2023 May 15

To Whom It May Concern:

As of today, I am a 92-year-old senior citizen. One way I am celebrating my birthday is with this letter.

I am glad to report that one of my neighbors here at Redwood Gardens for several years, Mr. Peter DuMont, has distinguished himself by repeatedly bringing delivery packages, sometimes heavy ones, unasked, from the lobby directly to my door and right into my hands. You can imagine that these friendly practical favors have been very nice and helpful to receive. They have added to my quality of life.

One time before the pandemic in 2020, Peter arranged for a neighbor to help move a big heavy couch for me from the far side of the apartment complex. They got it skillfully through a tight fitting doorway, then right into position in my apartment. It was an operation that took substantial effort and finesse. When I offered to pay, Peter smiled and said he would appreciate a letter.

Judging by these experiences, Peter's STAR ALLIANCE nonprofit project to identify, declare, and promote *Highest Civic Ideals* — values education for our world and everyone in it — is well-represented by his local actions. I hope this project gets the support it needs and deserves.

I would venture to guess that in addition to donations, ethical and peaceful behavior is something we can all aspire to. We can all make a difference.

Sincerely,

A handwritten signature in cursive script that reads "Carol R. Levy".

Carol R. Levy
