When the GRACE report came out I had hope, but over the too many years I've concluded that the only way NTM/E360 will have their remaining dirty laundry brought out into the open would be when a hound of a journalist does enough digging, grabs the laundry NTM/E360 tried to bury by the teeth, and piles it in the public square.

Then they will have to deal with it.

As long as the organization gets to call the shots on what gets investigated, how it is reported, and who gets the report, no justice or recompense of any significance may occur. **ETHNOS360 IS NO LONGER 100% IN CONTROL OF THEIR DAMAGING INFORMATION! (AKA THE TRUTH)**
