VOL. I • NO. 1 SUNDAY, NOVEMBER 15, 2026 SPECIAL REPORT

ARE WE WATCHING THE WORLD MOVE TOWARD THE TRIBULATION?

“Look up, and lift up your heads; for your redemption draweth nigh.” — Luke 21:28 (KJV)

The events unfolding around the world are becoming increasingly difficult to ignore. Political upheaval, technological vulnerabilities, growing antisemitism, wars, economic uncertainty, and escalating global tensions raise an important question for Bible-believing Christians: Are we witnessing the stage being set for the seven-year Tribulation described in Scripture?

America’s Fragility Exposed

On November 13, 2026, the Federal Aviation Administration ordered a nationwide ground stop, bringing departing air traffic across the United States to a halt. A telecommunications failure disrupted critical aviation systems, exposing how quickly a technologically advanced nation can be brought to a standstill.

Although officials have reported no evidence of a cyberattack, the incident demonstrates the vulnerability of systems upon which millions depend.

Could such vulnerabilities eventually contribute to the instability that makes centralized global control more appealing?

Revelation 13 describes a future system in which economic participation is controlled through the authority of the Beast. While the FAA incident is not itself a fulfillment of prophecy, it reminds us how dependent modern civilization has become on interconnected technology.

Political Upheaval and the 2026 Midterm Elections

The November 3 midterm elections dramatically shifted America’s political landscape, with Democrats winning control of both chambers of Congress.

The results have intensified questions about political gridlock, national direction, economic policy, and America’s future role in world affairs.

Jesus warned in Matthew 24:7 that nation would rise against nation and kingdom against kingdom. Political disagreement alone does not fulfill this prophecy, but widespread instability and division remind us how quickly the foundations of powerful nations can be shaken.

The Growing Hatred of the Jewish People

Perhaps one of the most concerning developments is the persistence of antisemitism across the globe.

Jewish communities continue facing threats, harassment, vandalism, and violence. The Anti-Defamation League documented 6,274 antisemitic incidents in the United States during 2025, including record levels of physical assaults.

Scripture reveals that Israel and the Jewish people will remain central to events surrounding the last days.

Zechariah 12:3 describes Jerusalem becoming a burdensome stone for the nations. Daniel 9:27 and Revelation 12 point toward a future period of extraordinary conflict and persecution.

The growing hostility toward Jewish people should concern every Christian, not only because of its prophetic significance, but because hatred and persecution are evil and must never be tolerated.

A World Preparing for Global Control?

Wars, economic pressures, digital identification systems, expanding surveillance capabilities, and growing dependence on technology are changing the world before our eyes.

Revelation 13:16–17 describes a future economic system in which no one can buy or sell without the mark of the Beast.

Today’s digital systems are not proof that the mark has arrived. Nevertheless, the technological infrastructure for unprecedented economic monitoring and control is becoming increasingly conceivable.

The Bible also warns of deception, false peace, and a coming world leader who will exercise extraordinary authority.

The question is no longer whether such a system is technologically possible, but whether the world is becoming increasingly willing to accept it during a time of crisis.

The Tribulation Is Coming — Are We Ready?

Jesus warned of wars, famines, pestilences, earthquakes, deception, and persecution in Matthew 24. He

described these developments as the beginning of sorrows.

We must be careful not to declare every headline a fulfilled prophecy or claim to know God's prophetic timetable. Yet the convergence of global instability, hostility toward Israel, technological dependence, and political uncertainty deserves serious biblical examination.

For those who hold to a pre-Tribulation understanding of Scripture, these developments reinforce the urgency of being spiritually prepared for Christ's return.

THE MESSAGE IS NOT FEAR. IT IS READINESS.

Jesus Christ is coming again. The world may be moving toward the events described in Revelation, but believers are called to remain watchful, faithful, and grounded in God's Word.

"Surely I come quickly. Amen. Even so, come, Lord Jesus." — Revelation 22:20 (KJV)
