

航车吊 Aerial crane

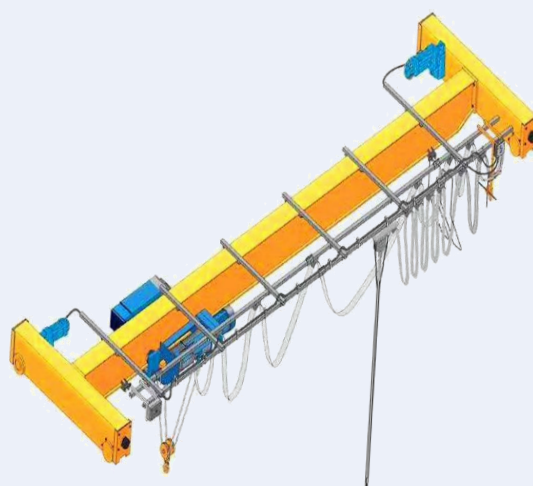

应用于工业车间、料场、铁路货站、港口码头以及物流周转等场所

Used in industrial workshops, material yards, railway cargo stations, port terminals, logistics turnover and other places.

精益求精 铸造品质典范

REFINE ON CASTING QUALITY MODEL

产品跨度: 7.5-30 米

Product span: 7.5-30 meters

起重量: 1-30 吨

Lifting weight: 1-30 tons

起升高度: 6-30 米

Lifting height: 6-30 meters

操作形式: 遥控、线控 Operation form: remote control, wire control

起重量大: 用心选材、材质厚实、机身稳固、使用时间长

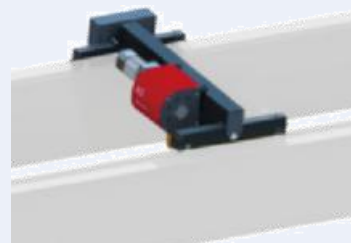

Large lifting capacity: carefully selected materials, thick materials, stable body, long use time.

性能稳定: 适合高密型吊运工作、性能稳定、故障率低、易于维护等特点

Stable performance: suitable for high-density lifting work, stable performance, low failure rate, easy maintenance, etc.

源头厂家 品质保证 支持定制 售后完善

Source manufacturer, quality assurance, customization support, after-sales improvement
