5 STEPS TO ACHIEVING THE BEST RESULTS

Healthy Diet – The body is working hard to break down fat cells, so client must AVOID sugar and carbs for 48 hours prior to treatment, and 48 hours after the treatment.

Exercise – A vigorous 25 to 30-minute workout after the treatment can help sweat out excess toxins that the body is trying to release. It is required that the client also exercise daily between treatments.

Hydrate – Client needs to make sure to drink lots of water before and after the treatment session.

Avoid Alcohol & Smoking – This allows the body to focus more on flushing the fat out and not on removing the toxins that come from drinking and smoking.

Series of Treatments – Most people will require 5 to 7 sessions to produce the best slimming results, with each session occurring approximately 14 or more days apart. Results appear gradually over a few weeks and months.

EASY AND PAIN FREE

- FAT REDUCTION
- SKIN SMOOTHING
- MUSCLE TONING

- *Easy 35 minute treatment*
- *Pain free with no downtime*
- *Safe and effective*

Cryo-Lean 360™ is the newest device on the Market. Cryo-Lean 360™ is a non-invasive treatment that helps with fat reduction by inducing lipolysis (the breaking down of fat cells) to reduce body fat without damaging other tissues.
