief Kevin Feige revealed the Multiverse Saga at SDCC 2022, and despite several delays in production, the studio's plan has remained steadily on course.

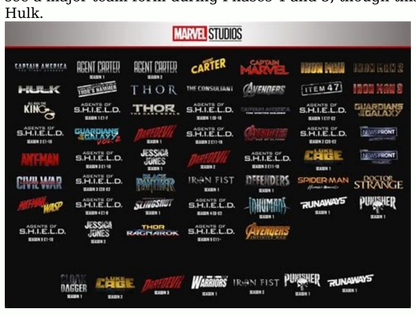

Marvel Studios continues to follow established heroes and introduce a swatch of new ones, while slowly building the looming threat of Kang the Conqueror and his many variants, though the endgame for Sony's Spider-Man Universe is much less clear. Following its trend of spotlighting Spider-Man villains, Sony's Spider-Man Universe is set to expand even further, with several new projects releasing in the coming years. Kraven The Hunter - October 6, 2023 Cast: Aaron Taylor-Johnson, Christopher Abbot, Fred Hechinger, Russell Crowe, Ariana DeBose, Alessandro Nivola, Levi Miller Director: J.
C. Chandor Characters: Sergei Kravinoff, a.k.a. Kraven, Dmitri Smerdyakov, a.k.a. Chameleon, Calypso, Aleksei Sytsevich, a.k.a. Rhino Studio: Sony Pictures Entertainment Plot Summary: TBD Expanding the universe laid out by Venom, Venom: Let There Be Carnage, and Morbius, Kraven the Hunter will be the next addition to Sony's Spider-Man Universe, scheduled for release on October 6, 2023. Kraven the Hunter will mark Sony's only 2023 live-action Marvel release, though the film was originally set for release in January 2023. Kraven the Hunter is the first R-rated entry in Sony's Spider-Man Universe, so is expected to feature more intense and realistic violence than Sony's previous Marvel projects. It's possible that the MCU's Peter Parker, a.k.a. Spider-Man, could appear in Kraven the Hunter, though nothing has been confirmed from either Sony or Marvel Studios. Cast: Brie Larson, Iman Vellani, Teyonah Parris, Samuel L. Jackson, Zawe Ashton, Park Seo-joon Director: Nia DaCosta Characters: Carol Danvers, a.k.a. Captain Marvel, Kamala Khan, a.k.a. Ms. Marvel, Monica Rambeau, Nick Fury, Dar-Benn Studio: Marvel Studios Plot Summary: Carol Danvers, a.k.a. Captain Marvel, has reclaimed her identity from the tyrannical Kree and taken revenge on the Supreme Intelligence, but unintended consequences see Carol shouldering the burden of a destabilized universe. When her duties send her to an anomalous wormhole linked to a Kree revolutionary, her powers become entangled with that of Jersey City super-fan Kamala Khan, a.k.a. Ms. Marvel, and Carol's estranged niece, now S.A.B.E.R. astronaut Captain Monica Rambeau. Together, this unlikely trio must team up and learn to work in concert to save the universe. Originally scheduled for release in July 2022, The Marvels saw several delays before finally confirmed to be releasing on November 10, 2023. The sequel to Captain Marvel, and Disney+'s WandaVision and Ms. Marvel, The Marvels will bring together its three heroes for the first time on the big screen. Following the release of Guardians of the Galaxy Vol. 3, The Marvels will continue to explore the cosmic side of the MCU, picking up in the aftermath of Ms. Marvel's body-swapping post-credits scene.

| MOVIE | RUN-TIME (H:MM) |

The Marvels is set to follow directly on the heels of Secret Invasion on Disney+, which will prominently feature Captain Marvel's Skrulls. Cast: Bad Bunny Director: Jonás Cuarón Characters: El Muerto Studio: Sony Pictures Entertainment Plot Summary: TBD Based on one of Spider-Man's lesser-known villains, El Muerto is scheduled for release on January 12, 2024, marking the first of three proposed releases for Sony's Spider-Man Universe in 2024. In Marvel Comics, El Muerto is a wrestler with superhuman strength, a character penned for Bad Bunny in the live-action adaptation, after the rapper had a stand-out role in 2022's Bullet Train. While Garreth Dunnet-Alcocer was hired to write the script, Bad Bunny reported in March 2023 that the film had yet to begin production. However, a recent report indicates that El Muerto will begin filming in August 2023. Cast: Dakota Johnson, Sydney Sweeney, Celeste O'Connor, Isabela Merced, Tahar Rahim, Emma Roberts, Mike Epps, Adam Scott, Zosia Mamet Director: S. J. Clarkson Characters: Cassandra Webb, a.k.a. Madame Web, Julia Carpenter, a.k.a. Spider-Woman Studio: Sony Pictures Entertainment Plot Summary: TBD Madame Web will mark the first female-led film in Sony's Spider-Man Universe after its release on February 16, 2024, expected to take place in the same universe as Venom, Morbius, Kraven the Hunter, and El Muerto. Based on the eponymous character from Marvel Comics, Madame Web will see Dakota Johnson portray Cassandra Webb, an ally of Spider-Man's and a clairvoyant who relies on a spider-web shaped life-support system to survive. Not much is known about the plot for Madame Web, though given the character's status as Kraven the Hunter's daughter in Marvel Comics, it's possible these two projects could converge. Cast: Shameik Moore, Hailee Steinfeld, Oscar Isaac, Jason Schwartzman, Jake Johnson, Luna Lauren Vélez Directors: Joaquim Dos Santos, Kemp Powers, Justin K. Thompson Characters: Miles Morales, a.k.a. Spider-Man, Gwen Stacy, a.k.a. Spider-Woman, Miguel O'Hara, a.k.a. Spider-Man 2099, the Spot Studio: Sony Pictures Animation Plot Summary: TBD After achieving massive success with Spider-Man: Into the Spider-Verse and Across the Spider-Verse, Sony's development of another animated sequel, Spider-Man: Beyond the Spider-Verse, is very exciting.
While nothing has yet been confirmed about the upcoming film, scheduled for release on March 29, 2024, Spider-Man: Beyond the Spider-Verse is expected to mark the return of the entire main cast, as well as a slew of new Spider-People, as Miles Morales tries to save the multiverse and his own father. Sony's animated features could be spawning a new franchise, as further spinoffs and sequels are planned following Beyond the Spider-Verse. Cast: Ryan Reynolds, Hugh Jackman, Morena Baccarin, Stefan Kapičić, Leslie Uggams, Karan Soni, Rob Delaney, Matthew Macfadyen, Emma Corrin, Briana Hildebrand, Shioli Kutsuna Director: Shawn Levy Characters: Wade Wilson, a.k.a. Deadpool, James "Logan" Howlett, a.k.a. Wolverine, Eloise Phimister, a.k.a. Negasonic Teenage Warhead, Piotr Rasputin, a.k.a. Colossus, Yukio, Vanessa Carlysle, Blind Al, Dopinder, Peter Studio: Marvel Studios Plot Summary: TBD After debuting in Fox's X-Men franchise, Ryan Reynolds was the first actor confirmed to be making the move to Marvel Studios, reprising his role of Wade Wilson in Deadpool 3. Although originally slated for release in September and then November 2024, Deadpool 3 will now release on May 3, 2024, suggesting the film has had a smooth production despite filming during 2023's WGA strike. Deadpool 3 will bring together Reynolds and Hugh Jackman's Wolverine in Marvel Studios' first R-rated project, matching the tone of Fox's Deadpool films. Several characters are expected to return from the previous films, though it's unclear whether they'll be permanent fixtures in the MCU going forward. Cast: Anthony Mackie, Danny Ramirez, Harrison Ford, Tim Blake Nelson, Seth Rollins, Carl Lumbly, Shira Haas, Liv Tyler, Xosha Roquemore Director: Julius Onah Characters: Sam Wilson, a.k.a. Captain America, Joaquin Torres, a.k.a. Falcon, President Thaddeus "Thunderbolt" Ross, Samuel Sterns, a.k.a. the Leader, Isaiah Bradley, Sabra, Betty Ross Studio: Marvel Studios Plot Summary: TBD Marking Anthony Mackie's big screen debut as the MCU's Captain America, Captain America: Brave New World is scheduled for release on July 26, 2024, after previously being slated for a May 2024 release date. Initially subtitled New World Order, Phase 5's upcoming Captain America film is expected to see Sam Wilson and Joaquin Torres, the MCU's new Falcon, go up against the Serpent Society, and butt heads with the new President of the United Stated, Thaddeus Ross. Now portrayed by Harrison Ford after the passing of the late William Hurt, Ross' role in Brave New World will set him up for further appearances in Thunderbolts and beyond. Cast: Florence Pugh, Sebastian Stan, Hannah John-Kamen, Wyatt Russell, David Harbour, Olga Kurylenko, Julia Louis-Dreyfus, Harrison Ford, Steven Yeun, Ayo Edebiri Director: Jake Schreier Characters: Yelena Belova, Bucky Barnes, a.k.a. the Winter Soldier, Ava Starr, a.k.a. Ghost, John Walker, a.k.a. US Agent, Alexei Shostakov, a.k.a. Red Guardian, Antonia Dreykov, a.k.a. Taskmaster, Contessa Valentina Allegra de Fontaine, President Thaddeus "Thunderbolt" Ross Studio: Marvel Studios Plot Summary: TBD In a brilliant divergence for the MCU, Thunderbolts' cast will feature villains and antagonists from previous Marvel Studios projects, uniting to undertake an unknown mission for the United States' government. With no Avengers crossover films planned until Phase 6, Thunderbolts is the only chance to see a major team form during Phases 4 and 5, though this is expected to have a very different feel compared to the Avengers in the MCU. Thunderbolts is expected to explain why CIA Director Valentina Allegra de Fontaine has been recruiting several morally questionable characters, and is also rumored to feature the likes of the Sentry and the Red Hulk.

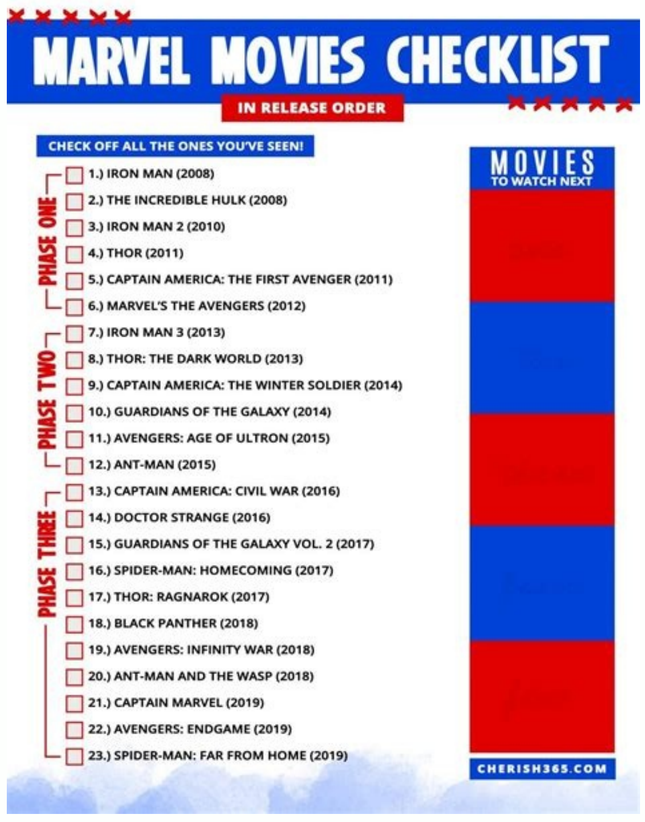

Cast: Mahershala Ali, Mia Goth, Delroy Lindo, Aaron Pierre, Milan Ray Director: Yann Demange Characters: Eric Brooks, a.k.a. Blade Studio: Marvel Studios Plot Summary: TBD Blade's production has been one of the most tumultuous in MCU history. Originally slated for a 2023 release, the loss of Blade's original director led to massive rewrites mid-production.
However, with a new scheduled release date of February 14, 2025, Blade is now on the cards for the MCU's Phase 5. The film's several delays may seem concerning, though there is plenty of time for Marvel Studios to perfect their introduction of Mahershala Ali as the vampire hunter. Following a voice cameo in Eternals, Blade is expected to feature the Ebony Blade and could potentially mark an appearance of Kit Harrington's Dane Whitman. Cast: TBD Director: Matt Shakman Characters: Reed Richard, a.k.a. Mr. Fantastic, Sue Storm, a.k.a. the Invisible Woman, Johnny Storm, a.k.a. the Human Torch, Ben Grimm, a.k.a. the Thing Studio: Marvel Studios Plot Summary: TBD Fox made two attempts at bringing Marvel's First Family to life on the big screen, but both the 2005 and 2015 adaptations were poorly received. After Disney's acquisition of Fox in 2019, however, the Fantastic Four were finally revealed to be coming to the MCU, kicking off Phase 6 on May 2, 2025. John Krasinski debuted as a variant of Reed Richards in Doctor Strange in the Multiverse of Madness, though it's expected that he won't be permanently portraying the iconic character. The MCU's Fantastic Four are set to be as big a feature as the Avengers going forward, and pivotal to the future of the MCU. Cast: Jonathan Majors Director: Destin Daniel Cretton Characters: Nathaniel Richards, a.k.a. Kang the Conqueror Studio: Marvel Studios Plot Summary: TBD Avengers: The Kang Dynasty is set to be the first of two Avengers films releasing in the MCU's Phase 6, releasing on May 1, 2026, after originally being scheduled for a 2025 release. Shang-Chi and the Legend of the Ten Rings' Destin Daniel Cretton is set to direct The Kang Dynasty, and Ant-Man and the Wasp: Quantumania writer Jeff Loveness is penning the script, though not much is yet known about the upcoming crossover film. Although expected to feature the formation of the MCU's New Avengers team, the only confirmed cast member is Jonathan Majors as Kang the Conqueror, though his future with the franchise is also unclear.
Cast: Jonathan Majors Director: TBD Characters: Nathaniel Richards, a.k.a. Kang the Conqueror Studio: Marvel Studios Plot Summary: TBD Originally scheduled to conclude the MCU's Multiverse Saga in 2025, Avengers: Secret Wars saw a delay to 2026, before finally arriving at its May 7, 2027, release date. Based on 1984 and 2015's Secret Wars events in Marvel Comics, Avengers: Secret Wars could see an incursion threaten to destroy the world of the MCU, changing the landscape of the franchise forever.
It's likely that most of Earth's Mightiest Heroes will join the fight, while several past Marvel characters from various franchises are also rumored to be making appearances. There is currently no attached director, though Loki head writer Michael Waldron has been tasked with penning the screenplay. Cast: Tom Hardy, Juno Temple, Chiwetel Ejiofor Director: Kelly Marcel Characters: Eddie Brock, a.k.a. Venom Studio: Sony Pictures Entertainment Plot Summary: TBD After defeating Riot and Carnage in Venom and Venom: Let There Be Carnage, respectively, Eddie Brock and the Venom symbiote are set to return for one more feature film, with a proposed release window in October 2024. After being transported to the Marvel Cinematic Universe by Doctor Strange's spell but quickly returned, it's unclear what villain Venom will have to defeat next. It's possible that Venom 3 will connect with other characters in Sony's Spider-Man Universe, like Morbius or Kraven the Hunter, and the film may finally feature an appearance by Spider-Man now that Venom has seen him on TV in another universe. Cast: Don Cheadle Director: TBD Characters: James Rhodes, a.k.a. War Machine Studio: Marvel Studios Plot Summary: TBD Originally billed as a TV series for Disney+, Armor Wars was revealed to be reworked as a feature film in September 2022, marking the first solo film for Don Cheadle's James "Rhodey" Rhodes, a.k.a. War Machine.

# MARVEL STUDIOS
# CHRONOLOGICAL ORDER LIST

CAPTAIN AMERICA: THE FIRST AVENGER (1943-1945)
CAPTAIN MARVEL (1990S)
IRON MAN (2010)
IRON MAN 2 (2011)
THE INCREDIBLE HULK (2011)
THOR (2011)
THE AVENGERS (2012)
IRON MAN 3 (2012)
THOR: THE DARK WORLD (2013)
CAPTAIN AMERICA: THE WINTER SOLDIER (2014)
GUARDIANS OF THE GALAXY (2014)
GUARDIANS OF THE GALAXY VOL 2 (2014)
AVENGERS: AGE OF ULTRON (2015)
ANT-MAN (2015)
CAPTAIN AMERICA: CIVIL WAR (2016)
SPIDER-MAN: HOMECOMING (2016)
DOCTOR STRANGE (2016-2017)
THOR: RAGNAROK (2017)
BLACK PANTHER (2017)
AVENGERS: INFINITY WAR (2018)
ANT-MAN AND THE WASP -SAME TIME AS INFINITY WAR
AVENGERS: ENDGAME (2023)
SPIDER-MAN: FAR FROM HOME (2023)

Though an official synopsis hasn't been released, the story could see War Machine recovering stolen Stark tech from around the world while dealing with his own grief after Iron Man's Avengers: Endgame death. The series will likely feature appearances and cameos by other tech-powered heroes from the Marvel Cinematic Universe, and will follow Rhodey's journey after his appearance in 2023's Secret Invasion. Cast: Tom Holland Director: TBD Characters: Peter Parker, a.k.a. Spider-Man Studio: Marvel Studios and Sony Pictures Entertainment Plot Summary: TBD Spider-Man 4 was confirmed to be in development in February 2023, and though details are likely a long way out, the movie will presumably follow Spider-Man as he rediscovers himself as a hero following Doctor Strange's memory wipe spell in Spider-Man: No Way Home. No Way Home's post-credits scene showed a piece of the Venom symbiote staying in the MCU after Tom Hardy's Eddie Brock was transported back to Sony's Spider-Man Universe, so Spider-Man 4 may feature Peter's struggle with the black suit. Peter will also likely struggle with whether he should reintroduce himself to his friends and girlfriend, who no longer know him. Cast: Simu Liu Director: Destin Daniel Cretton Characters: Shang-Chi Studio: Marvel Studios Plot Summary: TBD It was confirmed in December 2021 that a sequel to Shang-Chi and the Legend of the Ten Rings would be developed at Marvel Studios. Destin Daniel Cretton was revealed to be returning to write and direct. Shang-Chi and the Legend of the Ten Rings left several unanswered plot threads, particularly the origin of the titular rings and what the Ten Rings organization would do next under new leadership, so the sequel will likely come with answers.

Shang-Chi 2 will likely also continue the first movie's tradition of memorable fight scene choreography that mixes modern style with homages to classic wire-fighting films. Cast: Issa Rae, Hailee Steinfeld Director: TBD Characters: Jessica Drew, a.k.a. Spider-Woman, Gwen Stacy, a.k.a. Spider-Woman, Cindy Moon, a.k.a. Silk Studio: Sony Pictures Animation Plot Summary: TBD Intended as a spin-off from Spider-Man: Into the Spider-Verse, Spider-Women aims to be an all-female Spider-Man film in Sony's animated Spider-Verse universe. The movie will see reportedly see Gwen Stacy's Spider-Woman return alongside Jessica Drew's Spider-Woman and Cindy Moon's Silk. Bek Smith is attached to write the screenplay, though little else is known about the project. Cast: TBD Director: TBD Characters: TBD Studio: Sony Pictures Entertainment Plot Summary: TBD Jackpot was announced in 2020, with Marc Guggenheim working on the screenplay. Jackpot is a moniker used by two people in Marvel Comic. One is Sara Ehret, a scientist at an Oscorp subsidiary who has her DNA altered by a volatile virus. Not wanting to be a hero, Sara passes the mantle to Alana Jobson, who gives herself powers with the Mutant Growth Hormone.
Both characters have tragic stories centered on the themes of power and responsibility, and either could make for compelling on-screen heroes. Cast: Donald Glover Director: TBD Characters: Antoine Delsoin, a.k.a. Hypno-Hustler Studio: Sony Pictures Entertainment Plot Summary: TBD In December 2022, Donald Glover revealed that he would produce and star in a film set in Sony's Spider-Man Universe. The project will focus on Hypno-Hustler, an obscure Spider-Man villain from Marvel Comics, with Eddie Murphy's son, Myles Murphy, set to pen the script. In the comics, Hypno-Hustler controls others using his hypnotic guitar, which could be adapted in several interesting ways on the big screen. It's unclear whether Glover's new Marvel character will have connections to his previous portrayals of Aaron Davis in Spider-Man: Homecoming and Spider-Man: Across the Spider-Verse. Following plot threads started in Captain Marvel, Secret Invasion will follow Nick Fury and Skrull leader Talos as they navigate a Skrull rebellion on Earth. Not content with Carol Danvers' and Nick Fury's failure to find them a new home world, a subgroup of Skrulls spark a dangerous rebellion, working with the Department of Damage Control. With a grounded, espionage-thriller tone, Secret Invasion will lead directly into Nick Fury's appearance in The Marvels. Secret Invasion's cast will also feature Cobie Smulders as Maria Hill, Emilia Clarke as G'iah, Olivia Colman as Sonya Falsworth, Kingsley Ben-Adir as Gravik, Don Cheadle as James Rhodes, and Martin Freeman as Everett Ross, among others. Loki Season 2 - October 6, 2023 Loki season 1 was one of the most positively received entries in the MCU Phase 4, and Loki season 2 is set to follow up right where its predecessor left off. Though Loki season 1 ended with Loki in an alternate TVA, Loki season 2 will once again see the God of Mischief and Agent Mobius M. Mobius team up. The post-credits scene of Ant-Man and the Wasp: Quantumania showed Loki and Mobius in a crowd watching Kang variant Victor Timely, so the series is once again pitting its heroes against the Multiverse Saga's main villain, set to expand the franchise even further, and leading directly into Avengers: The Kang Dynasty. Echo - November 29, 2023 Marvel Studios' Echo will be a first for the franchise in that all of its episodes will release simultaneously. Alaqua Cox first debuted as Maya Lopez, a.k.a. Echo, as a secondary antagonist in Hawkeye, but eventually found herself at odds with her "uncle" Wilson Fisk, a.k.a. Kingpin, after discovering he killed her Father.
Echo will see Maya returns to her hometown to "reconnect with her Native American roots and embrace the meaning of family and community." However, with Vincent D'Onofrio's Kingpin and Charlie Cox's Matt Murdock, a.k.a. Daredevil set to appear, the consequences of her actions in New York City will surely be following her. Other Upcoming MCU TV Shows X-Men '97 is expected to release in 2023.
What If...? season 2 is expected to release in 2023 or 2024. What If...? season 3 is in development with no known release date. Agatha: Coven of Chaos is expected to release in 2024. Ironheart is expected to release in 2024. Daredevil: Born Again is expected to release in 2024. Spider-Man: Freshman Year is expected to release in 2024. Spider-Man: Sophomore Year will act as Freshman Year's season 2. Marvel Zombies is expected to release in 2024. Vision Quest is expected to release in 2024 or 2025. A Nova series is in development with no known release date. An untitled Wakanda series is in development with no known release date Marvel movies in order: June 2023 updateTom Power, entertainment reporter Secret Invasion has finally snuck its way onto Disney Plus, so we've given this guide an overhaul to add it to various sections. We've also updated our 'coming soon' and 'where to watch' sections, too, with the latest information available to us.Want to know how to watch the Marvel movies in order? You've come to the right place.Below, we'll explain the best way to stream every Marvel Cinematic Universe (MCU) film and Disney Plus show to date. In short, there are two methods to pick from: chronological order and release date order. We'll cover the benefits of watching the MCU movies in order using each method, before revealing which one is best for firs-time viewers and veterans alike.That's not all you'll learn about in our Marvel films in order article. We also explain where you can watch every MCU project to date (spoiler: most are on Disney Plus), provide details on every Marvel Phase 5 and Marvel Phase 6 movie and TV series coming before 2027, what the best MCU productions are, and much more.Here, then, is all you need to know about streaming the Marvel movies and TV shows in order.What's the best order to watch the Marvel movies for the first time?What's the best way to watch the Marvel movies as a newcomer, Loki? (Image credit: Disney Plus/Marvel Studios)MCU newcomers are better off watching the Marvel movies in release date order.Streaming some of the best superhero films and best Disney Plus shows chronologically is great if you're a veteran Marvel fan. Watching them in order of the year they're set gives you a new perspective on how events play out. It also ensures that repeat viewings won't become boring for you, either.However, watcing the Marvel films in chronological order becomes messy from an MCU timeline perspective. Because you're watching them in a linear format, events depicted in one film – 2010's Captain America: The First Avenger, for instance – precede what happens in 2008's Iron Man. However, you're supposed to watch events in Iron Man unfold play out before the end of Cap's first solo movie, which sees Steve Rogers wake up in modern day New York and meet Nick Fury for the first time. Watching the Marvel movies in order of chronology, then, can be disorienting for first-time viewers. If that's you, we suggest that you stick to the release date order method.How to watch the Marvel movies in chronological orderSecret Invasion is the latest addition to our chronological order section. (Image credit: Marvel Studios/Disney Plus)Best for: MCU fans who want to try something new.Here's how to watch the Marvel movies in order of chronology, aka the year they're set. We've listed every film and TV show in the order they take place on the Marvel timeline, with a quick rundown on why we've listed them this way.Thanks to events that transpired in Avengers: Endgame, the MCU timeline has become more complex in recent years. Admittedly, the Marvel movies timeline is about to become much easier to follow, with an official timeline book coming in September. Until then, though, we've done our best with the information we have.Captain America: The First Avenger is the first MCU movie in order of chronology. (Image credit: Marvel Studios)Captain America: The First AvengerCap's first adventure was the fifth Marvel movie released in theaters. However, because it's set between 1942 and 1945, you need to watch this one first if you're tackling them in chronological order.Captain MarvelCarol Danvers didn't burst onto the scene until MCU Phase 3, but her origins story is set in 1995.Iron ManThe film that kickstarted the MCU is technically the third film in order of chronology. Tony Stark's heel turn from weapons expert to superhero takes places in 2008.Iron Man 2Following swiftly on its predecessor's heels, Stark's second solo flick occurs in 2010.The Incredible HulkThe Stark MCU appearances keep coming – this time, he cameos at the end of the Hulk's first (and only) solo Marvel movie, which also takes place in 2010.ThorThe god of thunder stormed his way into the MCU in 2011.The AvengersWith the MCU's original major players established, we finally got the superhero movie of our dreams when the Avengers' official formed in 2012.Iron Man 3 kicked off Phase 2 of the MCU. (Image credit: Disney/Marvel Studios)Thor: The Dark WorldOne of the most maligned MCU films ever, Thor's second cinematic adventure is set in 2013.Iron Man 3Iron Man's third and final solo movie takes place around six months after The Avengers.Captain America: The Winter SoldierThe first movie set in 2014, Cap's second solo flick – one billed as a political/spy thriller – was the first Marvel film to explore genres outside of the superhero field.Guardians of the Galaxy Volume 1Star-Lord's lovable ragtag crew were first introduced to a wider audience in spectacularly humorous and music-laced fashion in 2014.Guardians of the Galaxy Volume 2The Guardians' second movie is set around six months after their first.I Am GrootThe first Marvel Disney Plus show to appear in this list, I Am Groot's cute five-part miniseries takes place in and around Guardians Volume 2.Avengers: Age of UltronThe superhero ensemble reunited for another tentpole offering in 2015 – this time, taking down the menacing AI/superbot known as Ultron.Ant-ManEarth's mightiest miniature hero made his MCU debut in 2015.Captain America: Civil WarThe third Captain America film was a mini-Avengers movie in all but name. It's set in 2016 and sees the group disband over the divisive Sokovia Accords, though it also introduced us to two of the most beloved MCU heroes in Spider-Man and Black Panther.Black WidowThe first Marvel Phase 4 flick, Black Widow was released in 2021 but is actually set in 2016 – just a few months after Civil War.Spider-Man, Spider-Man, does whatever a spider can! (Image credit: Sony Pictures / Marvel)Spider-Man: HomecomingAfter making his debut in Civil War, Spidey received his first MCU solo movie in 2016.Black PantherMarvel's first Best Picture Oscar nominee takes place in 2016.Doctor StrangeThe fourth and final film set in 2016 introduced audiences to the Sorcerer Supreme. Or, rather, the former Sorcerer Supreme – Strange being replaced by Wong due to Infinity War's events. But more on that later.Thor: RagnarokThe last movie to launch in theaters before that Thanos moment, Thor: Ragnarok takes place in 2017.Avengers: Infinity WarThe Marvel movie that changed it all. We witnessed our heroes lose for a first, catastrophic time in the third Avengers movie, which occurs in 2018.Ant-Man and the WaspEvents in Ant-Man's second film run concurrent to Infinity War, i.e. in 2018.Avengers: EndgameThis is where things get messy from a Marvel movies in chronological order perspective. Endgame begins in 2018 but ends in 2023 – thus beginning an era where we don't know where every film and show is really set. From now on, we're doing our best with the information we have about the Marvel timeline.Loki takes place in its own pocket timeline, which exists out of time and space. (Image credit: © Marvel Studios 2021. All Rights Reserved.)LokiOne of two Marvel TV shows to span the entire Marvel multiverse, Loki is best watched after Avengers: Endgame.What If...?Like Loki, What If...? is a multiversal affair. It isn't set in a particular year, so it's also best streamed after Endgame.WandaVisionSet three weeks after Endgame in our Marvel movies in order guide.The Falcon and the Winter SoldierAnother 2023-based TV series, but one that takes place six months after Endgame's, erm, end.Spider-Man: Far From HomeOccurs eight months after Endgame and sees Peter Parker dealing with Tony Stark's death (amid other issues) in mid-2024.Shang-Chi and the Legend of the Ten RingsShang-Chi's MCU debut contains flashbacks to his childhood, so it could be listed earlier. However, the bulk of the film is set in mid-2024.EternalsThis one could technically be the first entry in our Marvel movies in chronological order list as it begins 7,000 years before 2010's Captain America. Like Shang-Chi, though, it's mostly set in the present. According to Marvel Studios producer Nate Moore, it takes place around the same time as Far From Home, i.e. mid-2024.Spider-Man: No Way HomeThanks to the Halloween and Christmas/Holiday season decorations seen throughout this movie, we know it's set in late 2024.Doctor Strange in the Multiverse of MadnessStrange's multiverse-spanning sequel takes place after Spider-Man: No Way Home. Marvel's official timeline places it in 2024, preceding what happens in Hawkeye.HawkeyeJust like No Way Home, Hawkeye's first solo adventure occurs around the Holiday season, placing it in late 2024.Moon KnightThis show doesn't have a specified chronological date. However, it appears to take place in 2025, with Marvel's official timeline placing it after Hawkeye. Black Panther: Wakanda ForeverYou'd think this one is set in 2024, given its main events take place a year after T'Challa dies. T'Challa appeared in 2023's Endgame, so that would make sense. However, Nate Moore confirmed it plays out alongside Thor: Love and Thunder, so it must be set in 2025.Ant-Man 3 occurs around the same time as Black Panther 2. (Image credit: Marvel Studios)Ant-Man and the Wasp: QuantumaniaThe third Ant-Man movie runs concurrent to events in Wakanda Forever, which places it in 2025. We know this because Scott Lang's autobiography, which he's promoting at the start of Quantumania, is also shown briefly in Black Panther 2 (it's seen on a TV screen in the background of one scene).She-Hulk: Attorney at LawPreviously, we thought She-Hulk took place around Shang-Chi. However, the official MCU timeline positions it after Black Panther: Wakanda Forever and before Ms Marvel, meaning it occurs in 2025.Ms MarvelMs Marvel producer Sana Amanat suggests it's set "one or two years" after Endgame, which puts it anywhere between 2024 and 2025. To make things easier, let's say 2025.Thor: Love and ThunderThor's fourth solo movie is set in 2025. We know this as he tells former flame Jane Foster that it's been over eight years since they split up. Meanwhile, he tells Loki in 2017's Ragnarok that the pair mutually broke up. Add eight years to 2017 and you get 2025.Simple.Werewolf by NightThe first MCU Special Presentation is the most difficult production to pin down in this Marvel movies in order of chronology list. Our opinion? It's set in modern day, which puts it in 2025.Guardians of the Galaxy Holiday SpecialAs it takes place prior to Guardians of the Galaxy 3, we think it occurs in 2025, making it the penultimate entry in our Marvel movies in chronological order list.Guardians of the Galaxy Volume 3Given it follows the Guardians' Holiday Special, Guardians Vol. 3 is set a few months after the above special's festive-themed events.Secret InvasionSet in the present day, aka 2025.
The TV show's first episode confirms that this Nick Fury-starring series takes place at this point in time.Black Panther: Wakanda Forever joined Disney Plus in February. (Image credit: Marvel Studios)Best for: first-time viewers.Want to watch the Marvel movies in order of their release dates? Try this list instead. You'll start with 2008's Iron Man and end with Secret Invasion, which stealthed its way onto Disney Plus in June 2023.It's an easier blueprint to follow than streaming every MCU production chronologically, so Marvel newcomers should stick to this release date order guide.Iron Man (2008)The Incredible Hulk (2008)Iron Man 2 (2010)Thor (2011)Captain America: The First Avenger (2011)The Avengers (2012)Iron Man 3 (2013)Thor: The Dark World (2013)Captain America: The Winter Soldier (2014)Guardians of the Galaxy (2014)Avengers: Age of Ultron (2015)Ant-Man (2015)Captain America: Civil War (2016)Doctor Strange (2016)Guardians of the Galaxy Vol. 2 (2017)Spider-Man: Homecoming (2017)Thor: Ragnarok (2017)Black Panther (2018)Avengers: Infinity War (2018)Ant-Man and the Wasp (2018)Captain Marvel (2019)Avengers: Endgame (2019)Spider-Man: Far From Home (2019)WandaVision (TV show, 2021)The Falcon and the Winter Soldier (TV show, 2021)Loki (TV show, 2021)Black Widow (2021)What If...? (TV show, 2021)Shang-Chi and the Legend of the Ten Rings (2021)Eternals (2021)Hawkeye (TV show, 2021)Spider-Man: No Way Home (2021)Moon Knight (TV show, 2022)Doctor Strange in the Multiverse of Madness (2022)Ms Marvel (TV show, 2022)Thor: Love and Thunder (2022)I Am Groot (TV show, 2022)She-Hulk: Attorney at Law (TV show, 2022)Werewolf by Night (TV special, 2022)Black Panther: Wakanda Forever (2022)Guardians of the Galaxy Holiday Special (TV special, 2022)Ant-Man and the Wasp: Quantumania (2023)Guardians of the Galaxy Vol. 3 (2023)Secret Invasion (TV show, 2023How to watch the Avengers movies in orderThere are four Avengers movies so far. (Image credit: Disney/Marvel Studios)Best for: fans who only want to watch the Avengers movies.We already covered the best way to stream the Avengers films in the sections above. If you only want to stream these specific Marvel movies in order, though, this is how to do so.The Avengers (2012)Avengers: Age of Ultron (2015)Avengers: Infinity War (2018)Avengers: Endgame (2019)How to watch the Netflix Marvel TV shows in orderNetflix's Daredevil series is seemingly canon in the MCU. (Image credit: Marvel Studios/Disney Plus)Best for: viewers who want to understand Daredevil's MCU arrival.She-Hulk episode 8 seemingly confirmed Netflix's Daredevil TV show is canon in the MCU. That's because Charlie Cox's Matt Murdock/Daredevil is supposedly the same version of the character who appeared in Netflix's Marvel universe between 2015 and 2019.If Daredevil's Netflix series is canon, all the others must be, too.
Every Netflix Marvel TV show is available to stream on Disney Plus, so you can catch up on these characters and their stories over there.Daredevil season 1 (April 2015)Jessica Jones season 1 (November 2015)Daredevil season 2 (March 2016)Luke Cage season 1 (September 2016)Iron Fist season 1 (March 2017)The Defenders (August 2017)The Punisher season 1 (November 2017)Jessica Jones season 2 (March 2018)Luke Cage season 2 (June 2018)Iron Fist season 2 (September 2018)Daredevil season 3 (October 2018)The Punisher season 2 (January 2019)Jessica Jones season 3 (June 2019)What Marvel movies are coming out in 2023?The Marvels is the only other MCU movie set to be released this year. (Image credit: Marvel Studios)Here's every Marvel movie and TV show coming in 2023 and beyond. If you're a returning reader, you'll notice that Marvel has altered its release schedule again, with multiple movies delayed by a number of months. The Disney subsidiary isn't expected to hold its annual Hall H panel at Comic Con 2023, either, so we won't learn anything new about its forthcoming movie and TV show line-up. Sad faces all round.The Marvels (November 10, 2023) Loki season 2 (TV show, October 6, 2023)Echo (TV show, November 29, 2023) Deadpool 3 (May 3, 2024) Captain America: New World Order (July 26, 2024) Thunderbolts (December 20, 2024) Ironheart (TV show, expected 2024) Agatha: Coven of Chaos (TV show, expected 2024) Daredevil: Born Again (TV show, expected 2024) X-Men 97 (animated TV show, expected 2024) What If...? season 2 (animated TV show, expected 2024) Marvel Zombies (animated TV show, expected 2024) Spider-Man: Freshman Year (animated TV show, expected 2024) Blade (February 14, 2025)Fantastic Four (May 2, 2025) Avengers: The Kang Dynasty (May 1, 2026) Avengers: Secret Wars (May 7, 2027)Armor Wars (TBA)Spider-Man 4 (TBA)Wonder Man (TV show, TBA)How many Marvel movies are there?Avengers: Endgame is largely responsible for the messy MCU timeline. (Image credit: Walt Disney/Marvel Studios)32 MCU movies have been released so far. By the end of 2026, there could be 42 movies (at least) to fit in our Marvel movies in order guide.If you want to watch all of the Marvel movies in order, you'll need to set aside 4,246 minutes – that's over 70.8 hours or 2.95 total days. Add in the TV shows and specials, and it'll take a whopping 6,456 minutes (107.6 hours or 4.48 days) to watch them all.Where to watch the Marvel moviesDisney Plus is the best place to watch Marvel Studios' productions. (Image credit: Disney Plus)You can stream the Marvel movies in order, as well as the TV shows, on Disney Plus (read our Disney Plus review while you're here). That includes The Incredible Hulk now, too, which finally joined the streamer's back catalog on June 16 after the character's rights reverted back to Marvel. Universal had held the movie rights since 2008, but the studio's 15-year licensing deal has now ended.Unfortunately, some Spider-Man movies still aren't available on Disney Plus. Spider-Man: Far From Home is the only one of the webslinger's flicks on Disney Plus UK. Meanwhile, in the US, the Tobey Maguire Spider-Man trilogy (also available on Netflix), Andrew Garfield-starring The Amazing Spider-Man, Tom Holland's Spider-Man: Homecoming, and Sony Pictures' Venom are streamable on Disney Plus.
Even with those films, though, the newest Spider-Man Disney Plus licensing deal isn't as good as you think.Lastly, Guardians of the Galaxy 3 isn't on Disney Plus yet, either. It'll be available to rent or buy from July 7, though, while we wait for it to join the film library of Disney's main streaming service.Marvel movies in order: all MCU films and TV shows rankedGuardians of the Galaxy 3 is one of the better rated MCU movies. (Image credit: Marvel)For us, the Avengers movies are the best MCU films, but the whole thing is subjective. You can check our best Marvel movies piece for more on our rankings of each flick.We've also listed the Marvel movies and TV shows based on their IMDb user scores. Now that the Netflix Marvel shows are canon, we've added them to the rankings below. We've done likewise with Venom, Venom: Let There Be Carnage, and Morbius, too, given their multiversal ties to Spider-Man: Homecoming and Spider-Man: No Way Home.Daredevil (2015 - 2018) – 8.6The Punisher (2017 - 2019) – 8.5Avengers: Endgame (2019) – 8.4Avengers: Infinity War (2018) – 8.4Guardians of the Galaxy Vol. 3 (2023) – 8.2Spider-Man: No Way Home (2021) – 8.2Loki (2021) – 8.2Guardians of the Galaxy Vol. 1 (2014) – 8.0The Avengers (2012) – 8.0Iron Man (2008) – 7.9Thor: Ragnarok (2017) – 7.9WandaVision (2021) – 7.9Jessica Jones (2015 - 2019) – 7.9Agent Carter (2015 - 2016) – 7.9Captain America: Civil War (2016) – 7.8Captain America: The Winter Soldier (2014) – 7.8Guardians of the Galaxy Vol. 2 (2017) – 7.6Secret Invasion (2023) – 7.5Hawkeye (2021) – 7.5Doctor Strange (2016) – 7.5Spider-Man: Homecoming (2017) – 7.4Shang-Chi and the Legend of the Ten Rings (2021) – 7.4Spider-Man: Far From Home (2019) – 7.4Black Panther (2018) – 7.3Moon Knight (2022) – 7.3Ant-Man (2015) – 7.3 Avengers: Age of Ultron (2015) – 7.3Luke Cage (2016 - 2018) – 7.3The Falcon and the Winter Soldier (2021) – 7.2Werewolf by Night (2022) – 7.2The Defenders (2017) – 7.2Iron Man 3 (2013) – 7.1Thor (2011) – 7.0 Ant-Man and the Wasp (2018) – 7.0Doctor Strange in the Multiverse of Madness (2022) – 6.9Captain America: The First Avenger (2011) – 6.9Iron Man 2 (2010) – 6.9The Guardians of the Galaxy Holiday Special (2022) – 6.9Captain Marvel (2019) – 6.8Thor: The Dark World (2013) – 6.8Black Panther: Wakanda Forever (2022) – 6.7Black Widow (2021) – 6.7I Am Groot (2022) – 6.7Venom (2018) – 6.6The Incredible Hulk (2008) – 6.6Iron Fist (2017 - 2018) – 6.4Eternals (2021) – 6.3Ms Marvel (2022) – 6.3Thor: Love and Thunder (2022) – 6.2Ant-Man and the Wasp: Quantumania (2023) – 6.1Venom: Let There Be Carnage (2021) – 5.9She-Hulk: Attorney at Law (2022) – 5.3Morbius (2022) – 5.2For more Marvel movies in order content, find out how to watch the Spider-Man movies in order,, read up on how to stream the X-Men movies in order, oand check out our Marvel villains ranked list.
