***This is Dedicated to You  
an American Citizen***

I must most solemnly confess to you that I have desired to write something like Common Sense 2025 (CS2025) for years. I just did not know if or when or what form it might take. And now it is here. I would have liked it to come in the form of my third book, which may happen in time. However, this American Reformation message getting out to my fellow Americans is most important. And such personal projects always take longer than we would like. You know what I mean.

But it is the right moment for this patriotic message to reach my frustrated fellow Americans. It will be posted on TheAmericanReformationForum.org the last of December 2025. In January CS2025 will be posted in parts on the CS2News Podcast and possibly at CS2News YouTube channel. See the website for links to both.

I write this for you in the spirit and with the patriotic attitude of the great American Revolutionary War writer and my writing inspiration, Thomas Paine.

**My Hero Thomas Paine and Common Sense**

To set a proper historical frame for this presentation, let us reflect for a moment upon our nation's birth...

To clarify the need for the Public's private consideration, here are the opening words from Thomas Paine's revolutionary pamphlet, *Common Sense* (January 1776). The historic pamphlet that George Washington credited with focusing the English colonists on the need for, as Paine wrote therein, "*a declaration of independence*". It began with these sobering words in the Olde English,

*Perhaps the sentiments contained in the following pages, are not YET sufficiently fashionable to procure them general favour; a long habit of not thinking a thing WRONG, gives it a superficial appearance of being RIGHT, and raises at first a formidable outcry in defense of custom. But the tumult soon subsides.*

***“Time makes more converts than Reason”***

o o o o

How are You Holding Up?

Yes, how are you holding up out there? I don't know about you, but I have had more than enough stupid, if not absentee government. It is an appropriate moment for my decades of observation, research, and writing to be brought to the public's attention. My writings are to and for the benefit of my fellow American men, women, and children. Citizens First with no apologies to be offered.

To be clear, I do all this for you, an individual American citizen. For you, for those you Love and otherwise care about, and for the other 345,000,000+ of our fellow American men, women, and children – that you and I will never, ever meet...

We are truly in this together. All for one. And one for all...

And to be crystal clear. I am seeking to serve ALL American citizens, regardless of any demographic and political differences. Herein and in other postings I will point you to, are over 40 solution proposals that were designed to be acceptable to at least 65% of the American Electorate. And they are. We will briefly review several of the publicly beneficial TARF solution proposals herein.

We the People can Demand the first two solutions to be implemented before the end of January 2026. Instead of continuing to wait for known corrective legislation that will never come. Those simple Guideline updates to school policy will yield immediate and ongoing improvements to our failing Public School System. And to millions of our students.

My absolute intent is to aggressively yet peacefully confront the P47 White House Administration as needed, especially on domestic policy. To call out P47s Tariff policy for what it is. An economic disaster that needs to be repealed.

To loudly, yet peacefully present real solutions to our long-standing social and economic problems. Solutions to vastly improve day-to-day life in America for our citizens. I will Demand action by the US Congress – in the People's name. Prudent and practical solutions will be promptly implemented, via the Reformed Democratic Party in Congress, that serve the Common Good of We the People. Simply because,

**We, the struggling Masses of Americans are,  
Mad as Hell and We are Not going to take it anymore...**

o o o o

Public Leadership

***Taking the people where they want and need to go,  
When they do not know how to get there...***

***A. J. Wildman***

**From the Author – With Absolute Intent**

Please note that this Author's Note and Dedication were taken from my 2008 non-fiction political book, the 713-page, *The Second Coming of Common Sense (CS2)*. With several appropriate edits! My book CS2 was just 17 years too early! However, much of its problem-solving content, including its 27 publicly acceptable legislative solutions, still apply!

Common Sense 2025 (CS25) could be considered Part 2 of my American Reformation Movement message to my fellow American men, women, and children. CS2 gave us prudent and practical approaches and legislative solutions for some of our social and economic challenges. Some of those solutions are obvious to the Public, but that our dysfunctional US Congress and broken 2-Party political system just can't seem to implement. That situation will now change for our Common Good!

CS2025 now provides the American Electorate with the hammer we require to Reform our broken political system. CS2025 is our winning 2026 Electoral Strategy leading up to November 2, 2026, US Congressional Election. It will allow the frustrated, abused, and frankly ignored American masses to demonstrate our near total disgust with both the Republicans and the Democrats in the US Congress.

The Republicans in the US Congress are sold-out and afraid of a lifelong bully and pathetic want-to-be-dictator. That Republicans political disaster cannot be fixed so we won't waste time there. We could very well burn down most Congressional Republicans during the 2026 Election cycle.

The Democrats have lost control of their Party to the out-of-control Liberals turned Progressives in their ranks. Progressives have succeeded in giving LGBTQ+ a bad name with the Voters. LGBTQ+ rights must and will be honored. However, We will work with the Democrats to resurrect their "Moderate majority" in the Party. And we will grow their US House and Senate numbers decisively to give them absolute control over Congress in January 2027.

I will show you herein how We the People could and will begin asserting our electoral control starting with the 2026 Democratic Party Primaries in early 2026. We will act to attract Moderates and Independents to run as new Democrats candidates promoting the TARP Platform.

They will run against all 219 US House, and 20 US Senate Republican held seats up for election on 11-2-2026. P47s illegal redistricting games in several states will not save him or the Party. We will run TARP Platform Moderate Democrats (TPMD) against all of them!

We will detail many more of their bad decisions during the 2026 Congressional campaign, like when all those 239 Republican members of Congress intentionally passed the Big Ugly Bill. That day they unknowingly "virtually signed" their letter of Resignation from the US Congress. And we will thank them for clearly demonstrating how little they care about day-to-day Common Good of Democrats and Republicans in their own States – at the polls on 11-2-2026.

That is why I now present CS2025 and many other posted writings to my fellow frustrated Americans. Because when the majority of our 345,000,000 citizens determine to do something for our Common Good, we will take no prisoners and will not suffer fools. And our peaceful, commonsense TARF Electoral Strategy cannot be stopped by anyone, including that want-to-be-dictator! Or the Republican Party's anti-Democracy Project 2025. P47 will be very aware of this movement before April 2, 2026!

American Democracy was never internally challenged until P47 made his lying way back into the White House on January 20, 2025. He then threw our economy that was still the envy of the world in early March, under the bus on April 2, 2025. Implementing a never-worked Tariff policy on all our trading partners. Adding 10 to 20% or more of unnecessary costs to our trading partners, producers, and so to the American consumer.

While denying the obvious damage it would and is causing. As recently as December 7<sup>th</sup> he said that the Affordability issue is a Democrat scheme. Just telling all Americans, including his remaining MAGA faithful that our food and gas and pedophile issues are not a problem to him. Simply because he does not care.

I ask the MAGA folks to please give the TARF Platform and the new Moderate Democrats that will be bringing it your polling place on 11-2-2026 a hard look. I wrote that Platform for all Americans. You certainly have things to be pissed about. I do, too. But this group of losers in the White House and Congress are selling us all down the road.

The Democrats need a hard lesson when it comes to their failing Progressive Platform. The Republicans are sold out and not caring about regular Americans. You know, We are the People.

Most of the P47 created problems can and will be corrected, folks.

We the People will never yield our Democracy and the Freedom of the Press to a life-long bully and disaster of a president. That just isn't going to happen, folks! Not on our watch it ain't.

Because in such dire economic and political times like this regular people like you or I step up and dare to lead the way! Challenging Americans of all types and opinions to put our differences aside and join in hard defense of our Democracy and the US Constitution.

May God continue to Bless the United States of America. Amen...

o o o o

## About Yours Truly – A Long Road Patriotically Traveled

Since you have no idea who I am, it is appropriate to share a few relevant details on my background. Mine was a 30-odd year career in the IT industry working mainly in Washington, DC (my hometown) for corporate and federal agencies. I was never a federal or state government employee.

Please think of me as a professional amateur writer. Excuse any typos and such!

I am a professional Business Systems Analyst and IT System Designer. I was also a Software maintenance manager a few times. Some of my IT experience was with Marriot Hotels, the Association of American Railroads, the Guaranteed Student Loan Program, Blue Cross and Blue Sheild of Maryland and DC, and the US Immigration Service.

In my career, I enjoyed taking over projects that were in trouble or that others did not want to touch – and successfully managing them. I liked the challenge and bringing order to chaos. And that project experience will surely be challenged right now, won’t it?

Common Sense 2025 is of course the ultimate test of my project management ability. To peacefully confront our broken US Congress and our White House occupant P47. As well as, to immediately begin to solve our Common Problems at a national level. Starting with our failing Public School System and then going to Immigration Reform and bringing back the Death Penalty with a vengeance! And more...

And you, my fellow citizen will be the judge of my efforts on your behalf.

Simply put, as great communicator Bill Maher declared not that long ago, “*America does not need a Revolution. It just needs to be fixed*”.

The TARF Platform brings the fixes that our newly Moderate US House and US Senate Democrats will campaign with and win on 11-2-2026.

o o o o

Please note I hope you find my writing style to be tolerable, folks. I am a “professional amateur” author! I write in a conversational style. I like to imagine that you and I are sitting somewhere having coffee and something stronger. We are having an unfortunately one-sided conversation. Except maybe the occasional head nods.

I naturally insert a little humor or sarcasm when I can. These are serious topics, no doubt. Because if you take this all too seriously it will make you crazy. I would like to be thought of as a bit of a cross of Will Rogers and George Carlin!

On a travel note! I highly recommend a visit to the Outer Banks, North Carolina any time of the year. If you love the beach for the beach, you will love it down there. Tranquility

Base. It is so good that God vacations there 2 weeks out of every year! Amen. A non-paid endorsement!

### Learning About National Policy and the Election Cycle

I have been a hard-core political Independent most of my adult life. Despite that I became a Democrat for about a year, only, to allow me to run in the 2024 Maryland Democratic Primary race for the US Senate. That allowed me to participate in several US Senate Democrat candidate Primary Forums along with Angela Alsobrooks the eventual winner, David Trone her major competition, and six and or so “others” including yours truly. Those of us that did not have snowball’s chance in hell of winning but choose to make some sort of public statement and learn from the process. Which I certainly did!

My purpose was to be able to speak at public Forums before hundreds of Marylanders and answer the People’s questions. Despite being a campaign team of one with no yard signs, I still earned almost 2,000 votes in the May 2024 Democratic Primary election. That was encouraging and the great learning experience I desired.

I was able to present my views on various hard topics of concern to the public. My blunt viewpoints on immigration reform and the aggressive use of the death penalty were not rejected by those groups. Our frustrated citizens want and demand practical solutions. Especially when some of those solutions are obvious to the Public, but that are routinely ignored by our dysfunctional 2-Party US Congress. And at the 50 State legislature level.

### A Long Road Patriotically Traveled

Finally, to note that I come by this patriotic effort honestly. First, because my mother and I watched every political debate, followed the campaigns, and stayed up all night waiting on returns on Election Day.

Second, because although grew up in Maryland and I was born in Washington, DC. And proud of it. P47 needs to quit messing with DC.

Also, because one of my ancestors, by the name of John Morton, on my mother’s side signed the *Declaration of Independence*. He was a member of the Pennsylvania delegation to the Continental Congress and signed it right under Benjamin Franklin. That makes me a proud, but non-registered member of the *Sons of the American Revolution*. Love it!

o o o o

We must be about our nation’s business...

## Introduction and a Patriotic Challenge to ALL US Citizens

### A Non-Party Patriotic Call for American Minutemen and Minutewomen Circa 2026

I now challenge my equally frustrated and/or struggling fellow Americans, absolutely including the MAGA folks. TARF is for ALL Americans to patriotically consider the following:

- First, thank God that you did not have to write this yourself. Seriously! Or thinking about it daily for so many decades!
- Be thankful that someone else stepped up at this critical moment in our nation's history with a workable and peaceful resolution to this *clear and present danger* to our 249-year-old Democracy.
- That all you need to do is to Demand and Expect that the 2026 Democrat Party candidates embrace the TARF problem-solving Platform. Of course, that is after you gain personal confidence about the Platform and the TARF operation. Of course, we will review and make appropriate updates to any existing TARF proposal. However, such changes will not be made for strictly Progressive political preferences. Not to satisfy typical Progressive or Conservative priorities.
- To aggressively promote the early 2026 Democratic Primary election of Moderate Democrat candidates that support the TARF Platform. Problem-solving, Moderate Democrats that we will actively support during the 2026 Congressional election cycle over the next year.
- And finally, that in this 2026 off-year US Congressional election – at least 80 million of us patriots will ***GET UP and GET OUT*** to the polls on 11-2-2026. And there We will vote in a newly Moderate Democratic majority into the US House of historic proportions.

And make a large impact on the US Senate races, as well. This is the same electoral fate We could inflict upon any of the 50 State Legislatures, holding elections on 11-2-2026! It is informative to note that there will be 19 US Senate Republicans running for reelection in 2028. The 11-2-2026 election outcome in favor of the Democrats, could make them very nervous...

Public leadership must be earned by the written and spoken word, and by **action**.

**Talk is cheap!**

o o o o

## **Where Do We Go from Here**

My patriotic intent is to inform and encourage my fellow Americans over the next 10 months through 11-2-2026. Also, to make our *Common Sense 2025* (CS25) readable and as interesting as possible for regular Americans that are not always interested in political commentary. CS25 is for everyone to read and privately consider.

I have a few comments on some of the Parts

Therefore, this is how I will present the rest of this patriotic and sometimes blunt, which are:

Part 2

Describe my self-appointed position as the first US National Arbitrator (USNA). I realized that the American Public does not have anyone to speak on our behalf. Someone that is NON-Party. Someone to speak Truth to Power and call failing leadership out for what it is – a Public failure.

Part 3

### **THIS IS A MUST READ!!!**

Describe the purpose of our community-based TARF Local Chapters. This subject is broken out separately because the Local Chapters Network will be the People's grassroots facility that will drive the 2026 campaign. This piece presents critical information for those starting their own TARF Local Chapter. Also, for a potential TARF Platform supporting Democrat candidate for the Democrat Primary in their respective area.

It overviews the first TARF proposals to be implemented starting January 2026. CS2025 boldly challenges our people to action on the first TARF proposals. I encourage the Victims Family and Friends (VFF) of those very problems to step up and take action. Our own VFF revenge Tour. Sound familiar!

### **EXHIBIT A – First 8 TARF Platform Problem-Solving Briefs**

Presenting descriptions of the first beneficial TARF proposals we will address. With a couple taking effect starting in January 2026, if we get started quickly enough! People want action and results now.

I want Americans to peacefully discuss our non-political-Party biased solutions as we roll through 2026. Challenging some of you to encourage and convince that relative that is always talking about fixing public problems to run for office in their 2026 Democrat Primary. BE AWARE. They do not need to be lawyers. Or political science major. Or even have a college degree. I don't have one! In fact, we would be better off if we never put another lawyer to any elected office.

So, let's do it. And again, be thankful you did not need to write this. It is my honor...

o o o o

# Common Sense 2025

## PART 1

### About Our American Reformation Movement (ARM)

What's in a name? As stated above, in trying to determine how to present all this information to my frustrated and struggling fellow Americans, a single thought kept to mind. There is no one at a national level that is speaking out for most of us. Speaking up for our Common Good. But, also responding aggressively to publicly disturbing comments and actions of various elected people and groups. Starting of course with P47. Like him calling reporters, "Stupid".

Therefore, ARM is the formal title for our patriotic grassroots effort to bring We the Peoples priorities boldly into the American Political System. A peaceful, political Moderate movement that will most likely become the TARF in most conversations.

To be clear, the "**No Kings**" march we did recently brought out the great mix of We the People. Made up of regular Americans that are the 2026 Minutemen and Minutewomen patriots needed to meet the challenge.

It was a great mix of folks that day in Westminster, Maryland where I live and walked that proud day. They were loud and talkative. Consider that for every one of the estimated 7,000,000 patriots around the country that day, there were a few others that wanted to i.e., 14,000,000, 21,000,000... People have had enough. Which really means we have had too much dysfunctional government from both Parties and not just P47!

More Americans show up to March and to Vote – when we are concerned or worried or have reached the Stage 3 – **totally disgusted**. It could well be a long, Spring and summer for Republicans. And to a lesser extent for Progressive Democrats. They will necessarily get a hard reality check from the Moderates that really make up most of the Party. The too quiet Democrats will now find their voices. There is much for their Party to consider.

### What is The American Reformation Movement (ARM)?

The ARM is a political entity I recently started to provide my fellow citizens with an independent legislative Forum for open and peaceful public debate. And present to the American Electorate the TARF Platform designed to be acceptable to 65% or more of the Voters.

Neither the Democrats nor the Republicans offer Party platforms that the voters can get excited about. Mostly because they do not solve our real day-to-day problems. Frankly over the years,

Democrats have been responsible for programs and policies intended to help the People.

The Republicans have favored the Wealthy and Big Industries and wanted to reduce social programs whenever they can. That difference could not be more obvious than it is the last 12 months. That is all that needs to be said on that. Except, that both the Republican and Democratic Parties have and are still failing us – only in different ways.

Thus, We the People via our 50 Primary Elections will decide to nominate 435 members of the US House of Representatives and 33 members of the US Senate for the 11-2-2026 Congressional Election. And then on Tuesday November 2, 2026, only We the People will make our decisions.

To be perfectly clear, my stressed-out fellow Americans – By our Votes on that day, We the People and no one else will decide the political destiny of both Parties, our sacred Democracy, and US Constitution.

The Good News is, We can handle it folks and We will. I believe in my fellow Americans. I have literally talked with thousands of people about politics and even religion when people wanted to. I am a born-again Christian. I also believe in the absolute separation of Church and State. No matter which Faith, or no Faith, is an individual decision.

As you will find in the TARF Platform the People believe in safe and legal First trimester, only, abortion service access. We could reinstate Roe in 2027! We will also be bringing back the Death Penalty with a vengeance. And TARF has a written and posted comprehensive US Immigration Reform Proposal. The Democrats will begin Demanding it in early 2026. To boldly challenge and replace P47s abusive immigration control farce. Details on that immigration Reform herein. We can and will fix things for the Common Good!

So, I am presenting TARF as the People's Problem-Solving Legislative Party. It probably won't be referred to as ARM very much. Most references will be for TARF.

Thus, going forward the US Congress will be an additional but unofficial legislative entity to deal with – the People's *common sense* TARF Platform. The People's legislative voice! What a concept.

To be crystal clear, the American Reformation Movement:

- Will never be a “political” party. Simply because we already have two Parties and three is a crowd. We will simply teach the US Congress how to be the problem-solving part of our government that The Founders intended it to be.
- Will never run candidates for any elected office. But will seek and support Democrats that actively support the TARF Platform in the 2026 Congressional Election.
- Will routinely offer TARF problem-solving legislative proposals to both Parties to be implemented. Then, the Congress could produce their own alternative legislation that the public likes more. Or they will be pressured to Publicly explain why they will not support the People's legislative solution. The standard political game of delaying

practical public-friendly solutions for months, years, decades will be thrown back into their faces.

To be clear, the USNA and TARF will be working primarily with the Democratic Party during the 2026 election cycle. Yes folks, it is about time to start solving our solvable social and economic problems! Which we will.

### **The American Reformation Forum (TARF or TheTARF)**

The politically independent organization under which we operate is The American Reformation Forum, to be known as, *TARF* or *TheTARF*. It will probably become a 501©3 organization, but not yet. That is not my priority right now, but your donation would be very appreciated! Thanks.

Today happens to be Wednesday December 17, 2025. I am preparing this document to post within a few days. Finally! Later than I would have preferred. However, it is allowing time for the Republicans to cast greedier and more hurtful votes on denying Health Care. Showing their true colors and serving hurtful whims of their failing leader. More public unfriendly reasons to throw 239 of them out on 11-2-2026. They are serving the Bully GOAT. My fitting name for him.

Again, the TARF will never become a political party. Thus, it will never have its own candidates running for office.

However, in 2026 TARF will serve to resurrect the Democratic Party. They will be supported with TheTARF problem-solving Platform and our common-sense oriented legislative arbitration approach. You will see a partial list of TARF Proposals next.

Simply put, the Moderates in the Democratic Party need to take over this year. They need to tell the Progressives to sit down and focus on everyone for a change. That is what I meant about “resurrecting” the Democratic Party. Especially after the 2024 Presidential election smack down! The four main reasons they lost on 11-5-2024 will be reviewed shortly.

As will be explained below TARF will aggressively promote the TARF People’s Platform to Democrats and Independents in the US Congress, both US House and Senate. And in 50 State Legislatures, too.

And to a lesser extent, Moderate and open-minded Republicans in the US Congress, both US House and Senate. Especially those seeking reelection in 2026! Congressional Republicans could find it a very difficult time getting re-elected in 2026. That is due to P47 fallout and their own freewill hurtful votes!

### **The P47 Cracks are Already Forming**

Consider that Marjorie Taylor Green recently announced she will resign from office in January to

avoid the P47 hate-machine. She used to be one of his best fund-raisers. She recognizes that P47 is cutting MAGA loose. He doesn't need their money or votes anymore. Just like on the Apprentice. Now if somebody dares to irritate\ him, like them continuing to bug him about his pedo/BFF, he calls them names, turns his back on them or fires them. The reality he missed with his constant Democrat pedophile rhetoric during the campaign, is that Americans hate pedophiles. People will not let it go. He is finding that out now.

Apparently, there are other congressional Republicans thinking about bailing out before the Primary season bites them! It will be most interesting to see if any Republicans turn into Democrats by mid-2026. It could happen. We the People, including more MAGA folks every month have had it with P47 and his sycophant (good old suck-up) swamp creatures.

P47 is electorally bankrupting their Party. Republicans don't want to experience another impeachment circus if they themselves survive 11-2-2026... You know the old political phrase. *“The third impeachment is the charm”*.

Have a nice day!!!

o o o o

## PART 2

### **Presenting the Role of the US National Arbitrator (USNA)**

Earlier in 2025, it occurred to me that the American Public does not have a spokesperson.

Because whenever P47 was issuing his daily insults to politicians, reporters, world leaders, etc., or doing another ridiculous thing, the Democrats leadership in the US Congress don't call him on it with any force. The Republicans have P47, but he certainly does not speak for the Democrats or for most of the American public.

The USNA will provide the Public with viable, objective oversite of the Congressional legislative process. To represent the People, the Arbitrator will criticize or praise, as needed, the conduct of members of both political Parties, P47 and the White House administration, and the Supreme Court.

To be the People's Common-Sense voice and representative. I believe you are getting that picture based on my P47 observations herein. Frankly, meeting the nation's need for someone to confront the Bully, as needed, on the People's and Democracy's behalf and defense.

The Bully and his lame policies must be confronted without waiting for another election to pass first.

In the self-appointed position as the first USNA, my public responsibility is to be an objective political analyst of the American National System. The way America and our elected government really works on a day-to-day basis. Or it doesn't work!

As the USNA, I am not here to be everybody's buddy. But I am here to speak up and speak out on behalf of the People against P47, and the Progressive Democrats as they fumble the ball. Because the bottom line is that both Parties are failing us in different ways.

I am here to scream Truth to Power, as needed, for the Common Good of all 345,000,000 of my fellow citizens – *before all others*.

In Thomas Paine's *Common Sense*, he spoke the truth about the colonist's oppression under King George III. In *Common Sense* Paine also called for a *declaration of independence* from the King's abusive rule over their day-to-day lives.

I am here to publicly call out P47 and his bunch of sycophants/suck-ups in his Administration. We may some Twitter confrontations!!

I am here to bring viable proposals to the Public's attention for Open Forum Debate. And to Demand prompt implementation of the Public's solutions via the US Congress.

Most importantly, a very concerned and struggling American public Demands someone to step up and determine how to make the American 2-Party System and the US Congress serve our

Common Good. This role is especially urgent considering the turbulent second term of P47 and the DAILY CHAOS he gladly inflicts on people, institutions, the Press, and even foreign leaders.

Please note that TARF USNA Tweets will be using **@USNatArbitrator**. Some Tweets and this document will be sent to the P47 Twitter account on Truth Social (more like Lie Central). I mean for him to get the People's opinions on his actions and the foul words that routinely flow from him. I will also begin using **@CS2News** again to distribute various information to the Public.

One of the first questions I plan to send him is just what Americans are supposed to do that cannot afford medical insurance? Just die? That is pretty much what Republican Senator Joni Ernst of Iowa implied. When she was asked at a public event what people should do without Health Care, Senator Ernst replied, "Well everybody dies". She is not running for re-election after speaking "her" truth. A rare moment of Republican honesty!

You remember how to deal with a bully. You confront them and call their bluff.

TARF USNA Tweets will be sent routinely to Joe Rogan. He is well respected and has an open mind when discussing serious social and economic issues. And he asks good questions and has large male following.

I will also copy Sean Hannity of FOX News fame. Also, Joe Scarborough and company over on MSNOW. And finally, although there will be many others, Nicolle Wallace host of Deadline: White House. There is a good cross section of politics, attitudes, and egos...

They will also go to the late-night talk show hosts that P47 loves so much. Enough said.

o o o o

## PART 3

### An American Agenda – The TARF Problem-Solving Platform

When I published CS2 in February 2008, the centerpiece was An American Agenda with 27 problem-solving 27 proposals. Each proposal was presented in 3 breakouts.

First, simply stating the Problem to be confronted.

Second, some practical Background for common understanding. Because many of those issues are not what most people know very much about. It is informing folks and sharing perspectives for consideration. I know I had to research and learn about some topics.

Third, presented one or more Solution Options. I would make a recommendation if there were multiple options.

As I stated many times, those published solutions were designed to publicly acceptable to 65% or more of the Public – the Voters. They are the result of literally thousands of one-on-one conversations with Americans of all types, ages, and prejudices.

I originally gave myself this *Project for America* in 1980! Good Grief! Yes, it is an odd hobby! This is my Common Sense 2025 Report for you and your family.

### **Spoiler Alert!!**

We the People and American Democracy wins on 11-2-2026.

First, to be clear about the hard challenges to be confronted and addressed by this Strategy. CS2 in 2008 “only” sought to solve various social and economic problems of the day. The set of 27 original proposals has grown to 40+ now.

Please see **CS2News Podcast** and **CS2News YouTube Channel** for 40+ podcasts and videos on the proposals. Please note they are several years old, but still applicable in so many cases. It is our TARF Legislative Platform and prudent starting point.

Please go to **CommonSense2nd.com** and select “**The Book**” option. There you will find the **entire book CS2** presented in multiple PDF excerpts for free download.

You will also find a link by which to order my 2008, 713-page soft cover book, ***The Second Coming of Common Sense (CS2)*** at *VirtualBookWorm.com*. Please check them out!

o o o o

Proposals for the Public Consideration – To Name a Few

In the Exhibit of this document, I have provided Briefs on the first TARF Platform legislative proposals for your consideration and possible action. Those are:

1. Removing violent pre-K, kindergarten, 1<sup>st</sup> grade, and 2<sup>nd</sup> grade children from Public-school classrooms, permanently. In January 2026, by Governor's order.
2. Removing ALL Cell phones and other coom devices from ALL Public-school buildings by 1-30-2026. The nation's High School Principals take control with parents.
3. Demanding Quality Phonics Learning as it is Needed.
4. Reducing the Unjustified High Cost of Higher Education by 25% in 2026/2027.
5. The TARF Comprehensive US Immigration Reform Proposal
6. Bringing Back the Death Penalty NOW
7. The Supplemental Income System (SIS) Program
8. Food and Housing for ALL Americans
9. How Far is it to the Planet Mars?

Again, some have minimal detail, but will be developed in the TARF Forum process.

You may also go to ***TheAmericanReformationForum.org*** for easy links to those and much more. Multiple proposals write-ups are presented on that site under the selection **Demand Legislation!**

The 18 legislative proposals included under the Demand Legislation selection are:

1. Federal & State Legislators Invade Florida Hospital Room. People Provide Congress Our Legislative Demands.
2. US Census 2000 vs 2020
3. Border Close and Guard the US/Mexico Plus – thru 2025
4. Sandy Hook Obviously Guilty 90-Day Death Penalty Reform (The SHOG Rule)
5. National Abortion Services Compromise Law
6. Wall Street & the Much-Abused Commodity Market – Establishing Quarterly Price Adjustments – No More Product Spikes for Fun and Profit Will be Allowed
7. US Citizen Fixed Address & National Rent Control
8. Forget Un-Employment – ALL States Implement the US Re-Employment and Relocation System – Those that Can Work, Will Work
9. The US Recycling Industry – Jobs and the Environment
10. Restarting the Military Draft for ALL Men and Women
11. Consumer Action #1 – For the Climate – No More Passenger Flights in Wednesdays
12. Consumer Action #2 – 2024 25% Reduction 4-Year Tuition
13. Cannabis as a Small Business and Hemp for Farmers
14. Restructuring National Healthcare for ALL Americans
15. Democracy in Economics – The US Wealth Tax – aka, the Economic Peace Tax

16. It is Not Racist to Declare No Reparations and Yes to Our National Racial Reconciliation
17. It is Not Racist to Declare the White Americans, Especially Men – Deserve a Day.  
    Making a Point!!
18. Efficient Reformation of ALL Family Services. With No Exceptions

Hope you find that list interesting, if not encouraging.

Yes, we have lots of good problem solutions to talk about.

That is all for now.

Take care, A J

## PART 4

### **The Heart of the Economic Matter**

#### **The Cost-of-Living vs the Eternal Have/Have-Not Struggle**

We the People have had enough of our broken US Congress and the public disaster that is now occupying the White House. This is what We expect government to figure out. And TARF will be pushing this issue.

There are 3 basic things that We the People now Demand our government to bring under control.

First, TARF declares that American citizens Demand that every citizen will have 3 meals-a-day of locally available, affordable food. *Feeding America* declares there are some 47 million Americans facing food insecurity. Daily challenges with hunger. This is unacceptable. Republicans will never address this issue voluntarily – people can just starve.

Therefore, Democrats must tackle the problem.

Second, TARF declares that American citizens Demand that every citizen will have a decent fixed address. According to USA Facts, some 771,480 people experienced homelessness in January 2024. That was up about 18% from 2023, about 650,000 homeless men, women, children, and veterans. This is unacceptable, also. Republicans will never address this issue voluntarily – just let them sleep in the streets.

Therefore, Democrats must step up and tackle the problem.

### **The American Indian Tribe Model**

I will get to #3 in a moment, but first I offer this perspective on providing life's necessities.

Consider for a moment if every American citizen knew when they woke up each day, they would eat that day and would sleep in that same place that evening. Yes, 3 regular meals-a-day and a regular residence, whether owned or rented, to call home – what a better America it would be. We can, will, and must make that happen, folks.

I use the operating example of an American Indian tribe. Everyone in the tribe has job(s) to do for the tribe. Of course, a few of them go out and bring back the meat for the tribe. They do not

keep to all for themselves. It is shared among the tribe or the weakest among them would suffer needlessly. If not die!

Our society and tax system is blatantly structured to favor those with wealth and political power. This is no secret. However, the P45 year 2017 and P47 year 2025 tax breaks blatantly favoring the wealthiest Americans have gone way too far. Add to that the Covid-19 Supply and Demand *windfall profit games by producers* that kept prices from going back down. Because, when their costs went back down, they kept prices up.

And finally on April 2, 2025, P47 voluntarily threw our economy *that was the envy of the world a month earlier*, right under the bus. His Tariff policy has never worked and it isn't now either.

All that and more has resulted in some 60% of American households living month-to-month. With some 50% or more of our people having less than \$1,000 in savings! Granted that households were struggling when P47 was elected. However, his Tariff policies and abusive attitude toward the global trading system assaulted our economy and drove up prices of everything.

A global trading system that was finally recovering from the COVID Supply shocks and his failed P45 term. Including farmers and cattlemen. He has shafted them again this term with another stupid Tariff game-of-chicken against China. Some farms have gone bankrupt. Their farms are probably being bought up by the huge Corporate Farms. In his P45 and now as P47 his tariff games have contributed to some farmers committing suicide. Deja vu all over again. He does not seem to care.

o o o o

### A Human Example of Life in America Today

The hard example of the growing wealth difference in America today is when one person can pull their car into the garage under the house. Then they hit a bottom and the car with them in it is lifted one or two floors up into the house. No nasty stairs to deal with. Another person on the evening news shares that she only has \$23 left...

And then there are IBKR Broker commercials offering that if you are not sure what to do with your “idle cash” to please give them a call. Any questions?

o o o o

Now this way beyond unacceptable, folks. Frankly, it is potential pathway to civil disorder in 2026. The cost of food, housing, higher education, and now medical insurance or the lack thereof. The masses are frustrated already in 2025.

Such civil protests are exactly what P47 wants to happen. Just the excuse he wants to send his presidential ICE Patrol to get those dam peasants under control. Especially, the closer it gets to the Congressional Election 11-2-2026. How dare the dam peasants disagree with his policies or not like his Republican candidates. No matter how ridiculous his policies and unqualified his candidates are.

It looks like the Republicans have succeeded in pushing the abusive medical insurance increases for January. The masses will be disturbed in both blue and red states. And disgusted with rising grocery prices, higher housing costs (both owned and rented), and higher medical insurance if they can even afford it. We the People are being priced right out of our own country.

Thus, TARP will help the US Congress to figure out how to begin what I term to be “Wealth Re-Cycling”. The tribe is suffering because those at the top are hoarding meat. It is just a numbers game, folks.

Yes, there were 3 things!

Third, TARP declares that American citizens Demand that every citizen that can work will have a job.

This is where real US Immigration Reform becomes part of the proposal I called in CS2 – US Population Management. The CS2 Immigration proposal ties right into what I call the Department of US Re-Employment and Re-Location Services. We will prudently reform the whole idea of “unemployment services”. Those that can work – will work! Those that cannot for valid reasons, we will help. It will be far easier to nail those playing the system.

To be clear. Wall Street and American businesses are going AI crazy. And have no doubt that they have visions of AI facilitated layoffs in their plans. That is the Plain Truth, folks.

We will make them aware of their and the government’s responsibility to re-employ all those that can be employed. Or plan on making up the difference with the TARP Supplemental Income System or SIS.

So, there it is, folks.

o o o o

### True Economic Reform – A Global Proposal

I am offering the SIS Economic Reform concept to all nations where it could be of practical use. The people of those nations will know if SIS could work for them. The people of too many nations struggle with the economic problem of overly centralized wealth and political power. Many of them also have related political power abuse problems bordering on revolution.

As mentioned, a few times herein. Bill Maher noted that “America does not require a revolution. It just needs to be fixed.” We have the fixes...

In 2025, we are talking about a historic and potentially volatile over centralization of wealth in America, especially since COVID-19 rolled through our economy. The Supply and Demand disruption forced producers and retailers to raise prices. However, when the Supply balanced back out and producer real Supply costs came down – too many of them intentionally kept their prices up to the consumer. This is how too many corporations *took care* of their customers – during and post-COVID.

As one cereal corporation executive said about that on CNBC, *well they have been paying the higher price for a while. So, we will just leave prices where they are. Up!* And the corporate windfall profits just kept rolling in. And corporate stock buybacks went crazy.

I need for folks to get some basic points about this imbalance as we approach and confront this most tedious problem in 2026:

- Today in America, 10% of us own 80% of everything. Read that again!
- Some 60% of families (1 or more people) are struggling month-to-month financially.
- There are over 500,000 medical expenses driven bankruptcies in the US each year. But, the Republicans in the P47 controlled US Congress has killed the Affordable Care Act insurance subsidies for millions of Americans. That 500,000 will only go up! Last year the nation of France had ZERO medical bankruptcies.
- AI will be taking more jobs that provide health insurance. Even employers provided medical insurance will be too expensive for more people in 2026.
- The Medical Insurance Industry does not feel any responsibility to cover all Americans. Think about that, folks.

### Europe and Socialized Medicine

No, I am not beating the drum for the Great Evil of socialized medicine. Such horrors! However, what you will soon find out about my proven problem-solving approach is I do not

care what anyone wants to label the most prudent and practical solution. Does it solve the problem and will most people accept it.

I explain the simple cause of America's health insurance crisis like this. I tell people that Europe and Canada have a better Health System than we do, which some people take exception to. They say but that it is socialized medicine! Again, the horror of it! I simply point out that they are living longer and healthier than we do. And majority of Europeans, not all, ever need to consider bankruptcy. Again, in 2024 the nation of France had ZERO medical bankruptcies.

My little World War II frame of reference explains it all. One hint. We have one of the only pro-profit national medical systems in the world...

During WWII, Europe was literally blown up. Family homes, businesses, and governmental services were destroyed. Kind of like GAZA and Ukraine look today. And Europe was in a little something called the Great Depression when WWII started. So, when the war was over, they had to rebuild everything. So, they prudently built social services to help everyone because no one had anything! Meanwhile, over in America, the for-profit medical insurance and pharmaceutical industries just kept making money, paying stockholders, and increasing rates and prices every year. And here we are today with corporate profits, executive compensation, stockholder dividends, and higher medical insurance premiums than ever. So, there it is.

That annual number of 500,000 medical bankruptcies is going to go way up since the Republicans didn't pass an extension of the ACA for even one year. You know, so the Republicans have more time to produce their mythical alternative medical insurance option. And P47 could finally fill us in on his medical insurance concepts. It seems to me that he and Joni Ernst have the same concept – "everybody dies". P47, We have only been waiting 10+ years.

Of course since the P47 Republicans are stupid enough not to extend that legislation – it will help to seal their fate on 11-2-2026 with the Voters. It will be even easier to attract those 239 new TARP Platform Moderate Democrat candidates to run against the Republican Congressional cult. Thanks, P47 for hating President Obama's and the Democrat successes so much.

Medical insurance is a huge problem from any angle. I will not go into that issue herein. My written proposal in CS2 is a few years old but is still presents a good starting point of serious action on this solvable problem.

I consider Healthcare to be a *National Infrastructure Industry*. Meaning we can't live well or long without it. Wall Street expects American corporations to yield 5 to 10% or more profit growth every year. Americans do not see that income growth each year. That does not compute!

Insurance companies' re-price and re-register their clients every year. TARP will seek to put an end to that annual renewal nonsense. They wind up covering fewer customers each year and charging those that remain higher premiums for the same or less coverage.

Firsthand Experience

Here is a personal experience to close this topic for now. TARF will be following up on this issue.

When I worked for Blue Cross Blue Shield of Maryland and DC from 2000 to 2002, they had an annual Employee Incentive Plan. If the company achieved all its financial goals that year, which it always did of course, everyone in the corporation would receive a bonus of at least 2% of their annual income. Someone in a regular management level position received a 10% bonus of their annual salary, e.g., a \$75,000 salary receives a \$7,500 annual bonus. Pretty nice.

The joke around the corporation was that when they brought in bonuses for the Board of Directors, they used wheelbarrows. Any questions?

Any problem in business can be solved.

o o o o

## PART 5

### ***Our Third American Civil War*** ***Our Second and Final American Revolution***

Historically Framing Our National Challenges in 2025 and Beyond

#### **An Encouraging and Challenging Historical Perspective**

For your consideration, I offer a Big Picture perspective that I have written about on the domestic warfare that has shaped our history as a Democratic nation. And the blood sacrifices made by our patriotic defenders.

Let us consider the following historical frame of reference in the Great American Journey that was declared in 1776. It is still running some 249 years later. And we will keep it running, too...

1. The First and historic American Revolution was fought by our national ancestors – about 2.5 million English colonists. Their vision, bravery, and bloody sacrifices secured our national independence. They created ***Democracy in Government***.

As I will mention a few times herein. With this being the year 2025, it is worth considering that our Democracy, let alone our US Constitution – DID NOT EXIST 250 YEARS AGO! Before that, tyranny and dictatorship existed in every nation. And we are not going back, P47.

2. Their *American Revolution* (1776 to 1781) was technically also our first Civil War even though we rarely think of it that way. The English colonists fought a bloody war against their English countrymen representing King George III. They won their war and their freedom from English bondage. Their struggle ***Created our Democracy***.

Total Killed	25,324	Wounded	8,445
--------------	--------	---------	-------

One percent of the colonial population of 2,500,000 died for us in that war.

3. Some 80 years later, the *American Civil War* (1861 to 1865) was technically our second Civil War. Americans from the Northern states fought horrific battles with Americans from the Southern states. It was countrymen fighting the bloodiest of warfare to determine whether America would remain a single nation. The North prevailed and the Union was maintained. Their heroic and bloody struggle ***Preserved our Democracy***.

#### **Killed and Wounded**

The North Killed	363,020	Wounded	281,104
The South Killed	199,110	Wounded	137,102
Total Killed	562,130	Wounded	418,206

4. Now some 160 years later in 2025, I declare that we are now living in our ***Third American Civil War***. I will note here and detail later, “America is not a racist nation”.

Like it or not folks, we are facing a domestic economic confrontation that could very well decide the fate of American Democracy on 11-2-2026. And our long-respected place as a world power. Read that a few times as you may need to, because it is the Plain Truth.

#### A Clear and Present Danger – The Heritage Foundation’s Project 2025

To be sure, P47 has and will continue to have his own policy failures, such as his ridiculous and failing global Tariff program. But we must add to that the Heritage Foundation advisors and their anti-Democracy Project 2025 have and will continue to intentionally break down the normal operation of our federal government along with our domestic and foreign policy. Their primary goal is to consolidate power in the Executive Branch – the White House.

Intentionally alienating our long-time allies and trading partners, even Canada and Mexico. Therefore, we not only need to address the social and economic issues that existed before P47 returned to DC, but also the growing domestic and foreign policy chaos that he has decreed and he naturally enjoys.

#### The Conservative Heritage Foundation

For Common Knowledge. Here is a sense of the overt and covert actions of those advising the P47 White House Administration. P47 stated during the campaign that he has never read Project 2025 which was probably the Truth! He does not read much of anything. However, P47 has been informed. The crew he brought into his Administration currently does, including some of those that created Project 2025.

Project 2025 was created by the Heritage Foundation and was published in 2022. It seeks to place the federal government’s entire Executive Branch under direct presidential control. Eliminating the independence of the DOJ, the FBI, the Federal Communications Commission, the Federal Trade Commission, and other agencies. (Source: Wikipedia)

The Heritage Foundation created Project 2025 in 2022. It was produced to provide the 2024 Republican Presidential nominee with a personnel database and an ideological framework. The project aims to overhaul federal agencies, purge career civil servants and replace them with loyalists to consolidate conservative power. (From Wikipedia and Advocate.com)

Regarding foreign policy, the initiative outlines a conservative vision for the future focusing on reducing government intervention, dismantling government agencies like the Department of Homeland Security and reducing immigration. (From teachmideast.org)

I believe the Heritage Foundation needs to have its IRS 501c3 tax deductible donation status needs to be reviewed and revoked. They used taxpayer dollars to develop a plan to dismantle and cripple the normal operation of our federal government. I will talk with *MY3 in the USC* about it.

Thus, it is our time to stand up for America, Democracy, and our US Constitution...

o o o o

5. Therefore, I do truly declare to you my concerned fellow American, that we are now living our ***Third American Civil War***, as well as our ***Second and Final American Revolution***.

It is being primarily waged to create ***Democracy in Economics***. Those 3 words will start many lobbyists minds turning. And that ladies and gentlemen is where the US National Arbitrator will serve to reconcile the Have and the Have-Nots.

So, let's face that reality and join and work together to win this historic battle for the Common Good of all American citizens. And to provide the hard example for the world that the Good and Humanity of the People – will certainly prevail over the Evil and Greed of the Few. Our Democracy will be defended...

TO BE VERY CLEAR AMERICA!! The **first major public event** in our 3<sup>rd</sup> Civil War took place on **November 5, 2024**. National Election Day. When enough of the American Electorate, completely disgusted with the Progressive-driven Democratic Party, voted back into office a failed leader that they rejected for a second term in 2020. They bought into his blatant lies and conspiracies. He knew how to hit the hot buttons of the MAGA folks and some others.

To be clear. **P47 was not elected in a landslide. He did not receive a mandate from the voters.** He is a legend in his own mind... That is, in his own mind.

So P45 lost in 2020. He did win in 2024 to become P47 and the American ***Bully GOAT!*** We should get him a T-shirt.

In fact, he only got about 2 million more votes than in 2020. And that was the net of the many voters he lost from 2020 and the new ones he deviously attracted. The Democrats with Kamala Harris got 7 million less votes than in 2020.

I will elaborate on this more in a bit later. However, simply put the Progressive-driven Democrat Party lost the 2024 Presidential vote for 3 basic policy failures and one candidate problem.

First, the Progressive loud obsession with LGBTQ+ issues.

Second, because of their failed Immigration policy of “everybody come”.

And third, what the Democrats have not openly acknowledged even after doing their internal election post-mortem reviews. Bluntly, over the last dozen years or more, the Democratic Party leadership have forgotten that White men even exist. Yes, I said that! Only because it is the Plain Truth. And we White men are more than fed up with it.

Of course, there a candidate problem explaining why the Democrats lost in 2024. It was that Kamala Harris was not a viable Presidential candidate to the Voters. To continue.

o o o o

The **second event** of our 3<sup>rd</sup> Civil War took place on **April 2, 2025**. The ill-named Liberation Day when P47 released his fantasy Tariff nightmare on our and the entire world economy. An economic policy that has never worked in practice. It isn’t working now and everyone in the world acknowledges it except for P47 and his band of political suck-ups (his sycophants) that make up his White House Administration.

However, the disturbing economic Tariffs did give P47 the opportunity to be an international economic bully. His ultimate fantasy realized. Just what he has always wanted to be. And some still think he wants to leave in 2029?? But then he won’t have the option after the 2026 election. Especially, once we start taking proper actions in the 50 State Democrat Primaries!

The **third event** and most defining event of our 3<sup>rd</sup> Civil War and our Second and Final American Revolution was the P47 Big (Ugly) Beautiful Bill or The Act now. He signed it into law on **July 4, 2025**. Thus, putting his Ugly touch on our nation’s 249<sup>th</sup> Anniversary.

It was also the day that the Republican Party of Abraham Lincoln and Ronald Reagan died!

Because Republicans in the US House and Senate all bent over and kissed P47s butt by voting against the Common Good of our People and their own constituents! For that unpatriotic betrayal, I declare that the 219 Republicans in the US House and the 20 Republican member of the US Senate up for reelection in 2026 needs to be electorally terminated by the voters on 11-2-26.

They are all afraid that P47 will “primary” them. Wait until they see how an enraged the American Electorate will set them up for defeat during the 2026 Democrat Party Primaries. It could be a long hot summer for the Repubs and P47, too!

o o o o

After that Republican anti-Democracy Budget bill signing on July 4<sup>th</sup>, there is no doubt that we will be determining who will ***Control our Democracy*** in 2026. Either We the People or P47 and the greedy Few. P47 and Project 2025 versus 345,000,000 American Citizens and Common Sense 2025. We will win – if we act!

An every-vote-counts electoral struggle across 2026 to decide if our American Democracy will even continue to exist. Please do not doubt the seriousness of this national moment.

OUR AMERICAN DEMOCRACY WILL MOST CERTAINLY CONTINUE...

Our historic Second and Final American Revolution will be peacefully contested via the informed actions and Votes of our citizens. We will hold numerous peaceful protest marches and gatherings. The *No Kings* approach. TARF and USNA will help to promote and organize official and peaceful TARF Community Walk-Abouts. Those peaceful public events to promote candidates and solutions that We the People Demand.

Again, it is all part of the public Arbitration between the Haves and the Have-Nots for the Common Good of 345,000,000+ of our citizens. Before anyone else.

### **Our 2026 Challenge is Clear – Defend Our Democracy and Control P47**

We the People of today and those we followed, have had our share of the good, and the bad, and the ugly of life in this nation. America is now 249 years and 5 months into our national voyage. The next 7 months leading up to July 4<sup>th</sup> were expected to be tedious at best given the P47 effect. However, that will not stand.

My patriotic goal as the USNA with this good news message of political Reformation – is to serve as an encouragement to All Americans, including the remaining MAGA folks. Please know that We are working to get our dysfunctional American Political Leaders sorted out and working for us.

I believe that the core of the MAGA group is pure patriotism. And that they will really like the TARF Platform once they learn about it.

We are Demanding the US Congress start solving problems in early 2026. Supporting the TARF Platform. Not waiting until after the 2026 Election to pass first. To begin functioning for our Common Good. NOW!!

I expect that by America's Grand 250<sup>th</sup> on July 4, 2026 – We the People will be feeling far more optimistic. The results of the 50 State Democrat Party Primaries will be producing TARF Platform Moderate Democrat candidates for the 11-2-2026 Election. To give voters a real choice. The frustrated American Electorate will take care of the rest...

We the People, will solemnly honor the blood that was shed by our national ancestors. Amen...

## 6. The Haves versus the Have-Nots – An Age-Old Struggle

This most critical issue of our Second and Final American Revolution addresses practical final confrontation in our nation between the Have and the Have-Nots. Mainly having to do with tax policy, covered public services, and the out-of-control Defense budget. The masses throughout history paid the price in taxes and in lives lost in battle in the name of Defense. Both military and domestic police services. It is too much.

We and nations all over the world are confronting the age-old struggle between the Haves and the Have-Nots. Meaning those with excessive Wealth and the Political Power over the government, versus, those who do not. Basically, the Few over the Many in too many cases around the world.

Folks, this is the key underlying issue that is driving unrest in populations all over the world. People must confront this critical imbalance in their own nation. We must soon deal the economic struggles and frustrations of the 20 and 30-somethings. Also, many of the elderly were struggling before P47 dropped his Tariff bomb on them and the rest of the World.

As the USNA, I will be challenging P47 on his failed Tariff policy. And ending it.

o o o o

A few words on our own Final Economic Battle.

Since 2000, the imbalance of wealth in America has been deteriorating. The Republican's under Bush II gave us the 2007/2008 Great Financial Crash which made the situation worse. Thus, the totally disgusted American Electorate turned the Republican financial mess over to the Democrats, again, to clean up. Which our first Black President, Barack Obama guided us through.

By saying again, I meant that in 1992 after 8 years of Ronald Reagan and four more years of Bush I, the totally disgusted American Electorate turned that Republican financial mess over the Democrats and President Bill Clinton. He not only sorted it out. *Slick Willie* balanced the dam Federal budget a few times in his 8 years.

Of course, after 4 years of P45 the disgusted American Electorate sensed he was not up to the challenge COVID 19 was and turned that Republican financial mess over the Democrats and President Joe Biden. He got things stabilized. By the time P47 rolled back into the White House the economy was the envy of the World in March 2025. I will not elaborate on that anymore.

Then, the along came P45 and Covid19 – an economic match made in hell!

In too many in the business community took greedy advantage of the Supply Chain crisis it caused. Prices started going up on everything, not just groceries and housing costs. Prices did not come down after Supply costs balanced out and the business community took the windfall profits to the bank. And the stock buybacks went crazy.

TODAY, some 60% of American families (one or more people) are financially living month-to-month. With 50% of people with less than \$1,000 in savings to cover them. Not that a few people could not manage their money. The greedy part of our economic system is closing in on people of all ages.

And Corporate America keeps sucking every dollar they can get out of us.

o o o o

**Democracy in Economics**  
**Our Second American Revolution**

A bit repetitive possibly, but most important for everyone to be aware of and consider.

It is important to note that our 2<sup>nd</sup> American Revolution MUST introduce and demand the creation of ***Democracy in Economics***. That for the benefit of ourselves today, and all those Americans that will follow us. That statement will wake up a lot of people!!

One of the American Agenda proposals introduces our approach to aggressively dealing with the age-old Have/Have-Not struggle in America. It is called *the Supplemental Income System (SIS) Program*. It is a new “wealth recycling” system I suggest that the people of many other nations look at starting in 2026. The over-centralization of wealth is a worldwide and growing problem. The Masses are being dominated if not ruled increasingly by the Few and the Greedy. Enough is Enough... At least in America.

The over centralization of wealth in America existed before COVID-19 hit. However, the greedy Supply and Demand abuses by businesses large and small since COVID-19 arrived, gave new and brutal meaning to the term “windfall profits”. And of course, the sold-out Congress did not say a dam word about it. It made that wealth imbalance more severe than ever.

**Reality Check Point – June 2025**

And then along comes P47. Sitting there and just lying to America that grocery prices are going down and gasoline is \$2.00/gallon. That is what we could begin calling his “*BST*” or *Beyond Sense Thinking!!*

In fact, on Friday June 20, at my local Shell gas station in Maryland, gasoline was \$2.99 per gallon. Then, P47 *bomb, bomb, bombed Iran* on Saturday. The following Tuesday gas jumped to \$3.19 per gallon. The following Friday it reached \$3.29 per gallon. And it took a long time to get back down, of course. \$2.00 a gallon in his dreams.

To continue.

All that said, folks. I believe you sense what a legislatively historic moment in which we find ourselves. That is, in addition to the pure insanity of the 2024 Presidential campaign. And the clear and present danger P47 and his reckless Tariffs bring to our economy and Democracy

America was originally colonized and grew only due to the brave men and women that stepped forward and did whatever had to be done to **Create** and **Preserve** this nation over the last 249 years. It is now our time to stand together against those that would destroy Democracy and rob us of our social and economic freedoms. We the People of 2026 must act to take **Control** of our dysfunctional government and secure our 249-year-old Democracy. And that We will do!

Therefore, just as my revolutionary hero Thomas Paine did for our national ancestors, I am here

to humbly inform you about what we can do to be victorious in this historic struggle. In his words in *Common Sense*, January 1776, Paine was the first to literally call for a *declaration of independence*. He then spent the 5 Revolutionary War years writing and helping to fight the Revolution. He often traveled with George Washington and was with him at Valley Forge.

This is for You and Yours

I am here my fellow Americans to both encourage and inform you that there is a straightforward strategy that We can take electorally to Reform our US Congress. This very summer...

I will be here front and center, working with the Democrats for and with you through this most noble national struggle. To be very clear, I care deeply about everyone's well-being and our precious and sacred American Democracy. Or I would not have done all of this. I am an active patriot. However, to be clear, I am not here to be your friend or buddy. I am here to inform, inspire, and challenge you and yours to act in 2026.

The US National Arbitrator via *@USNatArbitrator* and other media will loudly callout the White House along with Republicans and Democrats in Congress to be about the People's business. A true challenge to Lead, Follow or GET OUT OF THE WAY.

In 2026, the Moderates, Independents and the Democrat Party in general must step up and drop the constant Progressive LGBTQ+ obsession. That constant rhetoric has significantly damaged their reputation with the Voters. We have the plan to resurrect the Moderate core of the Democrat Party. And a whole lot more!

For the political Parties aggressively get Wall Street, the Wealthy, and Big Industries under rational control before they, most certainly drive us to repeat what began on October 24, 1929!

And finally, to encourage and challenge the P47 abused American Media to stir away from the irresponsible tabloid mentality that drives too much of their programming and content. For the Common Good of our citizens.

If we follow the TARF 2026 Election Strategy, no one and nothing can stop us!

So, let's just do it...

o o o o

## PART 6

### **The TARF 2026 Electoral Strategy – We Win!!**

To repeat the sub-titles from above,

Common Sense 2025

The American People's Unexpected Response to  
The Republican Party's Anti-Democracy Project 2025

*Resurrecting the Democratic Party  
and Burning Down the Republican Party  
On Our Way to November 2, 2026*

So, you and a few hundred million other voters of all types and attitudes (and the World for that matter) want to know what it will take:

- To get the dysfunctional US Congress working for our Common Good, again.
- To confront and fix our broken 2-Party Political System. Not with a Third Party!
- To provide our frustrated and struggling fellow American citizens with the TARF Platform. 40+ solution proposals that are acceptable to 65% or more of the public.
- To get P47 and his un-hinged White House administration under control without needing to impeach him. Necessarily... However, it will be our 2027 option after the 2026 Election!

And make all that sound possible to the Voters in the 50 Democratic Primary elections across the nation. The prudent and practical answers to those hard challenges are what I will be reviewing with you now.

Unbeknownst to you, I have been at this for many years. folks. Silently working for you and the other 345,000,000+ of our fellow American men, women, and children CITIZENS – that you and I will never, ever meet!

But we still care about each other. We are the Americans and dam proud of it!

o o o o

### How We Will Burn the Republican House and Senate Down

By attracting many new TARP Platform Moderate Democrats (TPMD) to run in the 2026 Primary season this Spring.

Some of this is a bit repetitive but is critical for common understanding.

The 2026 Party Primaries is where the American Electorate will begin to show our own peaceful, legislative vengeance on what has become the Republican Cult in the US Congress.

As I have said, my 2008 book, *The Second Coming of Common Sense (CS2)* with its 27 proposals, called An American Agenda, was just 17 years too early. People were just not ready for my aggressive, not Progressive problem-solving approach and TARP Platform. Today we have over a dozen more proposals at our disposal. In 2026, We the People are so ready to embrace prudent and practical solutions. And ready to vote quality Moderate Democrat candidates supporting the TARP Platform.

We need to create a Congressional environment where solutions like the TARP proposals are debated, revised as needed, then passed into law, and enforced. To finally see our problems being FIXED, by:

- Punishing the sold-out Republicans in the US House and Senate by voting most of them out-of-office on 11-2-2026. To include most of the 219 US House and 20 US Senate seats now occupied by Republicans. And potentially many more in State Legislatures across our nation. Get busy Democrats!
- To inform the Democrat Party that statistically most Americans consider themselves to be politically Independent rather than Democrat or Republican. And that most Democrats are quiet Moderates. Not loud Progressives. I acknowledge that Progressives are well-intended.
- To help build a movement of Moderate Democrat Party that supports the TARP problem-solving Platform. Certainly, to include Democrats currently serving in the US House and Senate. That includes what I call MY3 in the USC, who are:
  - Maryland US Senator Chris Van Hollen
  - Maryland US Senator Angela Alsobrook
  - Maryland US Representative Johnny Olszewski 2<sup>nd</sup> US District

You could look up your own *MY3 in the USC!!*

- Imagine, adding a totally new group of 239 Democrat candidates. That will run to replace most of the incumbent Republican “cult members” mentioned above! It can absolutely happen, folks!

Yes, Democrats have run against those incumbent Republicans for years, but the incumbents in Red states were often untouchable. That was then. This is now. The TARF Reformed Democrats in 2026 will respond to the concerns of a totally agitated Electorate. They will have the written and posted TARF problem-solving Platform the American Electorate masses will learn to appreciate during the campaign. The American Reformation Movement in action.

- Our 40+ TARF proposals are not all perfect! However, they will either solve our problems and/or will put us on the right path to our publicly acceptable solutions. Guaranteed!

They will campaign and win the Democrats a historic majority seat count in the US House. And they will most aggressively challenge and win many of the 20 Republican seats in the US Senate.

Republicans now in Congress will pay the political price for serving P47 rather than their own constituents or the nation for that matter.

o o o o

And guess what? There are another 19 Republican US Senate seats up for election in 2028!!

Yes, burn them down...

***These Are the Times the Try Men's, Women's, and Children's Souls***

Our governmental crisis has now clearly arrived my fellow Americans. Just in time the 2026 Minutemen and Minutewomen like **you to answer the call**.

***"A great man doesn't seek to lead.  
He is called to it,  
and he answers"***

**Duke Leto Atreides, Dune Part 1**

America now needs leaders to step forward. To respond to the patriotic challenge to Preserve, Protect, and Defend our Common Good and American Democracy itself.

Before the disturbing term of P45 and the chaotic term of P47, "only" the dysfunctional US Congress and broken 2-Party political system that had to be confronted. I first thought it would make devising a solution far more complicated, if not impossible, to also deal with a want-to-be-dictator. But not so!

In the end, first fixing the 2 broken Parties in the US Congress, remains the prudent approach to confront and control P47. It also gives the Voters a way to indicate their desire to have P47 impeached in 2027. Bingo!

You know how to deal with a Bully. You confront them and not back down...

And, We the People have a practical plan to do just that and much more.

To be crystal clear. As the US National Arbitrator, under *The American Reformation Forum (TARF)*, I will be posting this *Common Sense 2025* document about the first of January on the Home Page at [TheAmericanReformationForum.org](http://TheAmericanReformationForum.org).

I will then begin forwarding the document link out to our fellow citizens. Because they are desperately searching for bold, aggressive, and decisive legislative leadership. Leaders that do not lie to their faces as easy as breathing. Every day there are more MAGA folks comforting the reality of who they mistakenly voted back into office.

Of course, to the Fourth Estate – the American Press that reports the on-going chaos and damage being done by P47 and company. And to some people and groups that are friends of Democracy. The groups looking out for our rights in the 250<sup>th</sup> year of our *No Kings* government. And to the international Press since the World would like America to America, again.

### Global Considerations

Please note that I am reaching out to the World Press, e.g., BBC World, to promote 2 TARP proposals that could have real Global appeal. Both are presented herein.

The first global proposal has to do with removing all cell phones, comm devices, etc., **from all Public-School buildings worldwide** starting on Monday 1-19-26 and no later than 1-30-26.

Fathers and mothers, and grandparents around the World are now challenged to join in a Common Parental Action against this misplaced and terribly damaging technology. The great last day that these anti-education devices to even allowed in school buildings Worldwide!

This World could kind of have our own real “Martian Moment” on 1-30-2026. A global “thrill of victory” as happened in the movie, *The Martian* when they rescued Matt Damon from Mars! And everybody said, “Amen”. I do enjoy watching Ancient Aliens.

### They Get It Down Under

Coincidentally, you may have heard that Australia is now enacting a nationwide ban on Internet access for students under 16 years of age. Check it out.

The second global proposal is my Supplemental Income System (SIS) that begins to confront the severe wealth imbalance that is crushing ours and so many other nations. Two supplemental income streams will be created. One for grocery costs. The other for housing related costs. Logical. It will prudently re-cycle the extra wealth of the 10% to those most in need. And do it very efficiently. It will be a lively Forum debate.

Yes, TARP is trying to go global! Working for the Global Common Good, as well!

o o o o

### The Patriotic Call to Peaceful Yet Determined 2026 Electoral Action

It could really be that simple, just:

- Good politically Moderate Democrat problem-solving candidates.
- The written and posted TARP problem-solving Platform and a whole lot more.
- And 80+ million determined Voters on 11-2-2026.

We the People and Democracy, win! *No Kings...*

I do respectfully call on We the People, in general and the American Electorate – the Voters – of 2026, to personally decide to act upon the prudent TARP Electoral Strategy being presented herein. It is the patriotic thing to do.

It is a simple plan which is the best kind. As in the classic **KISS** Method. **Keep It Simple Stupid!!** As the best IT manager I ever worked for once taught me about “sophisticated designs”. He said the dictionary defines the word sophisticated as, that which has been robbed of its natural simplicity. A simply practical plan.

This Good News American Reformation message will begin circulating around the country as December rolls on into January 2026. We MUST work to have a major impact on the early 2026 run-up to the 50 Democrat Party Primaries. TARF and yours truly, the US National Arbitrator (USNA) intend to dramatically increase the viable Democrats Primary candidate pool (as in doubling it) in races for the US House and US Senate.

### The Republicans Have Already Resigned!

I am here to declare that the seat of every incumbent Republican in the US House (219) and US Senate (20) that freely voted for the P47 Big Ugly Bill, is up for grabs on 11-2-2026. Because unbeknownst to them, in so doing they also signed their virtual Letter of Resignation from the US Congress. Surprise!

I just might post all those 239 US House and Senate job openings on Indeed!!

It is the Republicans fair political punishment for that Ugly Bill and all of the other P47 violations and abuses they have allowed to go unchecked by the Legislative Branch of government they totally control. Failing to govern as The Founders intended for them to do. The Founders were our first “No Kings” group! We, the 2026 Minutemen and Minutewomen are the second!

o o o o

Not to be forgotten. P47 would **not** hold his hand on the Bible when he was sworn in last January. Check the video tape. It probably felt too hot for him. Ironically, many Republicans in Congress could be out of office before P47 finally sees the door. He is setting them up to fail.

So, I guess if someone knows how to bankrupt not one, but four casinos, he can also destroy a political party and wreck our national economy. Just by being himself. I told you I can be sarcastic and he makes it so easy. What P47 and the Congressional Republicans did not count on was the Public’s growing and absolute disgust with them all.

Of course, P47 did not count on TARF or the first US National Arbitrator disturbing his game. *He who has the last laugh – never quits!*

If all goes well folks, the wildly historic beating that Republicans could well receive on 11-2-2026 will also render P47 the Lamest Duck President of all time.

Now such a numerical power shift in Congress could very well stir up Impeachment rhetoric.

I will declare that I want to see him leave the White House. And out of Washington, DC, my hometown. However, We could do without that circus in 2027. Now then, “IF” P47 suddenly had his own a Scrooge conversion one evening and decides to be a real human being and start act like an American President – he might last thru 2028. I believe that miracles happen, but that is really pushing it.

Otherwise, in 2027 he could do the honorable thing and resign like Richard Milehouse Nixon. Or else I guess that old political saying will apply, “*the third impeachment is the charm*” could apply. Love that sarcasm.

I think appropriate to remind you that I am a hard-core political Independent, not a Democrat.

o o o o

If all goes well, by the end of the 2026 Democrat Party Primaries, P47 and his Republican cult followers in the US House and US Senate will see the writing on the wall. And it might well read, *Your Done!* If so, even more Congressional Republicans will not even run for re-election in 2026.

Our timely patriotic actions could make this July 4<sup>th</sup> a far more joyful celebration for our Democracy. Certainly, much better than we are now anticipating in our current nasty and oppressive political environment. No more pending doom under P47. People will have the US National Arbitrator working for them. We the People, win!

Also, Good News for some 435 Moderate TARP Platform supporting Democrats running for every seat in the US House. And for 33 TARP Platform Moderate Democrats running for the open Senate seats in that election. Again, including 20 seats of which are now held by Republicans.

### To be Crystal Clear

We will review the TARP Platform Democrat candidate selection process under the TARP Local Chapter functions next.

Those new Democrat candidates supporting the TARP Platform to the Electorate will prove the winning combination in 50 State Democrat Primaries and the General Election on 11-2-2026. We win!!

Those 219 US House Republicans plus 20 US Senators will be boldly challenged by what we will call TARP Platform Moderate Democrats.

The plan is to begin attracting quality TARP supporting candidates in January and right into the 2026 Democratic Primary election process. After that the Democrats will have 435 US House and 33 US Senate TARP Platform supporting candidates with a great chance of victory.

Because the more the Voters learn about the TARP Platform, its aggressive problem-solving approach, and the new Moderate stance of the Democratic Party, the writing will be on the wall for P47 and company.

### **The Bottom Line is Congressional Power**

This is what I meant by burning down the Republican Party. Or should we say what is left of that once Grand Old Party.

We will observe the Congressional power begin to shift away from P47 as the Democratic Primaries elect a full slate of TARP Platform Moderate Democrats. Especially, when the additional 239 Democrat candidates to run against Republican incumbents are selected in the Democrat Primary elections in all 50 states! Problem-solving candidates the Voters will look forward to voting into office on 11-2-2026!

The Big Picture could be looking and feeling much better to us by July 4, 2026. America's 250<sup>th</sup> Anniversary!

As it may well turn out, the Party Primary Voters in the Spring 2026 will show the 2 Parties who's in control of the 11-2-2026 Election outcome. I mean under growing Voter control as we approach the historic 2026 US Congressional Election.

### All 50 Governors Call Up Their National Guard for Protecting the Polls on 11-2-2026

Regarding the 11-2-2026 Election Day and the dirty tricks P47 is expected to play when he fears the Voting results. I am bluntly suggesting and challenging the 50 State Governors that they very publicly plan to have their National Guard and State Police securing the polls that day. To protect and facilitate the peaceful voting process. That is totally under the Governor's control be they Republican or Democrat.

We can do this my fellow Americans! And P47 and his band of White House and Congressional leeches cannot stop us!

God bless America!!!

o o o o

p.s. Remember that we can get 19 more Republican held US Senate seats in 2028!!!

## **PART 7**

# **The TARF Local Chapters (TLC)**

## **To Self-Organize in Your Area**

## **American Reformation Movement Forum**

**This TLC Piece is Most Important  
for Those Forming a Local Chapter and/or  
Anyone Considering Becoming a 2026  
TARF Platform Moderate Democrat  
Candidate for the US House or US Senate**

## **Our Success = Successful TARF Local Chapters**

**\* TLC \***

What we call the TARF Local Chapters will become the heart and soul of the American Reformation Movement. They will only complement and support the function to the typical Democrat Party Local offices during the 2026 election cycle.

The TLCs will assist in finding new TARF Platform Moderate Democrats to run for the 239 Congressional seats currently held by Republicans.

To be clear, those 239 prospective new Democrat Party Primary candidates will run for 219 US House currently held by Republicans. They will also run for 20 Senate seats currently held by Republicans that are the Electoral Grand Prize on 11-2-2026! The more Democrats that win, the better.

There will be no political Party rhetoric at TLC meetings. No political Party stuff.

Again, the first thing to remember is that TLC is not a political entity. It is a strictly Moderate Legislative Party. A place where Independents will feel right at home. The Public's aggressive problem solution producing entity. Finally!

That is why I created this whole thing. To provide We the People with a local place – A True Forum – to gather in person and/or virtually. A community place where we could talk about our

Common Problems and Issues, but without Party political rhetoric infecting the debate! The TARP goal being to develop informed, people-driven Common Solutions. We will give our TARP Solutions to the Democrats in the US House and Senate to prepare to take to the floor. Preferably within weeks or months, as opposed to years or never. The usual politics of endless delays or preventing votes will not be tolerated.

The TARP plan is to have at least one TLC in each county, borough, Parrish, city, etc., in the nation. I expect we could see far more than that, especially for and during the 2026 campaign season. The TLCs could have long term community value as people get comfortable with the peaceful information sharing environment.

#### A Safe Place to Meet and Share

The Forum is provided by the TLC as a safe, open community place for information sharing on issues of local and national importance. A few points:

- My hope is that TLCs become an active part of every community.
- It is a very patriotic organization. Americans first! Each meeting will start with the Pledge of Allegiance.
- Provide a comfortable, safe place to gather.
- To educate people in an open Forum for sharing information and perspectives on all matters of interest to their community.
- It is to be a non-political and non-faith driven community gathering place. We won't oppress any religion. We won't hold one religion higher than another. It is called the Separation of Church and State.

For the record, I am a long-time born-again Christian that supports abortion rights and the practical, if not aggressive use of the Death Penalty. God Bless America.

- Topics will have open public debate. Some debates could be lively but will remain below a scream. Anyone that cannot or will not be civil will be shown the door! I expect that some local off-duty police will join their local TLC and help to keep things orderly if needed.
- A TARP/TLC is a group place for everyone. Again, I want the TLC to grow in regular helpful function within the community.

So, check your political Party card at the door. And we don't care if you love or hate the Yankees or the Red Sox!

o o o o

### **Starting Up Your TARF Local Chapter – TLC**

I am forming the first TLC in Westminster, Maryland where I live. I am starting with some parents and grandparents of those children that, in the past or currently, are beaten up in pre-K, kindergarten, 1<sup>st</sup> and 2<sup>nd</sup> grades. Yes, this stupidity has been going on for many years – in all 50 states! And our Federal and State politicians won't touch it. However, it will be fixed by TARF Problem Solution #1 presented herein.

Local Chapters will be independently formed by those that have heard the TARF solution-based message on the 2026 election and want to help get things going. The *No Kings* kind of people. Thank you so much in advance.

To be clear. TARF Local Chapters and any Local Democratic Party Office are two physically different things for starters and in the future. Of course, in 2026 TARF TLCs will be working very closely with the Democrats in 2026. Remember, TARF is not part of the Democratic or Republican Parties. And never will be.

Many people will start the first TLCs because of a *single issue* – like the cost-of-living, removing cell phones, abortion rights, immigration control or the Death penalty! And again, because of some desire to run for political office in 2026. Terrific!

I will give you good sense of the first group of TARF problem solving proposals herein. An informative write-up on several proposals will be presented in this document. Consider this document to be the first TARF Platform training document of the 2026 US Congressional Campaign. Good information for voters, incumbent US Congressional Democrats, those 239 additional TARF Platform Democrat want-to-be-candidates, and to the American and World Press!

Such congressional candidacy interested individuals will need to directly contact their own State Board of Elections office and see their website for Candidate Filing Requirements. It is often found under a given Secretary of State's website.

I have personally spoken with the Board of Elections in all 50 states several times over the years. During the Election cycle they are very busy, but helpful people. They don't bite! Courtesy works both ways. The candidate process is similar but different in every State.

I will elaborate more about this in the coming months. However, concerning those Candidate Filing Requirements, **be aware you do NOT need to have a Law degree.** Or even to have studied Political Science.

You do not even need a degree. I don't have one! We want and need practical thinkers and problem solvers. People with a certain maturity about them and some actual life experience.

As noted elsewhere, no lawyers are required!

*Common Sense 2025*

We can and will do this for America. You or someone you know could be elected to the US Congress in just 10 months!

o o o o

## PART 8

### **Why the Democrats Lost the 11-5-2024 Presidential Vote?**

This part is as politically blunt as required. I touched on this earlier. To be clear, this will rub some people, but enough is enough with Democrat Progressives and Republican cult members. Only the resurrected Moderate core of the Democratic Party armed the TARF Platform could and should take control of the US Congress on 11-2-2026. This is political Reformation, not a revolution! It is why I wrote this.

Simply put. The Democrat Party is in critical need of a politically Moderate make-over. When the Public thinks of them, too many don't like what we hear and see. The Democrats lost critical voters in 2024 for 3 basic policy failures and one candidate problem.

First, LGBTQ+. Frankly, the American Public has had enough of Progressive Democrats constant LGBTQ+ rhetoric. Those folks absolutely deserve their rights, and that includes warning the Supreme Court not to mess with same-sex-marriage rights, etc. Frankly, it often seems that the Party thinks LGBTQ+ before anything else. Wake up people.

Second, Immigration. They simply want everybody to "come on down"! For starters, according to the HUD 2024 Annual Homeless Assessment Report stated, "*that from 2023 to 2024, homelessness in the U.S. increased 18% with approximately 770,000 people experiencing homelessness during this period*". That includes men, women, children, and veterans that are homeless. The entire State of Alaska had a population of 740,133 in 2024.

The TARF Platform has a written comprehensive US Immigration Reform Proposal that has 65% public approval. With it the Democrats and TARF in early 2026 could loudly challenge P47s totally abusive policies on rounding up "illegals". His policy is not intended to be an immigration solution. Ours most certainly is!

P47s immigration chaos policies are intended to intimidate both illegals and our own citizens! To normalize putting ICE, etc., in our cities. He will want to deploy his "forces" on 11-2-2026 to intimidate Voters from turning out. It will not work because 50 Governors will very publicly plan to have their State's National Guard and State Police attend the polls to facilitate to Vote.

Third, is what the Progressives do not like to hear when I tell them. But most also acknowledge the point as real. For the last 15 years or so, the Democrat Party has simply forgotten that White men even exist. And yes, I said that and we are rightfully fed-up with it!

A Sincere Message from Us Angry White Men!

Many of us men still vote Democrat including me, a hard core Independent. And to put it simply. Since 1775, over 1,400,000 Americans have given their life in battle for our country. And although many groups have helped along the way, White men have paid the far greatest price. Thus, respect is due...

Further, we White Americans, both men and women, HATE being called *racists*. To be perfectly clear! America IS NOT A RACIST NATION. Those that keep promoting that lie for fame and profit need to sit down and shut up!

Example #1

As a prime example of such hateful rhetoric, a couple years ago Black female journalist that was on the New York Times Editorial Board was on a MSNBC talk show. She normally had a bit of a racial edge to her rhetoric, but that was her thing. No problem. However, on that program I could tell she was busting to say something. I can read people sometimes.

Her moment finally came and she declared, “Anyone with an American flag in the front yard is a racist”. I screamed at the television, which I normally only do during football games! What’s worse is no one spoke up to challenge her statement. My systems analyst mind almost immediately came back to me and asked; does she include Black veterans? Good grief, Charlie Brown! She owes the nation a televised apology. MSNOW knows who she is.

Example #2

A Princeton professor is very regular guest on MSNOW shows. He cannot keep himself from always putting any Black Americans problems on the Whites. He just can’t let go of it.

A week after the Democrats failed in 11-5-2024 election he sat there making a falling gesture with his hands. Repeating, “It always comes down to the Whiteness”. And looking a bit like a martyr. Get over it. Check the video tape!

This is what drives people crazy about such Progressive Democrats.

To put a point on it. White people, including us White men were instrumental in electing Barack Obama into the Presidency. And dammed if we did not re-elect him four years later. Racists??

Yes, there certainly are White racists and Black racists in America. But, in case people don’t know it there are racists of some flavor(s) in every nation in the world. It is the dark side of human nature, unfortunately. Fortunately, THE HATERS are the real minority. Deal with it!

And quit making your money or promoting your sad public image by promoting hatred of any kind.

o o o o

The fourth reason unfortunately for the Democrats was a candidate problem. Simply because Kamala Harris was not a good presidential level candidate, in my opinion. And I am obviously not alone in that view. She was not a strong VP candidate to begin with. Biden made a bad choice. To be clear, there were better Black female candidates!

Further, my political view is it would be best if she kept her smile and laugh away from the 2028 Presidential Election altogether. Typically, Progressives won't tell her the truth. Besides that, she could not win...

To that same point for both Democrat and Republican Party leadership. The nation desperately desires to push the P47, Vance, Biden, Harris, and even Pence era into American political history. Yes, into our past. PLEASE!! ASAP!!!!

Also, Vance will not have a snowballs chance either in 2028. I hope the Republicans are dumb enough to run him! And the Democrats all said, amen!

Progressives, please leave the Race and LGBTQ+ issues aside and look at the real electability of the candidates in 2026.

I will gladly offer that Hilary Clinton was the most qualified person to ever run for President. I will also declare that Al Gore and Hilary Clinton were two of the worst campaigners ever! And look at what we got instead...

There are women succeeding and failing in all levels of government and industry today. The underlying voting problem as I understand it is that too many women still cannot see a woman in the White House. **Michele Obama** very recently publicly made that same observation about female voting habits, including Black and White women.

Like I said, blunt. Thus, it is a bigger stretch to imagine them voting for a Black woman before a White woman. Voting reality will bite anyone on Election Day!

For those that are profiling me, I am pro-women. I have 3 sisters! I am also pro-everybody that wants to solve our Common Problems.

As P47 will find out soon enough, TARF and the US National Arbitrator could be his worst nightmare. Because I am his alter-ego!

TARF and the USNA will aggressively work to solve our social and economic problems, rather than creating more of them. The Public will appreciate that.

o o o o

## PART 9

### About P47 and His Habit of Threats and Daily Chaos

#### Our One Additional Big Ugly Problem in 2025

The disturbing new problem I and We the People did not have to deal with in 2008, is the current President of the United States, aka, P47. He gladly creates more unnecessary problems to deal with almost daily. He also keeps his Republican Congress under his dictatorial thumb and keeps them from doing anything for our Common Good!

And, he also seems to admire the global bad guys, i.e., Putin.

#### A Few Words on the Republican Cult and the End of the Lincoln's Party

Grimly, I declare that the 2024 election of P47 was the last-ditch effort by the frustrated American Electorate to trust ANY VOICE that was at least telling them what they wanted to hear. And that is exactly what they got out of his lying mouth from 2021 to 11-5-24.

What they voted into the White House was a lying, Bully GOAT!! So going forward you MAGA folks please, *“Don’t get fooled again!”*

Speaking of P47s 2024 victory, he did get only about 2 million more votes than in 2020. Neither landslide nor a mandate. And that was the net gain over the many voters he lost from 2016 and the new ones he attracted by lying to frustrated voters for 4 years.

He got their votes and dollars then began forgetting them right after his inauguration on January 20, 2025. Because he does not really need them anymore for dollars or votes.

#### Why P47 Won’t Release the Pedophile Files on His BFF?

He is now publicly annoyed with MAGA because they will not drop the pedophile issue. He certainly played it up during the campaign. Now it is rightfully biting him. Why? Because the MAGA folks AND EVERYBODY ELSE – HATES PEDOPHILES. FOREVER!

In fact, he is not allowing the release of those damaging files for one and/or two bad reasons and this is not rocket science folks:

1. He knows that he is guilty of violating minor females that the files would prove.  
and/or,
2. The people of wealth and power that are absolutely named therein and guilty of such violations have told him is a dead man if their names come out!

Any questions?

To be clear, he really may not have violated those young girls. As only P47, the FBI files, and that the bitch partner of his Pedo/BFF can confirm. Although it is a real joke to think P47 had no knowledge of what his Pedo/BFF and his partner-in-crime were up to for years.

This is a blunt example of what happens when the wealthy and politically connected in a country become so powerful and above the law, that they can totally suppress such evil acts. This is all too common in dictatorships where the courts are but a joke. All at the Public's expense. But then they never really care of the peasants...

That is what is happening folks. As they say, "Reality is a bitch". And all the mindless, harmful things P47 is doing to distract and scare people will not deter OUR ABSOLUTE HATRED OF PEDOPHILES. They includes everybody, not just MAGAs!

That reality is what will help burn him and up to 239 Republicans on 11-2-2026. They have earned it.

Wait until these hits the Internet!

To continue.

The Democrats with Kamala Harris got 7 million less votes. The Voters that did not come out and vote Democrat again in 2024 helped to give us and the world FOUR MORE YEARS of P47. Thank you so very much. Not!

Thankfully, by December 27, 2025 (today!) many of them, MAGA or not, have seen the light! They could very well make amends on 11-2-2026. Paybacks are in order.

I do trust they and many more, MAGA or not, will be open to the TARP Platform solutions and Moderate Democratic candidates in 2026.

I ask the MAGA folks to seriously look at the TARP Platform. I believe it has the legislation and solutions you hoped to get from P47. I wrote this for all patriotic Americans which includes many of the MAGA faithful. Come on over folks!

Yes, it is about time for the Moderate core of the Democratic Party to rise and take control. Even though many folks could not normally imagine voting for the typical Democrat. Thankfully, we will have Moderate Democrats on the ballots.

The American Electorate acting as one team on 11-2-2026, will defend Democracy and the US Constitution. We will happily burn down the sold-out Republican Party in a single day and make P47 the lamest duck! Another Martian moment!

We the People will win...

### **The Abbey Normally Self-Serving Mind of P47**

These are some relevant observations.

My sense is that when P47 was about 7 years old, he figured out he could get attention every day by doing something bad, wrong or that he knew he was not supposed to do. By ignoring civil rules and any normal limits of behavior. He has done that his entire life.

His parents obviously never taught him how to be a good loser. Because he sure as hell isn't... A most fragile ego.

And they obviously did not teach him what we were all taught in the timeframe. "If you cannot say something nice, don't say anything!" He has the "*greatest publicly foul and abusive mouth*" of any President in history.

P47 has acted as a dictator his entire adult life. He believes that he is still on the Apprentice show. If anyone dares disagree with him or did not do exactly what he wanted – they were at least berated or else fired!

Kind of like him threatening to "primary" any Republican in Congress that will not bow down to him. Those 239 TARP Platform Moderate Democrats running against his sold-out Congressional Republicans will more than "primary" them on 11-2-2026.

When he was P45, he did not understand the power of the US President. Thankfully, he also had some sane and publicly responsible people around him. So that somewhat controlled his devious nature. And he did not fully implement his never worked and doomed-to-fail Tariff policy then. However, he did burn the farmers and then used taxpayer money to cover some of the damage. Just like he is trying to do this time around. His bully ego just wants to mess with China. But China doesn't bow to him.

Frankly, the leaders of China and Russia both tell him, NO! So, he backs off.

P47 and real dictators do not like the word, "No".

### **The Once Supreme Court**

What P47 and the almost sold-out Supreme Court majority don't want to understand is that the President of the United States **has LESS authority and control over a nation than a dictator does!!**

The Supreme Court needs to quickly realize that dictators have little time or affection for the Courts! As P47 has demonstrated his entire life. He needs to be restrained.

In 2020, the American Electorate, that I call the soul of America, wisely decided he was not worthy of the job and bounced him out the door. It was not that he started Covid, but he did not

know how to deal with it. And he was kind of messing up the economy with his early Tariff games. Again, the Farmers remember his first term and his antics that cost them dearly. He unnecessarily ruined trade, drove some to bankruptcy, and sadly some to suicide. He does not care. Then spent billions “bailing” them (mainly Big Agriculture) with taxpayer money. He is performing the same abuse as P47.

He then spent the next 4 years bullying the Republicans in Congress. And endlessly bitching and moaning and lying to his MAGA folks. And on the way up the 2024 Presidential Election he learned a new word, “grocery”. Then he lied about lowering prices on everything DAY ONE! That combined with Kamala Harris being a poor presidential candidate gave us “FOUR MORE YEARS” with P47. This is like living in a very Grimm Fairy tale.

o o o o

A final sad fact about what drives P47 every day. He most enjoys making anyone and everyone that he can – afraid of him. That is why I bestowed his most appropriate nickname, **Bully GOAT**. There is his, Little Marco!

Whether it is Congress, Democrats, legal immigrants, our own people, foreign leaders, reporters doing their job or anyone else. He enjoys messing with people. And messing with institutions like the Kennedy Center. To be clear, when he is finally out-of-office, his name will be removed from the building. He is like a dog marking his territory!

He reacts like that 7-year-old learned to do. He acts badly.

o o o o

### The Need for this Electoral Reformation in 2026

The bottom line. I determined that our nation, our Democracy, our national reputation, place in the world, and the daily peace of mind of 345,000,000 Americans cannot tolerate 3 more years of the Bully Goat. And we do not need to either.

That is why I developed the TARF 2026 Electoral Strategy I am sharing with my fellow Americans and the World herein. Because We the People, and the World to a lesser extent for the last 11 months (or more) are suffering from what I call the Middel East Syndrome! To explain.

For many decades there have been too many places in the Middle East where the people are worried about a random shell exploding into their life at any time. Every dam day!

In America we have not known that endless stress. We have fought foreign wars and worried about the lives of our blessed military. However, it did not place great day-to-day stress on our people as so many in the Middle East face this very today.

That is, until P47 showed up. Prior to P45's arrival in 2017, we normally only heard about what the President was doing a several times a week. And normally it was not disturbing news. Unfortunately, under P47 we Americans wake up every day and must wonder what harmful, hateful, and ridiculous thing he will do today. We are worn out by his self-serving habits.

The entire World, except for his buddy Putin, is sick of his antics and needless abuse.

Like I said. We need not tolerate this for 3 more years.

I acknowledge that the initial public response to this patriotic message could start slowly in January. However, it will grow due to the Common Sense of it to our frustrated and struggling citizens. Also, with the help of the Fourth Estate, our great American Press reporting on this American Reformation Movement. Events will turn in the People's favor.

We will soon enough begin to identify Moderate Democrats to fill the 239 candidate job openings as the Spring passes and the 50 Democrat Primaries are completed. The anti-Republican backlash will rock the US Congress all summer and P47 will realize his want-to-be-dictatorship days are numbered. He will lose control over Congressional Republicans.

P47 will then really attempt to scuttle the 11-2-2026 election in any way he can.

o o o o

Not to worry folks. To repeat what I wrote earlier.

Regarding the 11-2-2026 Election Day and the dirty tricks P47 are expected to play when he fears the Voting results. I am publicly challenging all 50 State Governors be they Democrat or Republican, to very publicly plan to have their National Guard and State Police deployed to secure the polls that day. To beat him in his own game! To protect and facilitate the peaceful voting process.

That is totally under the Governor's control. To me the 50 State Governors are the nation's backup quarterbacks when the White House cannot or will not do its job for America. Or when the White House is attacking America...

We can do this my fellow Americans! And P47 and his band of White House and Congressional leeches cannot stop us!

p.s. And don't forget we can get 19 more Republican held US Senate seats in 2028!!!

o o o o

#### To Close This Piece

Therefore, in 2025 I also had to determine how to get P47 under some viable level of control. No cheap trick! And preferably do it before the 2026 Election.

At first it did complicate the problem-solving process. However, it also made it simpler in the end. I believe We have our plan. This Strategy works on paper and is reality based! Which is the first sign that We are on the path to success.

All I need to do now is encourage some 80 million or more of us, in an off-year US Congressional Election to go to the polls on 11-2-2026. To give them **good reasons** to vote for TARF Platform Moderate Democrats. To vote against every P47 sold-out Republican in the US Congress up for election. Also, any Republicans in the 50 State Legislatures up for election that day, as well!

The written and posted TARF Platform should provide concerned Voters with multiple good reasons to vote that day. Earning your votes is required to make this American Reformation Movement successful for our Common Good.

I believe the patriotic 2026 Minutemen and Minutewomen will answer the nation's call. Both in the 50 Democrat Party Primaries and on 11-2-2026. There will be no games allowed with vote counts.

Remember that old political phrase. "The third impeachment is the charm".

All this could well make America's 250<sup>th</sup> Anniversary in just 7 months, far more joyful than We the People were expecting before Common Sense 2025 was presented for their review.

God Bless America...

o o o o

## PART 10

### **In Closing – Our American Reformation Movement Begins**

This is being posted, January 1, 2026, on the Home Page TheAmericanReformationForum.org.

I do thank God for getting me to this point of completion. I am thankful for the opportunity to serve my country in this way. Amen.

This writing is longer than I wanted it to be. I could have written more! However, I did touch on the key points to be made about our troubled national condition. About how We the People may unite during the Democratic Primary Elections to elect a new group of Moderate Democrats supporting the TARF Platform to represent us in the historic 2026 Congressional Election on November 2, 2026.

o o o o

### **Now Our Big Push Begins**

I will begin to push the Common Sense 2025 message out to the Public the first of January. Frankly, marketing myself has always been a weak area for me. However, this timely patriotic message will be as loud as possible.

We will review the first TARF solutions shortly, but here are a few words on the first two of them.

The first will be of immediate help to an unknown number of public school kids of families across our nation whose children are beaten up in pre-K, Kindergarten, first, and second grades. This has been going on for years and has not been well reported. It could hundreds or thousands. No one knows, but TARF will make it public knowledge. There were 2 such elementary schools in Carroll County, Maryland where I live in the 2023/2024 school year. Both federal and State legislators have known about this and will not touch it. But we are now. And it will end NOW!

The second will permanently restrict ALL cell phones and any other communication devices from every Public school in the nation as early as January 19, 2026 and no later than January 30, 2026. The whiners will finally lose this one. Such devices are killing Public education and student social development.

By finally taking this commonsense action, We the People will give some 95,842 Principals, some 95,842 Vice Principals, and some 3,100,000 teachers the greatest teaching gift they could ever receive. To once again to have control over their schools and their own classrooms.

We cannot take no for an answer this year. You get the idea of what could be coming. Prudent and practical solutions now! No more kicking the can down the road. Or waiting for another tired election cycle to pass. We do not want our elected officials go to and fight us. We want them to fix the dam problems. Especially, when some of the answers are right in front of them and us!!

TARF and the US National Arbitrator will bring the solutions to We the People. I have observed national politics for most of my adult life.

The last 11 months dealing with P47 and his reign of threats, daily chaos, paybacks, and the fact that he lies as easily as he breaths – simply cannot go on unchecked. I fear we cannot make it as a Democracy unless he is publicly controlled, impeached after the 2026 election or does the right thing and just resigns.

None of those options are easy. Thus, We the People, in the form of the American Electorate must wrestle Power away from the sold-out Republicans in the US Congress on 11-1-2026. We will reset the balance of Power in Congress.

The TARF 2026 Electoral Strategy in Part 6 is prudent and practical path to what I stated at the top of this.

### **The American People's Unexpected Response to The Republican Party's Anti-Democracy Project 2025**

*Resurrecting the Moderate Democratic Party  
and Burning Down the Republican Party  
On Our Way to November 2, 2026*

o o o o

I will close this with a few historic quotes that mean so much at a time like this.

The first are Thomas Paine's opening and closing words to *Common Sense*. The pamphlet that George Washington credited for focusing the English colonists on the idea national Independence and freedom from their abusive King.

*To open Common Sense,*

Perhaps the sentiments contained in the following pages, are not YET sufficiently fashionable to procure them general favour; a long habit of not thinking a thing WRONG, gives it a superficial appearance of being RIGHT, and raises at first a formidable outcry in defense of custom. But the tumult soon subsides.

Time makes more converts than reason.

*To close Common Sense, with words that truly apply to us on January 1, 2026,*

Under our present denomination of British subjects, we can neither be received nor heard abroad: The custom of all courts is against us, and will be so, until, by an independance, we take rank with other nations.

These proceedings may at first appear strange and difficult; but, like all other steps which we have already passed over, will in a little time become familiar and agreeable; and, until an independance is declared, the Continent will feel itself like a man who continues putting off some unpleasant business from day to day, yet knows it must be done, hates to set about it, wishes it over, and is continually haunted with the thoughts of its necessity.

o o o o

We have a job to do in these next 10 months my fellow Americans.

To honor their sacrifices to creating our nation. And to honor the over 1,400,000 of us that have died defending our freedom and protecting us from enemies both foreign and domestic.

We will have “**No Kings**”. Therefore, we must and will act to reject this want-to-be-dictator. We will vote quality Moderate Democrats in the Spring Democrat Primaries and set the table for 11-1-2026. If we follow the simple 2026 TARF Strategy and present the Voters with quality problem-solving candidates and the TARF Platform, I truly believe 80 million or many more of us will vote for them.

We and America and Democracy shall win...

o o o o

The closing words of the *Declaration of Independence*, signed by the 56 Founders on July 4, 1776,

And for the support of this Declaration, with a firm reliance on the Protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

o o o o

Don't Quit

I never had the opportunity to serve in the military for my country. Though I did try to. My mostly anonymous writing over the years, studying policy, developing problem-solutions, and learning about the National Election System has been quite educational and interesting. I am a domestic and foreign policy junkie.

So, there it is folks.

In 2008, self-published the 713-page, non-fiction *The Second Coming of Common Sense (CS2)*. It was my analysis of what was wrong with America and how we could begin fixing it.

Today, January 1, 2026, I will post this *Common Sense 2025* message to my struggling fellow Americans. For your review and consideration. It might become a book later, but this could not wait.

CS2 in 2008 was about the fixes we could apply for the Common Good of people, nation, and our Democracy. Now 17 years later and considering the multiple disasters of the last 11 months I present our answer.

*Common Sense 2025* is 80 pages and is some 26,000 words. Woof! Not too bad for a 77-year-old!

It provides us with solutions to our social and economic challenges. And the **Electoral hammer** to get it done and to control the P47 disaster now inhabiting our White House.

I close with heart felt words I often write.

For you, for those you Love and otherwise care about, and for the other 345,000,000+ of our fellow American men, women, and children – that you and I will never, ever meet...

I am all for you in America.

Please join me and let's make a little of our American history to be proud of.

May God continue to Bless America.

Thank you and take care, *A J Wildman*

o o o o

## EXHIBIT A

### The First 8 TARF Platform Problem-Solving Proposals

For a moment consider the various Victims' Families and Friends (VFF) groups that exist due to crimes and solvable problems in our nation. Problems such as pre-meditated murder, pre-meditated rape, and pedophilia. Also, the failure to remove all communications devices e.g., cellphones from school buildings. We confront those issues with the TARF Platform.

So, guess what folks? We are going to conduct our own little ***Public Legislative Revenge Tour***. Sound familiar? The VFF groups could lead the way and create many of the first TARF Local Chapters (TLCs).

To me the first proposals had to immediately confront and resolve real issues. Remember words and talk are important, but in 2026 the Public really needs to see results. Not some promises for after the next dam election! Real measurable progress.

o o o o

The great Sir Winston Churchill once declared that “*America can always be trusted to do the right thing, after they have exhausted all other possibilities*”.

We are all exhausted. So, here we go...

o o o o

## **1. Removing Any Violent Students from pre-K, Kindergarten, first grade, and second grade in All Public-School Classrooms by January 30, 2026**

Yes, this is too real, folks!

Problem: Someone could have or had a child getting beaten up in pre-K; kindergarten, 1<sup>st</sup> and 2<sup>nd</sup> grades.

Briefly, there is a Federal Guideline from the Dept of Education in place that is enforced in all 50 states. The Guideline totally prohibits removal of a physically violent child from those classes, IF, he or she has an IEP program i.e., some type of learning challenge.

Federal and State lawmakers have refused to modify those Guidelines to allow such children to be removed. It literally only requires a few lines to correct. And some common sense. They will not touch it. But they will now.

### What to do About It

The TARF and the USNA, on behalf of the students, parents, Principals, and Vice Principals, Demands that all 50 Governors issue Emergency legislation in January 2026 to correct this situation until the Dept of Education updates the related appropriate Guidelines.

I am in the process of contacting MY3 US Congress members from Maryland. All of us have what I call MY3 in the US Congress. Check them out. They should be working for you.

Maryland Senators Chris Van Hollen and Angela Alsobrooks, and US 2<sup>nd</sup> District Rep Johnny Olszewski I will be introducing myself, TARF, and the Platform proposals to them. Starting with getting those Violence Guidelines updated soon. They are the legislative part of my team! We will work together to promote prudent and practical TARF legislation and helping to reform the Democratic Party into the Moderate political force the nation requires them to be now.

o o o o

### The Challenge

I would request all of those with such violent occurrences in their emotional history, past or present to please start calling your State Governor's Office and report it every week! To **only** place those calls on Tuesday afternoon each week until the problem is fixed in your school(s).

Also to call and follow-up with the major newspaper in your State to report it weekly. Although some of these cases are reported, it has not been adequately pushed – considering the abuse that continues at some level to this today.

Just supply the name of the school, grade, dates, etc. No names. It might sound odd but depending on how many calls may come in at first it could be a burden for them to handle. The Governor's Office will then be expected to track and report out to the Public and Press.

I learned about this Public Education problem in March 2024 at a Carroll County School Board meeting. I was there to do a 3-minute talk about removing cell phones from schools. Another man spoke about his grandson being punched in pre-K since September.

You read that right. The 5-year-old girl that had been doing the punching of a few kids in class was removed from class, counseled with mother, put right back in class, and continued the punching! Thus, the School system Guidelines are unintentionally creating 5, 6, 7, and 8-year-old *repeat offenders*. No joke!

No, the police can't touch it. There is no telling how many of these situations are or have happened because it is not reported to the Public. It could be a freak occurrence. But there were two elementary schools in my own County in Maryland in the 2023/2024 school year with this exact problem. There are over 3,000 county type jurisdictions in America.

Good News! This behavioral problem could very well cease to be a problem by the end of January (2026). Direct public action gets results. We win!!

## 2. Removing all communication devices from Public School Buildings by January 30, 2026

Restricting all Cell Phone and Communication Devices from ALL Public-School buildings as of 1-30-2026 by Public Demand and United Parental Action.

### Global Impact

This Cell Phone proposal is intended to be Global in scope. News groups in the US and internationally, e.g., BBC World will be contacted to spread this positive message. Challenging High School Principals and parents worldwide.

The TARF and the USNA, on behalf of the students, parents, Principals, and Vice Principals, will respectfully Demand immediate action at the individual school level. All 50 Governors and the Press will be made aware of this action. However, there is little chance they and their State Legislatures will act as promptly as necessary. Which is January 2026. This issue has been and is being “studied to death” for years. And the only thing that is dying is Public Education.

We the People via this common-sense action, will give some 95,842 Principals, some 95,842 Vice Principals, and some 3,100,000 teachers the greatest Christmas gift they could ever receive. To once again have control over their schools and their own classrooms. Any questions??

Public schools are there for 2 basic reasons. First educational development. To teach subject matter to students in grades K-12. Second for personal social development. To interact with other people as they grow from 6 to 18 years old. Cell phones only damage the learning and socialization environments. Phones belong at home or in the parents car.

This is a global learning crisis. The governments of the world will not simply end this avoidable learning crisis. They bow to what I call the ***Cellphone and Internet Click Industries (CICI) Group***. It is accepted by science that children should not have routine access to cell phones until they are at least through the 8<sup>th</sup> grade.

The parental whiners overtly and the CICI Group covertly, got us into this mess. They will be ignored going forward.

### What to do About It

We are getting a bit of a late start on this action, but we will get this done in January 2026. Everyone in the country, and hopefully the world, needs to know about this common-sense public action. The result will be No cell phones or other communication devices on school grounds as of Monday February 2, 2026!

### The Challenge

I am here to publicly challenge the approximately 23,882 Public High School Principals and Vice Principals to make a stand for themselves and their teachers and their students. And the entire American Public School System. High schools are of course the worst of the problems, but this will also apply to Pre-K and up!

I am also here publicly challenging the parents, grandparents, and other caregivers of school age children to make a stand also. There will be a 2-week transition period. Starting Monday 1-19-2026 through Friday 1-30-2026. Each school can work the transition their own way, each day in the 2 weeks there will be fewer phones.

Thus, as of Monday February 2<sup>nd</sup> all cell phones and other comm devices will remain at home or in their parents' car for when they pick you up. Not in a locker or the student's car in the school parking lot.

Again, from the day Principals will not allow cell phones or any other comm device to enter the school building.

Students that bring a device to school on February 2<sup>nd</sup> will be sent home with a letter and the device. It will simply be reviewed with the parents, signed, and returned the next day to the principal's office. If and when there is a 2<sup>nd</sup> occurrence the device will be held at school for one week and can be picked up only by the parent.

If there is a 3<sup>rd</sup> occurrence the parent will be given 3 options, which are:

- Get with the program and leave devices at home.
- The school will provide the parents with a few viable Home-Schooling options they pursue with their students.
- The school will provide the parents with a few viable Private school options, as well.

Isn't it nice to have options.

The whiners overtly and the CICI Group covertly, got us into this mess.

**One Exception** would be that this year's High school seniors would retain limited access to their phone while in school. Their access will be determined at the school level.

This education crisis will never be fixed by the politicians. Both TARF solutions #1 and #2 confront the problems. Those are common sense solutions that politicians have ignored due to lobbyists and screaming Progressives. This plan may not be perfect, but it gets the job DONE!!

We could very well have our own global “Martian Moment” in January 2026. As happened in the movie, *The Martian* when they rescued Matt Damon from Mars!!

It would start 2026 off with a **Big Bang in Learning – All Over the World!!!**

Even if it takes until the end of January, schools all over America and maybe the world would finally be rid of those only disruptive devices. It will be a great education accomplishment. The people around the world stood apart and together for the Common Good of our children, grandchildren, nieces, and nephews. And society itself.

Both encourage and actively support your courageous and professional local High School Principals.

This is a moment when We the People must lead. To lead until our elected leaders, catch up!

Take care out there, A J

### 3. Demanding Quality Phonics Learning as It is Needed in Base Learning Immediately.

There are so many School Curriculum Administrators with a lot of explaining to do...

Cell phones and Phonics are educational hot buttons for me. I have some practical background related to public education and will gladly share some of that right now for common understanding. And answers for frustrated parents and kids.

See TARP Problem Solution #3 later herein.

First let me tell you why your son or daughter was doing so well through the 3<sup>rd</sup> grade and then hit a learning and/or reading wall. This problem is worldwide! In America it normally impacts at least 20% of the school population.

As a result, some schools are now offering parents a waiver to sign. It will allow their elementary school students to go, for example from 3<sup>rd</sup> to 4<sup>th</sup> grade without being able to read at grade level. Until about the 4<sup>th</sup> grade inmost schools students only need to know pieces of information. Words, numbers, etc. However, the curriculum then requires students to read or hear or view information and then to respond to questions about that data. And they hit a learning wall and grades go down. Now let's talk about why that happens!

In the first 2 years of life, most of us learn the 44 Phonemes that forms the base of our American language. Yes, I said American language! Have you ever heard an Englishman speak? We all lay there in the crib listening and unknowingly recording those critical sounds patterns. It is important to understand that our brain naturally allows us to talk. However, reading is not a natural ability. Thus, we must learn those critical sounds. And then learn how to match those sounds into letter patterns or words to learn to read. That is if all goes well.

However, comma! In the first 2 years of life, if any child has multiple serious ear infections, excessive ear wax, water in the ear, etc. many of those critical 44 Phonemes are understandably corrupted. They are still stored but are garbled rather than being pure in quality. That's the problem folks. I know this because I have that problem – excessive ear waxes my entire life. I did not know about my problem until my early forties. I have successfully dealt with it.

And unless those patterns are somehow re-learned that child will have trouble reading and studying for the rest of their life.

Phonics is name for programs that teach sounds and patterns and words. So that students (and adults) can learn to read. Having phonics issues does not mean a person cannot read, but it is slow process for them every time.

Simply put, Curriculum Administrators nationwide walked away from Phonics a few decades, and the school systems began to crash. Many are stumbling back to it now. The proper teaching of Phonics must be accelerated even this school year.

A Phonics program must be functional. That is, before it is pretty or entertaining. It must teach basic sounds and how to build words. Many of them do not.

I will make a non-paid reference here to the *Ultimate Phonics* program provided at SpencerLearning.com. For school and home use. I know of the product and its quality.

The creator of *Ultimate Phonics* has a helpful suggestion for parents. If you have any concerns about your child's reading ability, he suggests the following simple exercise. Parents select a book that your student should be able to read comfortably. Then sit together privately and have them read aloud to you.

That's it! You will both have the answer in a minute. If they stumble over words, then there is work to do. And a good Phonics program is the place to start.

Does your student's school have one? Go get them...

Good Luck!

A State and Local level school curriculum management failure beyond words.

#### **4. Reducing the High Cost of Higher Education**

It is simple. Most of the population cannot afford college tuition. Time for a little, “*Shock and Awe*”.

Reduce tuition for ALL 4-four schools by 25% for the 2026/2027 and 2027/2028 school years. Due to bad academic results and frankly because tuition and board are rudely over-priced. A similar tuition reduction for Community Colleges, but possibly a lesser percentage reduction. To be determined. That is where the negotiations will begin but expect little movement.

This will include extra years of education required for doctors, etc.

Student loans terms of 20 to 30 years will be also considered. Monthly payments would be reduced. The loan could be paid down earlier without penalty.

Schools will need to trim some lighter courses and/or reduce sports spending. And they can always ask their alumni for support.

Short and very sweet!

## 5. The TARF Comprehensive US Immigration Reform Proposal

This is the American Agenda Proposal #5 – American Population Management from my book, *The Second Coming of Common Sense (CS2)*.

I will now present what I like to call Human Numbers. This is a reality check for Progressives! Read and consider for yourself, please.

### The US Census 2000 versus 2020 Population by Racial Breakouts

Now for a serious reality check on the US Citizen population. The following statistics are from the US Census for 2000 and 2020. I found it surprising the first time I saw these numbers. Those that are and are not concerned about “white replacement” issues, check this out. Over those 20 years the:

- White American population increased only, 1.3 million; under 1% increase.
- Black American population increased, 7.9 million, a 22% increase.
- Asian American population increased, 9.4 million; a 93% increase.
- **Hispanic American population increased, 23.8 million; a 64% increase.**
- Total American population increased, 43.0 million; a 15% increase.

The lack of White population growth is concerning and a topic for future TARF Forum discussions. The disproportionate numbers in both Hispanic and Asian population growth demonstrates the impact of the flow of immigrants from south of the US/Mexico border and from the Asian nations via airports.

Before Covid hit the Federal government publicly acknowledged an estimated ten (10) million Illegal Occupants (IOs) are walking free in our borders. Most of them are from the nations south of the US/Mexico border.

It should be noted that in the year 2000, there were already one **(1) million** more Hispanic citizens than Black citizens. But thanks to no border security and Chain migration abuses, by 2020 there were seventeen **(17) million** more Hispanic than Black citizens.

### Summary 2020 US Census Counts by Race

White	197,271,953
Hispanic	60,724,312
Black	43,984,096
Asian	19,366,132
Two or More Races	9,190,707
Native American	4,267,114
Others	<u>656,479</u>
Total	328,239,523

It should be noted that while the previous P45 administration did stop the flow of immigrants through our border Ports-of-Entry, especially pregnant women. They did not stop those just walking across our 1,962-mile border by the thousands. That is the Plain Truth, folks.

Again, both Republicans and Democrats in the US Congress and every President for the last 40 years are equally at fault in failing to secure our national borders. Why? Not so much because Progressives keep screaming to let everybody in! But mainly because politicians know their primary donors want cheap labor and/or more bodies legally or not, to fill-up their rental units. The Plain Truth, again.

That drives down availability and drives up rental housing prices. Ask **Gen-Z** and their older siblings about rental prices, let alone buy a house. That is more today's reality than you may have considered, folks.

That was the background. Now lets fix the Immigration problems.

### **The US Comprehensive Immigration Reform Program (CIRP)**

I will be prompting the Democrats to begin pushing the TARP the CIRP approach in Congress very early in 2026. The Immigration Reform Proposal is far better than the P47s Immigration Chaos. Our plan will solve the Immigration problems once and for all. It has over 65% public approval. A few key points from the proposal:

- All immigration halted ASAP and through 2027 or longer. It should take only weeks.
- Close all ports-of-entry; guard all 1,962 miles of the US/Mexico border. Mainly with people and drones. No more stupid and costly walls.
- Implement US National Id System – All Americans are registered ASAP.
  - With the right technical team, that National Registration System could be operational nationwide in six (6) months. I used to do that for a living.
- All non-citizens will be registered in separate but with similar file contents.
- All International Travelers/Tourists will have End Date tracking and will report overstays. We will model ours after England's Overstay system.
  - With the right technical team, that Overstay Tracking System could also be operational nationally in six (6) months.
  - The airlines have always fought collecting data to track overstays. And the government has not followed up on Overstay violations. In regular immigration times, there are normally more potential overstays entering our nation via our International airports than there are crossing the US/Mexico border. Surprise!
- All Chain migration will be suspended IMMEDIATELY and until further notice. That backdoor abuse will end NOW and the gross statistics will be made public.

- Also, any entry into US military service as a backdoor, such as for Hispanics into citizenship will be ended NOW. Military service is a viable option for many young American men and women citizens.

P47's hateful immigration crackdown via his ICE agents has no end game plan that I have seen.

I addressed most issues around P47 earlier. As USNA my observations on P47 and immigration are:

- He is the **Bully GOAT**. And at his age that cannot be fixed.
- Wants to put his ICE agents anywhere he likes without notice. Illegal.
- Wants the illegal use of National Guard and US Marines in our communities to seem as normal and legal.
- Wants to be able to round people/anyone up without cause.
- I believe P47 is preparing to disrupt the 2026 US Congressional Election that he already knows could get ugly for Republicans. However, once the TARF 2026 Electoral Strategy picks up support into the new year, he will go ballistic!

He and the Republicans will lose control of both House and Senate. He will be a lame duck in the polls by Labor Day. Congressional Republicans could well start turning on him this summer.

- TARF will loudly promote a real plan to the Democrats and the Public. We must confront and slam the P47 tactics that scare our citizens, as well as illegals.
- Illegal immigration will be halted. It will be by invitation and through the front going forward.

There are reasons for optimism heading into the New Year for problem solvers!

o o o o

6. **Bringing Back the Death Penalty** – Introducing another TARF proposal that has more than a 65% public acceptability rating. What's in a name...

## **The Sandy Hook Obviously Guilty 90-Day Death Penalty Rule** aka, *The SHOG Rule.*

This topic is American Agenda Proposal #6 – *Zero Tolerance for Free-Will by All People* from my book CS2.

The Victims' Families and Friends (VFF) of murder victims would definitely be some of the people that will start TARF Local Chapters. And could help us find 2026 Democrat candidates.

This along with immigration are parts of what I refer to as the Public's *slow-burning rage* against our elected officials in both Parties. Sometimes socially and sometimes economically. This is gut level social legislation, folks. The numbers you're about to see are rude and both Parties are equal in blame.

At one-point last summer (2024) statistics told the following story. An average of 55 people is murdered every day (about 20,000 annually) in our nation. The lowest number of murders was 6 and the highest number was 90 in one day!

Over a 9-year period ending in 2023, less than 30 murderers received the Death Penalty annually. Yes, 55 murdered a day and less than 30 executed a year.

The well-intended Liberal/Progressive actions against the things like the Death Penalty (DP) can turn into social and economic mistakes. *Since 1973, at least 200 people have been exonerated from death row in the U.S., according to the Death Penalty Information Center.* And good for them.

The Judicial Legal Complex is making a living off this preventable chaos. And both Democrats and Republicans figure out how to raise donations saying they will "fight" the problem but never fix it. Capitalism finds a way, doesn't it!!

**Now for reality check from the Men of America – Consider this a Public Service Message**

This ties directly into a never discussed raging problem among all men no matter their color. We are enraged against politicians, lawmakers, lawyers, the courts, and the LAW. Because the LAW prevents us from punishing anyone that murders or rapes or assaults our own family members. We cannot even protect our children for pedophiles in the clergy.

And we men Demand justice and the Death Penalty – NOW!!! And so do most women...

**Law Without Appropriate Punishment Leads to More Crime**

The American public wants Law that correctly punishes hard voluntary crimes and Order in our community streets. We are tired of hearing about another murder and knowing there are years of trials with no execution at the end. Again, Liberal/Progressives are always against the Death Penalty. They have done their damage for too many decades. We will now have order by way of the Death Penalty when it is earned by the criminal. There is a list of offenses to be included.

**This is Hard but Necessary Legislation – That We the People Demand**

The basic TARF proposal demands the SHOG Rule apply to any active murder trial that has not reached its final verdict. Meaning that the case Prosecutor will be authorized to change it to a SHOG Death Penalty eligible trial. That is undoubtedly thousands of cases.

Anyone that watches TV crime shows knows the Courts do not allow such alterations after a trial has started. We will demand that law be changed immediately. For prime examples, it should be applied to:

- **The Super Bowl Parade shooters**
- **Charlie Kirk's shooter**
- **The Insurance corporation CEO shooter**

Under the SHOG Rule, the criminal gets a standard court trial by jury. The criminal is convicted on absolute evidence as in those 3 cases. The jury only deals with the verdict which in SHOG cases is a no brainer. No surprises.

A sort of a Grand Jury could bless the verdict after that. Then the sentenced murderer has 90-Days or less to live. The convicted will have a choice between a pill or a shot at the end.

When reviewing that draft proposal with people I included murder and pre-meditated rape not date rape. After talking for a while people would often say to certainly add pedophile crimes to that list. Then I told them it was already in there.

Consider that the public's absolute hatred of pedophiles is why P47 can't just tell is MAGA base to just "forget about it" with his old pedo/BFF. That lower than low life pedophile was either killed or did commit suicide because he knew his days were numbered and his end would not be exactly pleasant!

To further help the court system make some crimes undesirable for potential criminals and stop thousands of crimes against individuals here are a few more crimes to earn the SHOG Rule. A couple would be:

- Theft of the Title to someone's house that is then for fraudulent actions.
- Best Buy annual service renewal scams, etc.

o o o o

That sums it up for now. This is the type of solution that will encourage people to run for office in 2026. You or someone you know could run as a TARP Platform Moderate Democrat.

Check it out.

## 7. The Supplemental Income System (SIS) Program

This topic is found under American Industry Re-Structuring, from my book CS2.

Global Impact

**This SIS Program concept is the second TARF Proposal intended to be Global in scope. The masses of each nation. The news groups in the US and internationally, e.g., BBC World will be contacted to spread this positive message.**

I have a few points to make here, but the key point is that with 10% of Americans owning 80% of everything and 60% of households struggling month-to-month – something has to give. We must prudently determine how to fairly act to de-centralize our national wealth within reason.

Those that want to scream “redistribution of wealth” just keep right on yelling. We will ignore your dumbass!

One thing you will be finding out about me and problem-solving is that I don’t care or give a good dam what you call something. I just focus on the right answer for the struggling American public. All 345,000,000 of us, including the dumbasses!

A Possible Solution

One way to approach this grand economic test is once our National Id Registration is completed, we could use that facility to create two SIS Income accounts for every citizen. It will not include the unique National ID that will not be used and abused like our Social Security number has been. A quick overview is:

- One Income Account will be created for Grocery related costs.
- One Income Account will be created for Housing related costs, including rent and utilities.

After some serious conversations and binding arbitration, we will create a monetary flow from the Wealthy and Businesses into those accounts on an as needed basis. I can hear the screams already. There will be strict rules over who is receiving these funds and for how long. And very tight controls over the dollars.

That is all I need to say on that here. It will get Press when we start kicking it around in the Forum TLC meetings.

## 8. Food and Housing Fixed Address for All Americans

I will end these proposal briefs with a few thoughts on American rights when it comes to Food and Housing.

I believe I touched enough on those issues in the previous item. But here are a few random thoughts for future discussions at TARF Local Chapter meetings.

Regarding Food and Energy, we will likely need to place 30-day pricing stabilizer on certain Commodity Market items to control the games played in that market today. Meaning the price of monitored commodity cannot change for 30 days no matter what the problem is with its production. Which means if 6 camels fart in the Middle East the Barrel price of oil will not jump either way. Or coffee, avocados, lumber, etc.

To that same point. P47 thinks that because the barrel price of oil has been down in recent “months” gasoline at the pumps has not. Still \$3.00/gallon give or take. NOT \$2.00/gallon.

Secondly, we may need to push for Stable Pump Pricing the could keep prices flat and not moving up and down with the weekends as they often do!!!

o o o o

Regarding Housing Costs, we will need to undo what I call the *Sins of Our Congressional Fathers and Mothers*.

First, we will end the purchase of land and housing of any type from non-US Citizens and those living outside our borders. They could not always do that and for good reason.

Secondly, we will review and probably end the recent habit of some corporations that buy residential properties.

That will get the lobbyists thinking. The 20 and 30 somethings and their older siblings are getting fed up. And so are the older folks!

o o o o

Finally, I strongly suggest that every American family needs to view the PBS Documentary, “The Gilded Age”. It talks mainly about the 1890s. National politics were so very similar to what we see today between the Haves and Have-Nots.

There was a major financial crash in 1893 that lingered for many years. There were no social services in those days. Americans were literally starving to death. Then in 1897 the New York Vanderbilt family thru the ultimate for some 400 of the wealthiest families in the nation. The *few* greedy were loving life while *many* were barely surviving.

o o o o

## 9. How Far is it to the Planet Mars

Today's Space Speed and Our Lack Thereof

Just for fun!

I have always wondered about the size of space and the speed-of-light. The speed-of-light in the vacuum of space is 186,282 miles per second.

### **An Informative and Sobering Speed-of-Light Space Fact**

On average it is 140,000,000 miles from planet Earth to Mars. The distance varies depending on where the planets are in their orbits.

At current space speed levels, it would take us **128 to 333 days** to travel from planet Earth to Mars. The variance again is caused by the orbital paths of both planets.

It would take approximately **12.5 minutes** to travel from planet Earth to Mars at the speed-of-light.

In other words, we have a lot of work to do relative to speed in space.

At our maximum "space speed" today to reach a planet just one Light Year away. It would us about **50,000 years**. Yes, 50,000 **years**, folks...

We will not go anywhere soon. So, we had better take care of our planet and stop all the dam wars.

o o o o

### **End of EXHIBIT A**

## EXHIBIT B

### **20-Year Census Data Race Comparisons and Border Closings**

If ever some human statistics told a clear story about the 20 years of immigration and border abuse, the chart on the next page nails it! A few of the numbers actually shocked me! That doesn't normally happen. So, let's get to the real numbers they would rather we not be fully aware of!!

We will begin dealing with the population issue right here folks. For those who are or are not concerned about the White population being replaced primarily by Hispanics the following numbers will put a large light on this nasty problem.

To make a point, in the year 2000 there were already one (1) million more Hispanic American citizens than Black citizens. By 2020, due to "no control" over our borders there seventeen (17) million more Hispanic than Black American citizens. This is one of things that rightfully drives most Americans, including the MAGA folks crazy. The politicians time has run out.

#### Suspending All Migrant Treaties thru 2025 at Least

America has the most daily violated borders in the entire world. We the People, Demand that America will immediately, in 2023, end our voluntary support of that policy. We will close our borders thru 2025, at least. That will include chain migration.

Now let's do the numbers...

Over those 20 years:

- White American population increased only, 1.3 million; a less than 1% increase.
- Black American population increased only, 7.9 million, a 22% increase.
- Asian American population increased, 9.4 million; a 93% increase.
- Hispanic American population increased, **23.8 million**; a 64% increase.
- Total American population increased, 43.0 million; a 15% increase.

The lack of White population growth is quite disturbing. The disproportionate numbers in both Hispanic and Asian population growth somewhat explains the impact of the flow of immigrants from south of the US/Mexico border and from the Asian nations via airports.

It seems fair to speculate that the majority of estimated ten (10) million Illegal Occupants (IOs) walking free in our borders are mostly from the nations south of the US/Mexico border. That estimate is a few years old, too!

Again, both Republicans and Democrats are equally at fault in failing to secure our national borders. Why? Because their primary donor-base wants cheaper labor and/or more bodies legal or not to fill-up their rental units. That is more the reality, than you may have considered, folks.

Thus, every Spring and Summer for decades, Mexico promotes the northward flow, and

members of Congress throw their hands up in the air. The Party out-of-power blames the Party in-power for not doing something about it. And they both blame whomever is in the White House. The annual result is nothing gets done, accept that thousands more IOs slip across our Southern border. Congress, as usual gets nothing done and the Status Quo is protected for their campaign donors.

In one (1) of the American Citizen Statistic tables presented on the TIPA Platform website [CommonSense2nd.com](http://CommonSense2nd.com), is the US 2000 and 2020 Census Racial Groupings and 2020 Sex Tables. That 20-year Census comparison bluntly documents the horrific and organized abuse of the uncontrolled US/Mexico border and our international airports, too!

US Census - Population by Race Comparison 2000 vs. 2020					
Item Title	Year 2000	Year 2020		Growth	% Growth
<b>Total US Population</b>	<b>285,000,000</b>		<b>328,239,523</b>	<b>43,239,523</b>	<b>15%</b>
<b>Census Racial Groupings</b>		% Tot			
White	196,000,000	60.1	197,271,953	<b>1,271,953</b>	Less than 1%
<b>Hispanic or Latino</b>	<b>37,000,000</b>	<b>18.5</b>	<b>60,724,312</b>	<b>23,724,312</b>	<b>64%</b>
Black or African American	36,000,000	13.4	43,984,096	<b>7,984,096</b>	<b>22%</b>
<b>Asian</b>	<b>10,000,000</b>	<b>5.9</b>	<b>19,366,132</b>	<b>9,366,132</b>	<b>93%</b>
Two or More Races	No Breakout	2.8	9,190,707		
American Natives	3,000,000	1.3	4,267,114	1,267,114	42%
Others	3,000,000	0.2	656,479	(2,343,521)	
<b>Male</b>	<b>140,000,000</b>		<b>161,588,973</b>		
<b>Female</b>	<b>145,000,000</b>		<b>166,650,550</b>		
	<b>285,000,000</b>		<b>328,239,523</b>		
<b>The World's Population</b>					
<u>Year</u>	<u>Total</u>	<u>Growth</u>			
1990	5,278,639,789	15.2			
2000	6,082,966,429	12.6			
2010	6,956,823,603	10.7			
2020	7,794,798,739	8.7			

We, the frustrated and disgusted American Public, are now ready for true legislative leadership and to have our long-standing social and economic problems confronted and solved.

**It is time for Our American Reformation**
