

2023-2024 Supply List for Middle School Students at The Haven Academy & Canton Homeschool Resources

We will have school supplies on site, but many students want their own for school and at home use. These items are optional for use at school, but may be needed for students who work at home:

Colored pencils
Markers
Pencils and ballpoint pens
Notebook Paper
Scissors
Ruler

All students must have:

Backpack
Binders or folder system for organization
Water bottle- We will have a drinking fountain at the school for students to refill water bottles.

Laptop or Tablet- It is very highly suggested that middle and high students have their own laptop or tablet with them each day for school use. It is not required unless they are enrolled in ALEKS online options- they are required for these students. We have several laptops and tablets for student use each day. However, they may not be reserved in advance and may not always be available for students if they are already in use. Don't forget chargers! Keeping spare phone and computer chargers in backpacks is always a great idea!

Calculator- Middle schoolers can use a regular one but higher level high school students may need a graphing calculator. Their teacher will let them know if they do. Please do not count on students using their phones as a calculator as we try to limit the distractions of phones in class so students will need the old fashioned stand alone calculators.

Students may be requested to get a poster board or other small items for some projects or classes throughout the year.

Please put student names on these items. Students may also want a lunchbox to bring lunch in. We will have microwaves and a refrigerator for student use. We have a vending machine for snacks.
