

PRESS RELEASE

FOR IMMEDIATE RELEASE

6.28.2023

TAMPA, FLORIDA - CPH3D Click Print Home, A 3D Concrete Printing Company LLC. WINS VA ACCEPTANCE

CPH3D, the leading vertically integrated 3D printed concrete residential design-build firm in the southeastern US, based in Tampa, Florida, was just formally accepted by the United States Department of Veterans Affairs (VA) as a recognized builder in the VA Home Loan Guaranty Program; builder ID number 12871.

This makes CPH3D the first 3D Printed Homebuilder ever to be accepted into the Veterans Affairs loan guaranty program, making CPH3D veteran clients eligible for VA 100% financing to build their next home.

“This is a proud moment for me as the founder of this company, to now have Federal approval to work directly with our veterans utilizing their VA home buying loan benefit who have given so much to this country, and right before the 4th of July, perfect timing!” Said Matt Gibson, CEO and Founder of CPH3D also a Real Estate Agent for COMPASS Florida.

“The VA construction loan available to eligible vets and spouses allows for **100% financing with no mortgage insurance of the ‘to be built’ 3D printed concrete home and NO payments are required during the construction process**, only when the home is COMPLETE does the 30 year mortgage with no PMI payments begin- ***unheard of in the conventional world of construction loans.***” Matt continued.

Kevin Haseney, Chief Sustainability and Operations Officer who is a veteran and served in Iraq was overjoyed to see the approval come through. “This is a big day for CPH3D and our veterans, but also for me personally and my contracting partners in the GreenBuilt Co-Op that help us build the rest of the house. This also opens the door for me to build my own 3D printed home using my VA benefit, something that has been a dream for years. Veterans out there, please call us to build your next home, we’re ready.”

CPH3D has one new construction to be built home [actively listed for sale in South Tampa for \\$550K](#) and will be adding another, larger 3D home to the market in the coming days for around \$789K on an adjacent homesite, setting up two homes to be constructed at the same time.

Please visit ClickPrintHome.com to sign up for more information about building your own 3D printed home.

Dear Matthew Gibson:

We have accepted your company as a builder in the Department of Veterans Affairs (VA) Home Loan Guaranty Program. Your builder ID number is 12871. Lenders will use this ID number when ordering appraisals for homes that you build.

Information about VA construction policy can be found in Sections 10.08 through 10.10 of the Lender's Handbook. The Lender's Handbook is on our website at <http://homeloans.va.gov/handbook.htm>. If you have questions, you may contact me at (877) 827-3702 ext. 221601 or e-mail me at 17CRV2.VBASPT@VA.GOV.

Thank you for your participation in the VA program.

Sincerely,

Jeffery Haynes
