

Pure Estorlin Racing

Product Segment: Lubricants

Product Category: Racing

Product Sub-Category: Professional & Sportsman Oil

Description: High-performance lubricant designed for motorsports engines.

Klotz Estorlin has the Following Features:

- Multiple antioxidants used to mitigate oxidation and oil thickening, even under extended periods of high oil temperatures.
- Multiple anti-wear additives used to protect hardware, such as camshaft roller bearings and flat tappets, from wear.
- Contains powerful dispersant/detergent package to maintain engine cleanliness and prevent high-temperature deposits such as varnish.
- Dispersant/detergent package includes chemistry that activates at both low and high temperatures to protect the engine from startup to shutdown.
- Boosted with a blend of metallic and ashless friction modifying chemistry to lower oil temperatures and mitigate wear.
- Shear-stable polymers allow the lubricant to maintain its performance and viscosity under extended periods of high RPMs and high oil temperatures.
- High total base number (TBN) allows the formulation to neutralize crankcase acids, further protecting hardware.

Applications:

- Designed specifically for circle track, drag racing, sports car racing, and hot rod applications.
- Widely used in NASCAR, NHRA, ARCA, USAC and IHRA competition.
- **IMPORTANT NOTE:** Klotz Pure Estorlin Racing is not compatible with emissions systems.
