

INDIANA TECH PROFILE

INDIANA TECH **Overview:** Established in 1930 in Fort Wayne, Indiana, Indiana Tech is a private, comprehensive university dedicated to providing career-focused education. The university offers a range of programs aimed at equipping students with practical skills for the workforce.

Academic Programs: Indiana Tech offers a variety of undergraduate and graduate programs across its colleges:

- College of Business
- College of Engineering and Computer Sciences
- College of Arts and Sciences

Rankings:

- Ranked #144 in Regional Colleges Midwest by U.S. News & World Report

Indiana College Core Transfer Opportunities:

Indiana Tech (formerly called Indiana Institute of Technology) students benefit from participation in Indiana's College Core Transfer Program, which facilitates the smooth transfer of general education credits to other public universities within the state. This initiative is especially valuable for students seeking to transition from Indiana Tech to higher-ranked institutions in Indiana, allowing them to carry forward previously earned credits and continue their academic journey without unnecessary repetition. The program ensures that eligible coursework meets statewide standards for credit recognition at Indiana's top public universities, including:
