

## WHY CHOOSE US?

Buying a home is one of life's biggest challenges! From finding the perfect property and securing a mortgage, to organising conveyancing and handling the move itself - not to mention the costs - it's a testing time.

Adding a RICS survey into the mix can feel like just another complication, raising all sorts of questions: "Which survey is right for me"? "How do I find a good surveyor I can trust"? "Why do costs vary so much between providers"? "Do I need a valuation"?

That's where **Your Surveying Partner** steps in. As a former Business Development Manager for one of the UK's largest independent survey providers, Gavin saw a gap in the market: a need for a more personal, supportive service. Rather than relying on automated systems and portals, he has built a company focused on 1-on-1 support, 7 days a week.
