## ***Foreword***

I would like to share with you how I feel about this political message on “beginning” to confront and actually resolve our Common Problems. I will share a moment when I was making a final edit pass on the American Reformation. Frankly, upon reading the first line, I simply broke down.

This is so much to consider, folks. Truly, so much good could result from this effort. Just be a bit thankful that you aren’t the one that had to research, develop, and then write these 11,836 words! However, one of us had to stand, make a statement such as this, and offer to lead our necessary social and economic American Reformation.

To be clear, I do all this for you, an individual American citizen. For you, for those you Love and otherwise care about, and for the other 330,000,000+ of our fellow American men, women, and children – that you and I will never ever meet...

So then, let us see about our nation’s business...

## ***The Spirit of 1776***

To clarify the true need for the Public’s private consideration of these practical proposals, here are the opening words from Thomas Paine’s revolutionary pamphlet, *Common Sense* (January 1776). The historic pamphlet that George Washington credited with focusing the English colonists on the need for, as Paine wrote therein, “*a declaration of independence*”,

*Perhaps the sentiments contained in the following pages, are not YET sufficiently fashionable to procure them general favour; a long habit of not thinking a thing WRONG, gives it a superficial appearance of being RIGHT, and raises at first a formidable outcry in defense of custom. But the tumult soon subsides.*

***“Time makes more converts than Reason”***

## **Presented Herein**

### **Part 1 – Page 4**

#### **US National Immigration and Population Management (NIPM) Reform Proposal**

First, review the US National Immigration and Population Management (NIPM) Reform proposal and the public Demand that the US/Mexico border is closed and guarded by December 31, 2023.

### **Part 2 – Page 15**

#### **Common Sense Solutions to Common Problems – “Introducing the American Agenda”**

Next, to touch on some 18 Demand Legislation proposals that demonstrates this is not a one or two issue Platform or campaign. And, my direct comments on a few issues. Hopefully to begin earning the public’s interest in the politically Moderate problem-solving Platform.

### **Part 3 – Page 25**

#### **American Democracy’s Problem – Our Elected Officials – “The 2024 Call to Electoral Arms”**

And finally, our strategic electoral approach to begin the replacement of our legislatively dysfunctional members of the US Congress and 50 State legislatures. One member at a time.

### **Appendix**

#### **20-Year Census Data Race Comparisons and Border Closings**

o o o o

I do hope you find these contents to be far more encouraging than you ever expected. I ask that folks review this entire piece. I expect people to agree with most of these problem-solving contents, but not all of.

Which goes to show that you just cannot please 330,000,000 people.!!!

However, we are going to get really close it, folks!

o o o o

# ***American Reformation – Part 1***

## ***US National Immigration and Population Management (NIPM) Reform Proposal***

### Introduction

I do humbly and with absolute intent, welcome you to our American Reformation,

I am a proud American man. I love this country and what American Democracy stands for. I am running for the US Senate to be a true antagonist to those that are just sitting around in the US Congress and not fixing any of our Common Problems. If the people are drawn to my campaign and my message in the coming weeks, my antagonism of Congress will begin in 2023!

I just happen to be a life-long observer of domestic and foreign policy. It is my hobby.

By profession, I am an IT business systems analyst. I develop solutions to business problems either by developing an appropriate computer system and/or making practical procedural improvements. As we know, America has a lot of economic and social problems that Demand prudent and practical solutions that will serve the Common Good. And realistically, if we ever desire for those problems to be resolved, it is again time for the People to lead the leaders until they can catch up to us!

Frankly, most business problems are not that complicated to deal with effectively. Often though the real complication in problem-solving is first – who is defining what the actual problem is? Then, who ultimately will make the decision on what, if anything, to do about it.

To be clear folks, logic does not always enter into the business decisions. That is because the first option in problem-solving in business and in life – is to do absolutely nothing. Just allow things to continue as they are regardless of the harm it causes. And there in, lies our problem. Ladies and gentlemen, I give you the 100 members of the US Senate and the 435 members of the US House of Representatives. The nation’s legislative perpetrators of the status quo.

In my IT career, I was drawn to difficult projects and/or projects that were in trouble. They were the most challenging to take on and complete successfully. As I developed the 40+ proposal Platform you will begin to learn about herein, I easily identified our most urgent problem to be confronted. Literally for decades, our government officials keep talking about the need for a real national Immigration Program. However, talk is cheap and has not resulted in securing our borders. America has the most routinely violated borders in the world.

I am here to tell you how we can close and secure our borders for the first time! And we will do just that by December 31, 2023. In a moment, I will review our national immigration solution, but first allow me to frame the Big Picture of immigration in America.

## The MAGA Folks are Not All Wrong

I bet you weren't expecting that topic right here, were you? This is appropriate place to provide the hard numbers on our ongoing immigrant trainwreck. The numbers bluntly give some reason for the MAGA voters to be rightfully disgusted with the government – just like the non-MAGA voters are. We are all mad as hell about it. Therefore, We now Demand real border security be implemented immediately.

My personal observation on the MAGA movement is that most of them are not racists. Just as America is not a racist nation. For those among us that promote the lie about White racism in America and those that make their living off of that lie. It is soon time for them to get a new job. Because, America is not a racist nation!

I was pleasantly shocked the other night while forcing myself to watch the second Republican primary debate. One candidate taking part was South Carolina, US Senator Tim Scott. He is an African American. He stood there and boldly declared that America is not a racist nation. Great for him to say that. And, there it is.

Again, I believe that the vast majority of the Republican MAGA group are patriotic Americans and are not racists. They have wanted real political leadership and could not find it in the Progressive-crazy Democratic Party. As a tragic result, almost 7 years ago, a self-serving, narcissistic, scam artist stepped into that political vacuum and shanghaied the Republican Party for fun and profit. His profit, and the rest is sad history and lost elections. Thank God!

They like most of us just want problems fixed starting with closing our borders. I pray that Americans of all types and opinions are drawn to my comprehensive Platform and any other 2024 Congressional candidates that will be supporting it in the election.

I designed those problem-solving proposals to be acceptable to 65% or more of the Americans of all types and opinions – and they are!

To be clear, MAGA voters are in that 65% or more of Americans that support many of these Common Problem solutions. Give them a Republican or Democrat candidate that is a Moderate.

We reject the “divide and conquer” games that politicians play to scare people and raise campaign donations.

There is still plenty of time to become a candidate that supports our Moderate platform!! Your potential voters will be drawn to those solution proposals and you!

o o o o

## **The US Census 2000 versus 2020 Population by Racial Breakouts**

Now for a serious reality check on the US population. The following statistics are from the US Census for 2000 and 2020. I found it surprising the first time I saw these numbers. Those that are and are not concerned about “white replacement” issues, check this out.

Over those 20 years the:

- White American population increased only, 1.3 million; under 1% increase.
- Black American population increased, 7.9 million, a 22% increase.
- Asian American population increased, 9.4 million; a 93% increase.
- **Hispanic American population increased, 23.8 million; a 64% increase.**
- Total American population increased, 43.0 million; a 15% increase.

The lack of White population growth is quite concerning and a topic for future discussion. The disproportionate numbers in both Hispanic and Asian population growth demonstrates the impact of the flow of immigrants from south of the US/Mexico border and from the Asian nations via airports.

The Federal government publicly acknowledges an estimated ten (10) million Illegal Occupants (IOs) are walking free in our borders. The majority of them are from the nations south of the US/Mexico border.

It should be noted that in the year 2000, there were already one (**1**) **million** more Hispanic citizens than Black citizens. But thanks to no border security and Chain migration abuses, by 2020 there were seventeen (**17**) **million** more Hispanic than Black citizens.

### Summary 2020 US Census Counts by Race

White	197,271,953
Hispanic	60,724,312
Black	43,984,096
Asian	19,366,132
Two or More Races	9,190,707
Native American	4,267,114
Others	<u>656,479</u>
Total	328,239,523

It should be noted that while the previous administration did stop the flow of immigrants through our border Ports-of-Entry, especially pregnant women, they did nothing to stop those just walking across our border by the thousands. That is the Plain Truth, folks.

Again, both Republicans and Democrats are equally at fault in failing to secure our national borders. Why? Because, their primary donor-base wants cheap labor and/or more bodies legal or not to fill-up their rental units. That is more the reality, than you may have considered, folks.

## **The Illegal Immigrant Cost**

The Federation for American Immigration Reform (FAIR) released a comprehensive study on the cost of illegal immigrants to the US in federal, state, and local taxpayers. They found the cost to be some \$116 billion a year for the nation’s 12.5 million illegal immigrants and their 4.5 million “citizen children”.

**That Fair report was published on September 27, 2017. Six years ago! Any questions?**

## **The Plain Truth**

There is no other way to stop the population dumping, except to close and guard the full 1,962-mile US/Mexico border 24x7. That is a base line.

So now my frustrated fellow American citizen, here finally is our comprehensive, very workable solution to controlling our national borders, managing our population, and tracking all future visitors.

This is not rocket-science, folks – just border control. We’ve got this!

o o o o

## **To Save Our Immigrant Nation – We the People Will Now Suspend Immigration**

### **International Treaties on Migrants – Will be Suspended!!**

The cornerstone, if you will, of our plans to finally control our borders and population is the total suspension of America's support of the immigration related treaties and laws regarding our national borders. We will end the decades of constant border abuse under such well-intended provisions. The international immigration "treaties" that currently direct most countries, including our own to take in asylum seeking people seeking asylum are:

- 1948 Universal Declaration of Human Rights
- Refugee Convention of 1951
- The US Passed Federal Law – Refugee Act of 1980

**The United States will not honor or abide by any of those treaties through at least 2025.**

### **To the ACLU Leadership**

With all due respect for the good things that they really do, I publicly challenge the ACLU and Progressive Democrats for once to skip their knee-jerk reaction to such policy reforms. We currently are not feeding, housing, employing, etc., all of our own people properly. Over 500,000 of our own people, shamefully including some 20,000 veterans, are experiencing homelessness. America and Americans first.

So please consider for at least the next 2 years, let's focus on addressing our own people's problems before allowing any more migrants across the borders. Enough is way too much. The additional gross numbers allowed in under this Administration is beyond disgusting and there is not valid reason for it to continue.

To be clear, the American public is sick and tired of the population dumping and it will end now!

It could enhance the ACLU's public credibility simply by acknowledging that enough is enough.

Focus on our people first! AJW

## US National Immigration and Population Management Reform Proposal The Suspension of Immigration

This is where the rubber hits the road, folks!

Both humbly and with absolute intent – and speaking for the vast majority of our 330,000,000+ fellow American citizens; I do declare that the following National Immigration Reform program to be our Common Demand!

### **The KISS Method – Keep It Simple Stupid**

To be clear, all the White House Administration and the US Congress need to do to begin implementing this Immigration control solution, is to give two (2) simple orders.

One, direct Border Security leadership to “totally close the US/Mexico border Ports-of-Entry by December 31, of this year and until at least 12-31-2025”. No exceptions will be considered. Zero new Migrant case file will be created after 12-31-23.

Two, direct the Pentagon to “guard all 1,962 miles of the US/Mexico border 24x7, by December 31, of this year and until at least 12-31-2025”. Military troops will be under special assignment to the Governors of Texas, Arizona, New Mexico, and California.

After this is in place, only armadillos and 4-legged coyotes will be crossing that border.

Now for the details.

o o o o

### **This is How We Will Do It**

I initiate what I refer to the *American Reformation* legislative movement with our *simple-to-implement* and comprehensive US Immigration Reform proposal.

We shall begin telling our Congressional legislators exactly what to do about certain problems. Exactly what the masses Demand to be done. We will now set the legislative tone with Immigration Reform – our way!

The key points of the National Immigration Reform proposal that we now Demand are:

- We will suspend, effective immediately in late 2023, our involvement in any and all treaties protecting random migrants seeking entry into the US.
- We will close the US/Mexico border to all migrants as early as October 31, 2023 and no later than December 31, 2023. And the People will rejoice!

- Closing of all Land border Ports-of-Entry, thru at least 2025.
- The White House will inform Mexican President Obrador, as well as the leaders of all Central and South American nations that we are closing the door, with no exceptions.

Obrador will need to block Mexico's southern borders with Guatemala and Belize. To actually stop the flow. No more migrants on north-bound trains. By December 31, 2023 the door will be closed and Mexico will retain any and all remaining migrants – to do with as they please!

President Obrador will also need to stop the illegals flowing into Mexico's international airports and then across the US/Mexico border. Needless to say, our immigration suspension policy will be worldwide news and any potential migrants will know about it.

By the way, President Obrador publicly denies that raw Fentanyl flows from China to Mexican cartels for processing and is then smuggled across our soon to be 24/7 guarded border.

Currently, between 200 to 300 American men, women, and teenagers are overdosing and dying – from the Fentanyl that is too easily transported across the US/Mexico border. And Congress can't or won't do anything about it.

- No more “Chain migration” claims will be processed thru at least 2025. Such claims now in process will be cut-off, ASAP. Closing that much abused back door.
- Going forward, potential migrants will need to register at US Embassy in their own country. Employment would be coordinated via Embassies and if approved, a US Entrance Pass will be issued.
- Immediate 24/7 guarding of the entire 1,962-mile US/Mexico border. And to a lesser degree on the US/Canada border, as well. Canada does not encourage the migrant flow like Mexico does for fun and profit. Go Canada!
- We will begin Citizen registration for a US Citizen National ID System. A long overdue facility that practically every other nation in the world has and uses constructively. Consider that America is like a warehouse with over 330,000,000 parts and not one of them as a product code and/or part number. Chaos...
- We will also register every other person walking about in our nation. We have Legal Occupants (LO) made up of Citizens and other legal/invited persons. And we will register ALL of the Illegal Occupants (IO) that are in our nation. A total national housekeeping exercise. And we will determine what to do with them.
- Implement the International Traveler Tracking System (ITTS) to finally begin to control “overstays” that enter our nation via international airports with a passport and no intention of leaving any time soon. Again, the government acknowledges that more IOs enter our nation via airports than via the Southern border! The Congress never seems to talk about that? And the airlines will be required to support that ITTS Passenger Registration system.

- Finally, we are not building another ridiculous foot of US/Mexico border wall. One day we may tear down what wall is there and recycle as much of it as possible.

That is all there is to it. Not rocket science – just common sense, guts, and determination!  
America First...

o o o o

**TO BE CRYSTAL CLEAR – THIS IS NOT A REQUEST!**

Today is October 15, 2023. Some 75-days until December 31, 2023. On this day, I am a force of one man with a plan and a publicly acceptable, legislatively Moderate Platform.

My intent in this public effort is to present practical solutions, push aggressively for their implementation, provide 2024 electoral guidance to potential candidates, offer any leadership that I can, and to promote the Common Good of our citizens, before all others.

To be clear, I do all this for you, an individual American citizen. For you, for those you Love and otherwise care about, and for the other 330,000,000+ of our fellow American men, women, and children – that you and I will never ever meet...

So then, let us see about our nation’s business...

o o o o

In approaching the American Reformation project, I determined that Immigration must absolutely be controlled for both social and economic reasons. Not to mention national security issues considering the growing chaos in our world.

It is time for national responsibility and patriotic action.

Thus, speaking for the vast majority of Americans, this is our bottom line on Immigration Reform.

This proposal is not to be taken as a simple suggestion or request for the Administration and/or Congress to consider for months and years. It needs to be considered by them, as serious as a heart attack! Preferably, the 2 primary actions to be taken – closing the US/Mexico Ports-of-Entry and beginning to place troops across the entire 1,962-mile US/Mexico border should be well underway by late November. That is the People’s expectation and Demand of Washington, at this time.

Some of the thousands of additional security agents recently sent to there to basically watch the Illegals crossing our border, could be reassigned to support its coverage. Also, with the Ports-of-Entry closed, part of that staff could also be re-assigned to border security. At least to support the transition to regular staffing.

o o o o

I am in the process of contacting my Maryland Congressional members and retiring US Senator Democrat Ben Cardin, in particular. I will challenge him and the group to take this proposal to the President and US House and Senate leadership. I would appreciate being included in some of the discussions.

It will probably take a few weeks of pushing to get this proposal to reach the Masses. But, when it gets through the initial outcries of the whiners – the vast majority of Americans will support it.

Hopefully, by early November, the Immigration Reform proposal will be a *Hot Topic* for the evening news. An actual solution – instead of another problem for a change. Good news!

The 2 required federal orders, do not require Congressional approval. In this case however, we want both the White House and the Congress to take ownership of this practical solution. Because they and their predecessors only perpetuated the border control problem for decades. And as we observe Immigration today, they still are. We are going to end it.

We the People, will be watching the reaction of the White House and US House and Senate leadership and see if this request is being honored in the time provided! Unfortunately, based upon decades of inaction, I cannot be that optimistic of their prompt action in this matter. I am an optimistic realist!

Basically, my fellow American men, women, and children – this is where we must literally draw the line. At the borders! We start with Immigration control to “surround our problems”. Then we will dig into the 40 other solution proposals in our Platform.

Therefore, rather than waiting some weeks to see if our federal leadership will act on our Immigration Demand, I will necessarily make a public request and patriotic call-to-action, right now!

My campaign is hereby requesting and challenging patriotic, peaceful individuals and public groups to consider descending upon the Southern border toward the end of this year. Or, the first week in January! This is true grassroots folks. Please support my campaign no matter which State you live in! And start networking about this campaign with like-minded Americans. Thanks!

o o o o

Of course, plan to attend to the Southern border without any weapons, but having a license with you would be appropriate. Minutemen and Minute women volunteers would then assist the state authorities in Texas, New Mexico, Arizona, and California with guarding the US/Mexico border. There will be much more on this peaceful grassroots movement.

If the government honors our Demand, the people will not need to go to the border. However, if they do not take action, then,

**We the People will gladly assist with guarding our border until the Army shows up!**

**This is not a threat!**

**It is the American public’s Declaration of our Common Demand.**

**Close and Secure the Borders!**

**If not, find another job – Soon!!**

**To continue**

My hope is that these contents are what you have prayed to hear from our elected national leadership. Basically, to be told “*The Plain Truth*” about our social and economic problems. Then to be presented with prudent and practical solutions or approaches to confront those problems for the Common Good of all American citizens.

Those solutions are what I have begun presenting to you in this paper, *American Reformation*. Far more data and my 2008, 718-page book, *The Second Coming of Common Sense (CS2)* and a couple of websites are behind this message, folks. And of course, at WildmanforUSSenate.com.

In mid-2023, I invited myself and my 40+ proposal independent Platform into the Democratic Party. I hope to be exactly what they need to get more focused on the Masses and promoting this Moderate problem-solving platform. They must quit yielding to their extreme Progressive members. The American public and the voters are sick and tired of it. Enough is enough. The Republican opposition loves to see the Democrats divided – simple divide and conquer.

Bluntly, if the Democrats will simply embrace just the Immigration and Abortions Services proposals shown herein, and get them passed by early next year, the 2024 Election will be a walk-off homer. So, please give it some quiet thought.

o o o o

That is my goal and personal mission. Implementing these and other practical solutions will be my daily activity if the good people of Maryland vote me into the US Senate. As you can tell by now, I do not intend to wait over a year to get things moving and see problems getting resolved! I will not go quietly into the US Senate, either!

So then, let’s be about our nation’s business!

o o o o

This concludes Part 1

o o o o

***American Reformation – Part 2***  
***Common Sense Solutions to Common Problems***  
***“Introducing An American Agenda”***

**Prudent and Practical Public Problem-Solving for the Common Good**

The old expression goes folks, “Everything in its own time”.

Once again, my fellow Americans, it is time for us to lead our elected officials in the US Congress and 50 State legislatures.

We will now tell them specifically what expectations, rules, and punishments we are willing to live with regarding a given issue. That will become all too clear when we review the aggressive legal reform I call, the ***Sandy Hook Obviously Guilty 90-Day Death Penalty***. Think about that one for a moment!

We will briefly review 18 Demand Legislation Reform issues that need to be legislated, enacted, and implementation, as soon as possible. That is, starting in 2023 with US Immigration Reform that was presented in Part 1.

For additional details on these and many other issues see:

WildmanforUSSenate.com	Campaign website
CommonSense2nd.com	Platform website
CommonSense2009.typepad.com	Book website

**Some Critical Policy Proposal Brief Titles**

1. Food for All Citizens
2. Implement the US Re-Employment System
3. Demanding – US Abortion Services Law – Not an Amendment
4. No Financial Reparations for Black American
5. The US Wealth Tax – The Economic Peace Tax (EPT) Policy.
6. A Fixed Address for ALL of Our Citizens – Implementing National Rent Control
7. Establish National White Americans Day (3<sup>rd</sup> Saturday in October) every year
8. Cannabis Industry as a Small Business, only!
9. Hemp for American Farmers – Finally
10. Near-Term Reassignment of Bad Cops
11. The American Death Penalty Reform Law
12. Reinstatement of the Military Selective Service Program
13. Prostitution will be Federally Legalized
14. The US Recycling Industry – For Jobs and the Environment

15. Refunding Covid19 Overcharges – Pandemic Wartime Profiteering
16. Save the Truckers Jobs
17. Regarding Our Failing Environment
18. Health Care in America is a Disgrace

o o o o

### 1. Food for All Citizens

All American citizens will have local, available access to 3-meals-a-day. This is one of the critical parts of everyday life that is being crushed by the selfish use and abuse of the Commodity Market.

We will begin the national and international discussion on the future use of the Commodity Market. Any traditional functionality of the Commodity Market was shredded by 3 years of Covid19 “*Supply Chain Issues*”. It allowed industries and corporations to inflate prices unnecessarily. And they have not come back down! That used to be called, “*windfall profits*”. In the world of 2023, I believe that Supply and Demand price fluctuations are a cruel joke on consumers.

It may take a consumer revolt, but Commodity prices should be locked in and only adjusted, as required, every 2 or 3 months. That “socialist, communist, anti-free market” suggestion will cause great whining and moaning in Wall Street.

I frankly do not give a damn what label we put on insuring that Americans have an adequate Food supply. We Demand it be fixed. So, stay tuned. We will eventually cap the barrel price of oil.

### 2. Implement the US Re-Employment System

We will deliberately Reform the traditional “Un-Employment-minded” operation in the 50 States and DC. We will make them into a “Re-Employment-minded” operation in the States. Vocational training will be coordinated thru that office.

We will find people work, not just pay them to stay home. If people need to relocate for work and/or housing opportunities, we will get them moved and working.

Everyone that can work, will work. And crime is not a valid occupation.

### 3. Demanding – US Abortion Services Law – Not an Amendment

The Democrats in the US House and Senate will submit “national” legislation on Abortion Services Law that will then apply to ALL States. It will provide local, safe, and secure access to Abortion services. It will legally override the Supreme Court rulings.

#### The First Trimester Only Rule

Those services will be fully available during the First Trimester, only!

No such services will be provided during the Second and Third Trimesters – unless the mother’s life is threatened and/or the fetus is in a stressed or critical condition. It will then be the parent(s) decision with their doctor.

Incidents of rape and incest cases will also be included under this Rule.

I am certain the vast majority of the American public will vote for that is a practical compromise approach in a minute. I know because I have asked many hundreds of them myself.

Progressive Democrats must cease their pathetic push for a no time limit within the full 9-month term for Abortion services. That is simply barbaric and the general public will never back it. I could not! With all of the pregnancy testing that is available, there should very few cases where a woman does not to know she is pregnant by the third month.

There must finally be practical compromise here and there it is. Just get it passed by early 2024 and be done with it. It is our Demand!

#### 4. No Financial Reparations for Black American

There will soon be a write-up from my campaign on the Race issue. However, to be crystal clear everyone, **America is not a racist nation.**

Those that are employed and/or make the name promoting this negative rhetoric – need to find another issue to feed off of. That group includes a Black woman on the New Times Editorial Board. I had heard talk several times before. She definitely had an edge to her racial rhetoric, but nothing outrageous until?? On probably an MSNBC program in the last year, she bluntly stated that, “anyone with an American flag in their front yard, is a racist”. I just yelled at the TV after that. And, of course nobody corrected her. It is one of the last things that made me finally decide to run for office.

The bottom line is that the American public, including some Black Americans, do not believe in Reparations being paid to the descendants of African slaves.

The economic issue will be dropped at the national and state levels.

On a related recent incident:

I was pleasantly shocked the other night while forcing myself to watch the second Republican primary debate. One candidate taking part was South Carolina, US Senator Tim Scott. He is an African American. He stood there and boldly declared that,

**“America is not a racist nation”.** Great for him to declare that. There it is.

5. The US Wealth Tax – The Economic Peace Tax (EPT) Policy.

Let's talk about *Democracy in Economics*. This is a key component of the prudent Reformation of our economic system. The hard reality is that the imbalance of wealth within America was a serious problem before Covid19 hit the world economy. The chaos of Supply and Demand problems has gone for 3 years and has not stopped. It was and is a playground for industries and manufacturers to abuse the product pricing. The wealth imbalance is now far beyond that pre-Covid level. Businesses go for profit, regardless of the harsh impacts on grocery and energy prices, such as gasoline.

There will be a tax on excess income. There will necessarily also be some type of tax on property. To be determined. Again, this will be wrapped up in what I call creating, *Democracy in Economics*. Tentatively the related funds collected will be funneled into two (2) special Citizen Supplemental Income accounts; related to Food and Housing costs.

It will probably be nicknamed, the People's Trickle-Down Program. Because it will be just that! I believe it is the first prudent step in the "recycling of dollar wealth" from those with grossly excessive assets within the America tribe and back into the lower income members. Supplementing those that are working, but struggling to survive.

When the person next to you screams "redistribution of wealth" just reply, "you're dam right". The eventual alternative will be a consumer revolt over Food costs, which is where a lot of revolutions have begun!!

Yes, there will be much more of that!

This somewhat ties into an equally critical economic crisis that we absolutely do not want in our future. That is, we need to take any and all appropriate steps to guarantee that the US retains its "World Reserve Currency" status. We are slowly headed that way today.

I will challenge Wall Street, banks, and the wealthiest people in America to join in public planning meetings on this existential (extinction level) threat to the entire US economy. We are talking 1929 on steroids, folks. You can imagine how much attention that is going to attract!!

6. A Fixed Address for ALL of Our Citizens – Implementing National Rent Control

We will work until we provide ALL, US Citizens with decent housing, with heat and air conditioning, as appropriate. There is a housing shortage in America. Over 500,000 Americans, including some 20,000 veterans are experiencing some level on-going homelessness every day!

We will finally implement National Rent Control to protect the growing number of renters. We will reward "good landlords" and will punish "bad landlords".

Again, I call out Progressive Democrats that keep pushing for more migrants to flood of borders. Take a look at the Big Picture for a change. Of course, if things go according to plan, that door will soon be closed for at least 2 years.

This Reform requires that the government and Real Estate industry get in touch with the housing needs of US citizens first – before serving foreign buyers. We probably also need to suspend all foreign and corporate purchases of any residences for those couple years, as well.

Due to Covid19 based pricing abuses of building materials, etc., the cost of Housing increased an obscene 44%. Building supply shortages, plus uncontrolled Commodity Market, plus Supply and Demand games equals unreasonable and unnecessary pikes in Housing costs. Spikes that do not come back down.

The average American did not receive a 44% wage increase over the last 3 years!!

Maybe that is why Ford workers want a 40% wage increase. Which is also unreasonable, but highlights the 900-pound economic gorilla – the Cost-of-Living! Especially, food and housing.

7. Establish National White Americans Day (3<sup>rd</sup> Saturday in October) every year.

Yes, I am quite serious about this. It just so happens that White Americans do not have their own day. Especially, white males.! This is not a joke and could become a very nice day of celebration!

I do like to point out to people that since 1775, some 1.3 million Americans have died fighting for America. And vast majority of those that died were White males. They died so we could still have this conversation. Show respect for their sacrifice.

Thanks to Progressives – the Black, Hispanic, and LGBTQ+ groups for example have entire months! Frankly, that is nice, but is also a bit excessive.

8. Cannabis Industry as a Small Business, only!

For years now, corporate America has and is slowly but surely lobbying to secure and control the US cannabis industry, state-by-state. It is “highly” preferable that we Demand that cannabis farms are strictly a small business in each state. It is not too late!

My cannabis challenge for all 50 State legislatures. Each state’s government including Maryland must explain to the taxpayers if the small business approach would result in more tax revenue. Otherwise, Wall Street will be using that money to pay executive salaries, bonuses, and paying stockholders. Totally unnecessary.

9. Hemp for American Farmers – Finally

Real simple. Congress, after some 70 years of blocking it to make certain Big industries happy, will finally let American farmers grow the Hemp for fun and profit! It is a wonderful

God-given commercial crop. And you cannot get a buzz from Hemp, like its cousin cannabis!

#### 10. Near-Term Reassignment of Bad Cops

Every police barracks knows who the bad cops are. They need to be taken off the streets.

This campaign absolutely, *Backs the Badge!* Grimly, we now have a near lawless society thanks to the worthless Judicial Legal Complex (JLC). With the radical 90-day Death Penalty Reform, we are setting the stage for the Law and Justice we expect and deserve.

Not the Law and Disorder that lawyers paid by the hour make their living from.

#### 11. The American Death Penalty Reform Law

Aka, the **Sandy Hook Obviously Guilty 90-Day Death Penalty** Law. Most people I share that title with pretty much know what it means. And they like it!

Offenders will receive a standard court trail and be convicted on **obvious evidence** of their killing one or more people. Guilt is easily confirmed and the penalty is pre-set. Death via pill or shot within 90-days of the conviction.

We could soon add pre-meditated rape and pedophiles to that list. More will be added. It is not eye-for-an-eye. It is death-for-a-death. At least 8 in 10 people would vote for that today!

Recent grim statistics show an average of 44 murders per day in America. The low is 6 murders and 90 is the most deaths in a single day.

We will implement this Reform, retroactively! We have a lot of prisons to clear out!

#### 12. Reinstatement of the Military Selective Service Program

I call this reversing one of the great legislative sins of our past. We never should have ended the Draft some 50 years ago in 1973. Many of our society's problems today were made worse or were caused by that foolish, short-sighted decision, including less racial harmony.

We will restart the Selective Service or Military Draft by the year 2025. It will be the same 2-year term of service. Briefly, it will be mandatory service for both men and women this time. The proposal calls for 3 to 6 months of standard Army training. People will be able to join the Navy, Marines, Air Force, and Coast Guard instead of going in to the Army, just as before.

After that some of them will continue along the lines of regular military service assignments. However, the majority will be specially assigned to the States to provide much needed support for infrastructure projects, clean-up after storms, tornados, hurricanes, etc. Getting viable debris to the growing number of full-service Recycling Centers. State Governors and insurance companies will welcome the help.

### 13. Prostitution will be Federally Legalized

This should get some people's attention and I agree it is not normal today. S, this Platform really does care about everybody. It is a business that is never going away and it could be much safer for those involved. I personally do not use such services, but recognize the absolute need for it. Realistically, it is used by Americans at ALL income levels! For those among us that would work in that business and those that would make use of such a business, safety and hygiene must be stressed and protected.

The police and courts have better things to do. It will be an interesting issue for women's rights groups to ponder and announce their position on!

And in hard reality. I do not know for certain that if making such services safely and privately available to the public, could in some way reduce some incidences of rape?

Sex traffickers will soon be added to the 90-day Death Penalty list!

### 14. The US Recycling Industry – For Jobs and the Environment

This is an absolute no-brainer. Jobs collecting, sorting, and processing the recycled product. Then turning some of it into raw product for manufacturing whenever possible.

Of course, from people's homes and businesses, but also where the cleanup from storms, tornadoes, hurricanes, flooding, etc. We need to repurpose as much product as possible for building materials and the manufacturing everyday products we can make in America.

### 15. Refunding Covid19 Overcharges – Pandemic Wartime Profiteering

This is part of the Commodity Market games during Covid19. The Congress has ignored this costly abuse of the consumers.

Enough said.

### 16. Save the Truckers Jobs

Beware of AI replacing too many of these jobs.

### 17. Regarding Our Failing Environment

Too much to say here except for a few items to spark some conversation,

- We the People, will deliberately discontinue and end all "passenger" travel via airplane on Wednesday every week. Permanently and worldwide!
- We will end the destruction of the South American rain forests. By military force if required.
- I do not care if some doesn't believe in Global Warming or Climate Change (the Republican invented alternative word). The poles and glaciers are melting, there is increased moisture in the atmosphere, which makes for more and angrier storms that could easily drop 8 inches of rain instead 1 inch.
- Much more on that critical environmental issue for certain.

## 18. Health Care in America is a Disgrace

Why? In brief, because we have 51 “for -profit” Health insurance systems in this country. And it is extremely over-priced.

Over the next several years, the Medical Insurance Industry will be merged their operations under a single corporate entity. That merger could possibly include the current Veterans Health Care System. That should start a real conversation.

When I tell people that Europe has a better health system than we do they are surprised. They cover everyone, believe in preventive maintenance, they are healthier, and they live longer! Go figure?

The historic reason for that is that Europe’s entire medical system was literally blow up in World War II. And they were in the worldwide Depression when it started. Thus, after the war they rebuilt their social support systems designed to serve everybody, because no one had anything. Yes, there will be more on this as you can imagine.

o o o o

Please remember these are some of the “Publicly Acceptable” 40+ problem-solving proposals and view much more on the Platform website, [www.CommonSense2nd.com](http://www.CommonSense2nd.com)

### **Thoughts on a Few Points/Issues**

1. **How Wall Street Thinks?** Talk about the Haves and the Have-Nots. The last year or so I have been watching CNBC the financial news network. A professional financial news source! While I am not in the Market, those programs inform so much about how businesses are doing and, on the economy, in general. A couple points:

- Since 1775 where have been no less than 84 financial crises in America. Not generally caused by the Masses! Although we peasants most often got burned.
- It must be noted that Wall Street only cares or talks about the investor community. They hardly ever mention the cost of groceries hurting anyone. They did just note that consumers at even the higher income levels are now cutting back on spending.
- They were sitting around one day and one of them waved his hand across the room of investors and not meaning to be rude, just factual declared, “*You know inflation really doesn’t bother any of us*”. Because they are sufficiently wealthy. The Plain Truth!
- Earlier this year when SVB and a few other banks were hitting the wall and the market was going crazy, one of the brokers noted that equities/stocks were not doing well. Also, Bonds and a few other instruments were not that promising either. So, he shrugged his shoulders and said, “I guess we will just have to go back into Commodities”. Their backup ATM into our pockets. The uncontrolled international Commodity Market.

- Oil had been running in the under \$80-a-barrel range which is high enough. In the last few weeks, the Saudi's are again lowering daily oil production, Energy Industry games with drilling and refining continue, and other Supply and Demand scares are being acted out.

Energy Industry brokers on CNBC are speculating that the barrel price could reach \$100 to \$150 per barrel. And were drooling out of one side of their mouths! They do not care about the increased cost of anything or the household level damage that it causes.

- Again, this campaign will bring forth the radical, yet highly practical capping the cost of all Commodity Market items. Price spikes will be eliminated. Item pricing will be reviewed for plus or minus adjustment every 2 or 3 months, only. So, let the screaming begin!
- Finally, one of their regular comments on CNBC is to volunteer that in spite of negative financial this and that happening – everyone's balance sheet is still doing well!  
"everyone's"

2. **Education Alerts.** Two items, not concerned with Covid19 impacts. First, other developed nations around the world are kicking our butts in education. Why? Part of the reason is that they do not allow school students to have personal cell phones in class. Period! For many good reasons, other than confronting cell phone use addiction in teenagers, we need to remove them from student access while in class.

No one can learn anything with one eye on their phone. Especially, a student that is already struggling academically. Just as someone can't learn to drive safely with one eye on a cell phone. The whiners will first say but what is the school is attacked. The teachers will have phones. More details on that another time.

My second education comment is that over the last several decades more and more school systems dropped the always useful programs "Hooked on Phonics" or "Ultimate Phonics".

This has had disastrous results. For the young kids that need help with sounds and words, these are critical programs, particularly in the early grades. If something works, simply leave it in place! Check with your school and challenge them on their usage of those reliable learning tools. Food for thought. Some thankfully have decided to bring it back.

3. **Commodity Market Control.** Yes, I have been hammering this issue.

Although this is really not my specialty, here are my comments on the Federal Reserve and their project to bring down inflation. When the Fed is evaluating the overall financial system and its goal of lowering Inflation to 2%, they look at Core and Top Line economic numbers, among other things.

Basically, all economic activity except for Energy and Food makeup the Core economic evaluation. After the last Fed meeting, one of the commentators noted the Fed Chairman

Jerome Powell (just like the investors on CNBC) do not like to include Energy and Food costs because “they are too volatile!! That is exactly the problem – groceries and gasoline! Top Line, combines Energy and Food with Core economic numbers.

Again, even as a casual observer, that makes no common sense. I go back to my comments on the Commodity Market. My campaign is going to drill down into this issue. The Commodity Market lost ALL of its credibility in the 3 years of Covid19. Most of the public worldwide does not understand the use and abuse Commodity Market. That will change.

The manager of the major grocery chain store, very recently volunteered to me that prices would be going up 6% next year.

I will loudly push for global pricing caps and controls over the Commodity Market. The public’s ultimate and prudent control over that critical part of the world economy, would be bi-monthly if not quarterly adjustments, as required, to item pricing. That would greatly help to stabilize economies around the world. I will press the issue during the campaign and with the Press. And after Wall Street immediately cries foul, we will have a very adult discussion on the issue! Enough said.

o o o o

This concludes Part 2

o o o o

## ***American Reformation – Part 3***

### ***American Democracy’s Problem – Our Elected Officials***

#### **“The 2024 Call to Electoral Arms”**

Now for some patriotic perspective on this chaotic time in our nation’s history.

Welcome to our American Reformation, my fellow American citizens. These contents and many other Internet accessible references have been prepared for your review and consideration.

In 1776, our national ancestors executed the ***American Revolution*** against King George III. In retrospect, it could actually be called our **first Civil War**. English soldiers fighting English colonists. The results in 1783 were American national independence, the *US Constitution*, and the *Bill of Rights*. American Democracy was ***created***. And America gave the world the living model of ***Democracy in Government***.

Some 25,324 American colonists died in battle. About one-percent of the population or about 3,300,000 of us today! Not a cheap price...

From 1861 to 1865, our national ancestors fought our nation’s **second Civil War** pitting the Northern states against the Southern states. It was Americans fighting and killing each other over keeping the nation whole or splitting it apart. Although ending slavery was not the reason for the war, President Abraham Lincoln and the US Congress passed the Emancipation Proclamation on January 1, 1863 to free the slaves. Thankfully, the North was victorious and the *states remained united*. Thus, American Democracy was ***preserved***.

The North lost 363,020 killed and 281,104 wounded; the South lost 199,110 killed and 137,102 wounded. Some 51,112 troops of both sides died in Gettysburg, PA over the 3-day July Fourth weekend in 1863. That is compared to the entire 11 years of the Vietnam War that took some 58,220 of our people.

So here we are in 2023 and bearing down on yet another Presidential and Congressional election in 2024. So, let’s just say it. We ALL absolutely hate the never-ending presidential campaign rhetoric! I believe the President should serve a single 6-year term. I would only serve a single 6-year term in US Senate, if elected!

For the public’s consideration, I frame this 2023/2024 time period as our **third Civil War**, as well as our ***Second and Final American Revolution***.

**“We are now engaged,”** in the oldest domestic battle known to civilization. The tug-of-war between the Haves and the Have-Nots. Don’t roll your eyes if you disagree with that and pay attention!

I declare that with this Platform we will provide a model of ***Democracy in Economics*** for the world to witness. I will push the appropriate parties in business and government to publicly

demonstrate how, for example, they intend prevent America from ever losing our World’s Reserve Currency status. That is what China, Russia, and some others would love to see happen to us and they are now working toward it. We will not allow our too often irresponsible financial community – the Banks and Wall Street to walk us right into that ultimate of national financial disasters. And then they would turn to us and say, “oops!”

For hard perspective on that matter, since 1775 there have been no less than 84 “financial crises” in America. That was before this year and things like SVB collapse and Regional banking crisis back in March. Most of those grew out of the Bankers and Big business playing games. And all too often the little people get burned.

Current social and economic events are that troublesome, folks. Thus, We the People must rise to this challenge. The People and nation need the legislative leadership that I seek to bring to the US Congress.

Be encouraged, because in the end of this madness, American Democracy will *endure...*

o o o o

**The 2-Parties are Electorally Afraid of Political Independents and Moderates**

And for good reasons. The wonderful thing about writing like this, is that you can if you want or dare to – get everything off your mind on an issue by putting it in writing. Regarding the 2-Parties, I would say both are at critical crossroad with the American Public.

It is informative to know that for many years now over 40% of voters consider themselves to be Independent thinkers regardless of their voter party registration. That is me. It also means they are most likely Moderates legislatively. Exactly what we need much more of in the US Congress and 50 State legislatures.

The numbers below are from Gallop polling on Party Affiliation. Those numbers are not a fluke. Independents have been higher some years.

<b>Dates</b>	<b>Republicans</b>	<b>Independents</b>	<b>Democrats</b>
<b>2022 Feb 1-17</b>	<b>26%</b>	<b>42%</b>	<b>29%</b>

Gallop Polling <https://news.gallup.com/poll/15370/party-affiliation.aspx>

o o o o

To me the Republican Party has been breaking down for the last 7 years or so. Their leadership crisis makes the Democrats look organized which is not that easy to do!! Given the most recent government shutdown circus in DC – I believe the voters are even more open to Moderate candidates, be they Republican or Democrat in 2024.

As for the Democrats, I will not be shy at publicly pressing them to embrace and pass my Immigration and Abortion Services proposals that I know the public – the voters – are ready to

support. If Democratic Party leaders show practical and bold leadership and pass both of those in the next several months – the voters will show their appreciation in the 2024 election cycle.

We the People, Demand those two issues be resolved, as we prefer, asap. Time will tell, folks.

o o o o

### **About the Dysfunctional Republican and Democratic Parties**

This falls under the heading political objectivity.

**The Republican Party** – does not even make an attempt anymore at presenting a public-serving Platform. As I have written many times, they blatantly serve and only care about their Wealthy donors and some 8 to 10 Big Industries. Further, Republicans in the US Senate do everything they can do to block practical economic, social, and environmental programs. The US Senate has been a legislative roadblock for the last 20+ years, led by their devious legislative dictator Kentucky Republican Senator Mitch McConnell. As they say, the US Senate has become the place where good legislation goes to die...

**The Democrat Party** – yes, and then there are the Democrats!

The Democrat's Party, has always presented itself as the Party that cares about the average American, and so they are. They do care more about people and have been responsible for the passing of any significant economic, social, and environmental programs over the years.

However, over the last 15 years and the last seven (7), in particular, Democrats have gone completely overboard catering to any and every special interest/minority group they can find. Yes, I said that because it is true! Certainly, some of that targeted attention and legislation is fully warranted, but the hard-left Liberal/Progressive wing of their Party has become too radical and is just killing the Democrat's image with the Masses. And ever so bluntly put, the Democrats leadership often appears to have all but forgotten that White people, and White males in particular, even exist! And we really resent it. I suggest that some Democrats need to “wake” up!

As Thomas Paine once wrote, “He who dares not offend, cannot be honest”.

o o o o

## **Let's Review How to Replace Problem Elected Officials**

### ***“Our 2024 National Electoral War”***

#### **Our Need to Recruit More Moderate Democrats and Republicans**

We will begin by replacing retiring members of Congress with Moderate candidates.

Starting with my example! I am a long time political independent registering in mid-2023 as a Democrat in Maryland in order to run in the May 2024 Democratic Primary. Running as a true Moderate, problem-solver that brings a comprehensive Platform with him to the Democratic Party and the 2024 Election cycle. A Platform that the Democrats could act upon starting in 2023 – long before the 2024 election. Public-friendly reforms that would make the 2024 elections much easier to win – from the White House on down. That also applies to 50 State legislatures...

In order for us to EVER see such legislation become enacted into our daily lives, we must have the more of the 435 members of the US House of Representatives and the 100 members of the US Senators actually working for our Common Good. It is that simple. They need to do their job for us – not the Wealthy and Big Business. For them to solve the problems that cannot or will be resolved at the State or Local levels. Like immigration control and rational abortion services.

This American Reformation begins at our borders. It ends in the offices and legislative chambers of the US House and US Senate, as well as 50 State Legislatures. It is obvious to everyone that those approximately 8,500 Federal and State legislature elected officials, be they Democrat or Republican or the random Independent – aren't capable of getting the People's work done. What they are masters of, is convincing voters to re-elect them anyway. That will begin to change in 2024.

Our national ancestors gave you, me, and 258 million voting age Americans – the US Constitution. Therefore, we are the boss of the US Congress and 50 State legislatures. We will now remind them that we are! We will now start letting them know that we are here and of what we Demand to be fixed.

To again declare, their job is *“to solve the people's and nation's problems that cannot or will not be solved at the State or Local levels”*. Unfortunately for us, they collectively have, are, and will continue to legislatively fail to serve our Common Good.

That is, unless we act upon our electoral strategy over the next 13 months. We will act to replace whomever we may in the 2024 election cycle and scare the rest of them into doing their legislative job in the meantime!

We want Moderate Democrats and Moderate Republicans to step forward. And for them to embrace this moderate New Democratic Platform. It is not perfect, but it is aimed in the right direction. I would note that those 40+ proposals are not all my opinion! They were derived from

literally thousands of one-on-one talks with strangers of all types and perspectives. Thus, it is the People's Agenda. I would have been harder in some cases...

### **First, Electorally Targeting Retiring Democrats and Republicans**

Ok then. So here we go my frustrated fellow American men, women, and children.

There is a current list of announced US House and US Senate retirees posted on *WildmanforUSSenate.com*

I submit that the American Reformation provides the searching American Electorate with a viable Platform of solution-based proposals. We urgently need to see such viable solutions implemented. My campaign will initiate its public push with our Immigration Reform proposal. Which is a real crowd pleaser with way over 65% approval.

I am kicking-off my campaign for the US Senate seat of retiring Democrat Senator Ben Cardin, the first week in October. I will publicly challenge my Maryland members of Congress to submit the Immigration legislation in both the US House and Senate.

Although, I believe the White House the orders to close and guard the US/Mexico border at any time. That will soon be clarified.

In particular, I will publicly challenge my Democratic primary opponent and current US Representative of Maryland, David Trone. He is serving his first term in the House and is now running to take Senator Cardin's seat. He has publicly stated he will spend as much money as needed to win that seat. We shall see about that! US Rep Trone is challenged to actively promote my publicly acceptable Immigration Reform or explain why not to the people and voters of Maryland. Game on!

Politically, retiring Senator Cardin has nothing to lose by promoting the Immigration Reform. Senator Chris Van Hollen could work with Ben Cardin in submitting the legislation in the Senate. Next, is for my US Representative Dutch Ruppersberger to submit it in the House. And again, there is Maryland US Representative David Trone. He could work with Ruppersberger in the submission to the House.

It will be interesting to see if those four (4) Democratic legislators support or reject the proposal. If they will not support my workable proposal, they will need to explain why to the people of Maryland. And then offer their own approach – other than business as usual.

I will be seeking their support in submitting several other Pieces of legislation. It could get busy for them! And they will need to get used to a steady flow of solutions, if I am elected to that office.

The Democrats from President Biden on down need to step back and decide if they want to lead the Masses with a viable Moderate Platform. Or do they just want to keep letting the Progressives (formerly known as Liberals) drag the Party down in the public's mind. Because that is exactly what they are doing.

We will get the Immigration crisis worked out before the end of 2023. Because that is what People now Demand!

The Great State of Maryland’s nickname has long been, “America in Miniature”. Now Maryland will lead the nation by submitting our historic Immigration legislation that will help all 50 States.

**Next, Electorally Targeting Extreme Democrats and Republicans!**

Enough is enough. The now annual government shutdown dance is on once again.

My campaign will also maintain a list of those viewed as legislatively “extreme and/or dysfunctional” members the US House and Senate; both Republicans and Democrats. Watch for updates.

Just think of those useless members as making a special list. A list that is the exact opposite of getting a People’s Choice Award!!

The first version of that list will present the name, state, and US District number of the 21 US House Republicans that *voted against and killed the full Budget passage* about September 28<sup>th</sup>. Not the Continuing Resolution (CR) that passed the evening of September 30<sup>th</sup>. Many of those 21 incumbent Republican US Reps believe they are “untouchable”. We shall see about that!

Maybe or maybe not. If we can attract Moderate Republicans or even a Moderate Democrat to run against them and that supports the Moderate Democratic Platform. You never know, people are really ticked-off!

## **My Patriotic Challenge to Potential Moderate Candidates**

I know you are out there. I am far from the only one ready to serve our citizens and the nation.

To be clear, we need Moderate Democrats and Republicans to embrace and promote my politically independent problem-solving Platform.

First option, if you have a retiring Senate or House member of Congress for your State, please consider running for that office. Or possibly urging someone you know could do the job to run. You already have a viable Platform that is better than either Party has. Thus, voters will be drawn to it and your candidacy. Just study the Platform and get out there just like I am starting to do. You can do it!

You could be a Moderate Democrat running to replace a Democrat. Of course, in the wide, wide world of 2024 politics, you could also be the Moderate Democrat running that replaces a useless Republican incumbent. And frustrated voters could go for that!

Or be a Moderate Republican replacing a useless Republican. Many voters could well be drawn to the problem-solving Platform and the type of aggressive candidate that will get it enacted.

Second option, is to run against the “dysfunctional and/or extreme” Democrat and Republican incumbents. It could work because people are fed up and know who is blocking good legislation and who isn't.

Again, we will be updating those lists on WildmanforUSSenate.com. Please check my CS2News podcast, @CS2News Twitter feed, and CS2News YouTube channel for updates on the campaign and the issues.

All that said, in many cases if we have a good candidate – man or woman, they will do well in the state's Party Primary and could cruise through the General election. Time will tell.

## **Minuteman and Minutewomen – Time to Answer Our Nation's Call**

I am a single American man with a problem-solving Platform designed and intended to improve the lives of 330,000,000+ of our fellow Americans. And I am deliberately working to put myself into national office to help ensure those viable Reforms become a day-to-day reality in America.

This electoral game is ours to win my fellow American. And we will, once we collectively realize that we own this government. That we are supposed to make the laws, not the selfish and greedy few among us.

All that said, the US Congress and the White House will have a real legislative proposal driven 2024 campaign on their hands. A long overdue legislative and Congressional housekeeping effort awaits our politically troubled US Congress and 50 State legislatures.

To be clear, my frustrated fellow Americans, if We the People take up this electoral challenge in the 2023/2024 election cycle – there is nothing the 2-Parties can do to stop us. Amen.

In Closing

July 4, 2024 is 248<sup>th</sup> anniversary of our nation's *Declaration of Independence*. If we begin now to Demand the legislation presented in the New Democratic Platform, the world could be feeling a whole lot better to us by next summer. Not wonderful necessarily, but definitely better!

To start with, should we act to close the borders as desired no later than December 31, 2023 – it will have been closed and guarded for 6 months by July 4<sup>th</sup>. We the People will rejoice!!

Besides that, some of our other public problems could be in the process of getting fixed long before the November 5<sup>th</sup> Presidential and Congressional Election. We the People, will observe any progress and will critically judge who gets through their Party Primaries and then through the General Election.

Retiring and incumbent officeholders will be judged on how well they demonstrate they are even interested in solving Common Problems in 2024...

This is our moment in time.

o o o o

My normal and heart felt closing is to declare that I do all this for you, an individual American citizen. For you, for those you Love and otherwise care about, and for the other 330,000,000+ of our fellow American men, women, and children – that you and I will never ever meet...

Like it or not, We the People are in this mess together. It is reassuring to know that once a couple hundred million of us come together and decide on what to do – no one and nothing can stop us. Including the US Congress!

So then, let's be about our nation's business! Let's see about closing that border...

May God continue to bless the United States of America!

Thank you and take care,

*A. J. Wildman*

*10-15-2023*

## **Appendix**

### **20-Year Census Data Race Comparisons and Border Closings**

## **20-Year Census Data Race Comparisons and Border Closings**

If ever some human statistics told a clear story about the 20 years of immigration and border abuse, the chart on the next page nails it! A few of the numbers actually shocked me! That doesn't normally happen. So, let's get to the real numbers they would rather we not be fully aware of!!

We will begin dealing with the population issue right here folks. For those who are or are not concerned about the White population being replaced primarily by Hispanics the following numbers will put a large light on this nasty problem.

To make a point, in the year 2000 there were already one (1) million more Hispanic American citizens than Black citizens. By 2020, due to “no control” over our borders there seventeen (17) million more Hispanic than Black American citizens. This is one of things that rightfully drives most Americans, including the MAGA folks crazy. The politicians time has run out.

### Suspending All Migrant Treaties thru 2025 at Least

America has the most daily violated borders in the entire world. We the People, Demand that America will immediately, in 2023, end our voluntary support of that policy. We will close our borders thru 2025, at least. That will include chain migration. Much more on the Immigration Reform proposal on the website, WildmanforUSSenate.com. Now let's do the numbers...

Over those 20 years:

- White American population increased only, 1.3 million; a less than 1% increase.
- Black American population increased only, 7.9 million, a 22% increase.
- Asian American population increased, 9.4 million; a 93% increase.
- Hispanic American population increased, **23.8 million;** a 64% increase.
  
- Total American population increased, 43.0 million; a 15% increase.

The lack of White population growth is quite disturbing. The disproportionate numbers in both Hispanic and Asian population growth somewhat explains the impact of the flow of immigrants from south of the US/Mexico border and from the Asian nations via airports.

It seems fair to speculate that the majority of estimated ten (10) million Illegal Occupants (IOs) walking free in our borders are mostly from the nations south of the US/Mexico border. That estimate is a few years old, too!

Again, both Republicans and Democrats are equally at fault in failing to secure our national borders. Why? Because, their primary donor-base wants cheaper labor and/or more bodies legal or not to fill-up their rental units. That is more the reality, than you may have considered, folks.

Thus, every Spring and Summer for decades, Mexico promotes the northward flow, and members of Congress throw their hands up in the air. The Party out-of-power blames the Party in-power for not doing something about it. And they both blame whomever is in the White House. The annual result is nothing gets done, except that thousands more IOs slip across our

Southern border. Congress, as usual gets nothing done and the Status Quo is protected for their campaign donors.

In one (1) of the American Citizen Statistic tables presented on the TIPA Platform website *CommonSense2nd.com*, is the US 2000 and 2020 Census Racial Groupings and 2020 Sex Tables. That 20-year Census comparison bluntly documents the horrific and organized abuse of the uncontrolled US/Mexico border and our international airports, too!

<b>US Census - Population by Race Comparison 2000 vs. 2020</b>					
<b>Item Title</b>	<b>Year 2000</b>	<b>Year 2020</b>		<b>Growth</b>	<b>% Growth</b>
<b>Total US Population</b>	<b>285,000,000</b>		<b>328,239,523</b>	<b>43,239,523</b>	<b>15%</b>
<b>Census Racial Groupings</b>		<b>% Tot</b>			
White	196,000,000	60.1	197,271,953	1,271,953	Less than 1%
<b>Hispanic or Latino</b>	<b>37,000,000</b>	18.5	60,724,312	<b>23,724,312</b>	<b>64%</b>
Black or African American	36,000,000	13.4	43,984,096	7,984,096	22%
<b>Asian</b>	<b>10,000,000</b>	5.9	19,366,132	<b>9,366,132</b>	<b>93%</b>
Two or More Races	No Breakout	2.8	9,190,707		
American Natives	3,000,000	1.3	4,267,114	1,267,114	42%
Others	3,000,000	0.2	656,479	(2,343,521)	
<b>Male</b>	140,000,000		161,588,973		
<b>Female</b>	<u>145,000,000</u>		<u>166,650,550</u>		
	285,000,000		328,239,523		
<b><u>The World's Population</u></b>					
<u>Year</u>	<u>Total</u>	<u>Growth</u>			
1990	5,278,639,789	15.2			
2000	6,082,966,429	12.6			
2010	6,956,823,603	10.7			
2020	7,794,798,739	8.7			

We, the frustrated and disgusted American Public, are now ready for true legislative leadership and to have our long-standing social and economic problems confronted and solved.

**It is time for Our American Reformation!**
