## Core Competencies

With nearly 100 years of combined experience supporting government and commercial Aerospace, Special Operations, Space, Intelligence, and International Security Cooperation missions, our team delivers expert-level acquisition and program support services throughout the entire lifecycle—from basic research through sustainment and program sunset.

### Expertise Includes:

- Research and Development (R&D)
- Requirements Planning
- Budget Formulation & Optimization
- Proposal Development and Evaluation
- Contract Strategy and Negotiation
- Full-spectrum Program and Acquisition Management
- Foreign Military Sales (FMS), Direct Commercial Sales (DCS), and Defense Security Assistance Programs
- Graduate-level Instruction, including National Defense University's Eisenhower School and the Center for Near East and South Asian Studies

---

## Personnel Highlights

- 85+ years of acquisition experience; 45+ years working on classified programs (TS/SCI)
- Team includes advanced degree holders (MBAs, MS, ME) and former senior defense acquisition professionals
- Deep familiarity with DoD, Intelligence Community, and international security frameworks
- Cleared staff with employees cleared to the secret and top secret/special compartmentalized information (SCI) levels

---

## Facilities & Locations
