## Standing Acoustic Solutions

The size of our AbsorbaScreen ensures that the maximum acoustic performance is achieved on both sides, with the large surfaces making this a perfect room divider for all spaces. With a wide range of colours, you can create a kaleidoscope of colour in your workspace.

Hide those areas that you don't want to see with our foldable screens. This is achieved through the use of zips which allow multiple screens to be connected together.

Give your workspace the sound treatment it deserves!
