## GCISD Recognized as Top District by NICHE

According to Niche.com, a platform well-known for evaluating and ranking educational institutions across the United States, GCISD has secured some outstanding rankings this year!

Looking into specifics, GCISD's report card received straight A's in all of its content evaluation areas, each of which receives a different weight.

The report card allocates 50% for Academics, 15% for Teachers, 12.5% for Culture and Diversity, and 12.5% for Parent/Student opinions. The remaining 10% encompasses facilities and activities.

Notably, a significant 65% of GCISD's score derives from its academic performance and quality teachers.

These are the highest marks that GCISD has ever received from this ranking platform, which sources its data from the U.S. Department of Education, among other notable quantitative resources.

Importantly, though, the ranking system also takes into account qualitative data, such as teacher, staff, student, and community opinions.

Grapevine-Colleyville ISD's recognition as a top-ranked district by Niche.com underlines its dedication to providing exceptional educational experiences and setting high standards for educational institutions within and beyond its vicinity.

**#2 "Best School" in DFW**

**#4 "Best School District in Texas"**

(out of 1,052 districts)

**#17 "Best Places to Teach in Texas"**

**#22 "Best Teachers"**

(out of 1,061 districts)
