Very decent man. Saw me quickly. He was direct, thorough, kept me updated with pics of progress, gave me a fair price, explained rationale for everything, and gave no bs. I'm so angry that I did not find this gem sooner. I'm moving from Gainesville in a couple months and I'd have saved so much headache if I'd come to him first. He even told me some potential other trustworthy places to go to in case he couldn't solve my issue (which, by the way, he did solve in less than a day, and was hundreds less than I was expecting). Please reward this kind of service by bringing him your business.

I usually come to him for oil changes and other auto repair. Great quality of service for a great price. He is a friendly and trustworthy guy. Will come back like always.

Recently got my inner and outer control arms replaced, got it fixed the same day! Great communication, great service. He also gave me a heads up on some minor issues with my car that I had no clue about. Will definitely be back.

Ramirez is a very, very good person. He solved a big problem for me and I installed a complete set of Benz ambient lights at his place. And all the threads are well hidden!! Really a great job. And, his charges are very reasonable.
