

¹Highland Barn Photography Policy

Individuals or professional photographers wishing to photograph on the grounds of The Highland Barn for portraits of individuals, couples, friends and families, engagement, graduation, prom, maternity or styled shoots are required to make a reservation by emailing Aubry, the Venue Manager, at aubry@highlandbarnwedding.com at least 48 hours prior to the proposed time of their photography session. Once the reservation is confirmed, the individual or photographer must complete payment at www.highlandbarnwedding.com/photography to reserve the time slot. Some sessions may be charged more depending on the number of people (more than 10). We recommend that photographers carry a copy of this policy with them during their session for reference. Those who do not make an appointment will be denied access to the property. We ask that you respect our property and require that photographers and their subjects abide the following regulations:

- Photography sessions are scheduled between the hours of 8 am – 8 pm and may not be scheduled for times outside of this window.
- **We kindly ask that all participants drive 10 MPH on our gravel roads and do not park or drive on any grass, unless it is marked as a designated parking area.**
- Photography sessions are limited to only outside spaces; no interior photography sessions are permitted without prior approval.
- **Please keep children under control and in your sight at all times.**
- No standing or walking through flowerbeds or shrubbery.
- Do not move flower pots, benches, chairs, or any other lawn ornament.
- No climbing or sitting on gates, statuary, walls, fences, trees, buildings, and farm equipment.
- Please arrive dressed and ready. There are no changing facilities or restroom facilities provided for photography subjects.
- Please note that we are a working farm. Do not feed, touch or otherwise approach any of the animals.
- Only the photographer and subjects are allowed on the property during sessions. Do not bring additional people to the session.
- Be aware that we are surrounded by forested areas and that you may encounter wildlife.
- Please have your dog on a leash.
- Private props may be used with prior approval.
- Highland Barn LLC does not provide electricity, restrooms, seating or other logistical support for photography sessions.
- The operation of drones is prohibited without special permission from the Venue Manager.
- Photographers and their subjects are responsible for the repair and/or replacement of property damaged by their activities.
- Highland Barn LLC has the right to refuse any photography that would interfere with or threaten the safety of others and the historic structures and grounds.

- Photography sessions that are booked to include a Highland cow must be specified and designated in advance for planning purposes. As animals can have a mind of their own, there may be instances where they are not willing to cooperate, despite our best efforts. In these situations, we will provide a refund for the additional amount paid for photography with the cows.
