

# Introduction to Fly Fishing

Taught by Fourth Corner Fly Fishers

Whether you are new to fly fishing or have limited experience join us for a one day course. You will acquire valuable knowledge and practical skills to start your fly fishing adventures and enhance your fishing experience.

## Course Outline:

- **Fish Identification and Habitat:** Learn the various fish species and their preferred habitats.
- **Fish Food and Fly Mimicry:** Discover the role of aquatic insects and other food groups in the diet of fish and learn how to use flies to mimic these effectively.
- **Fly Fishing Equipment Overview:** Gain understanding of fly fishing equipment, including rods, reels, lines, and knots. Learn how to assemble your own fly rod.
- **Safety Precautions:** Learning essential safety measures on rivers and lakes.
- **Basic Casting Instruction:** Learn foundational skills for the basic fly fishing casts from certified casting instructors. (Eye protection is required for all fly casting activities.)

---
