

Albany, Ga- "No Love Lost" is a phrase that carries many origins. But to define it overall means to be equally loved or hated by both parties involved.

Albany rapper CBR Scrip provides us with an emotional directory in the second installment of No Love Lost. **No Love Lost, Vol. 2** is about trust, betrayal, hustling, misguidance, and success.

After a residential incident with Albany Gang Task Force, CBR Scrip decided he didn't want to be a stereotypical target in his community. He devoted his energy and efforts full-time to music production, using his life experiences in Albany's atrocious neighborhoods as motivation for melodic flows and breathtaking beats.

The 8 track tape musically guides us through times and situations where CBR Scrip should have felt weak but the darkness of the situation didn't do anything other than strengthen him.

There's no prototype for the journey of life but by listening to **No Love Lost, Vol. 2** it'll give you an awakening of how to remain vigilant throughout the ups and downs of life.
