**RESPONDENTS' NOTICE OF RELIANCE**

Pursuant to the provisionals of 37 C.F.R. 2.122, Respondents hereby give notice of their intention to rely upon, make of record, and introduce into evidence the following discovery documents:

1. Petitioner's responses to Respondents' First Set of Interrogatories dated February 3, 2016.
2. Petitioner's responses to Respondents' First Request for Production of Documents Dated June 22, 2016.
3. The Application File History for Application Serial No. 73-475680 for the logo trademark SCHIEDMAYER S filed by Schiedmayer Pianos, GmbH.
4. The Opposition File History for No. 91073054 for Application Serial No. 73-475680.

The subject responses are submitted for the purpose of demonstrating that at least Petitioner's False Association claim is barred by laches and/or acquiescence by Petitioner.

The file histories are being submitted as further evidence to support at least latches/acquiescence by Petitioner. While the Board can take judicial notice of these file history documents as they are the records of the Office, because of their age and because apparently at least some of them exist only in paper form, the file histories are being submitted herewith simply for the Board's convenience as they are the documents referred to in the Interrogatories.

Dated: June 18, 2018

Respectfully submitted,
