

龙门吊 Gantry crane

应用于室内外工矿企业、钢铁化工、道路交通、港口码头以及物流周转等场所
Used in indoor and outdoor industrial and mining enterprises, steel and chemical industries, road transportation, ports and terminals, logistics turnover and other places.

产品跨度：7.5-50 米

Product span: 7.5-50 meters

起重量：5-50 吨

Lifting weight: 5-50 tons

起升高度：5-30 米

Lifting height: 5-30 meters

操作形式：遥控、线控 Operation form: remote control, wire control

结构合理：上由门架、大车运行机构、起重小车和电气部分等组成

Structurally, it consists of a mast, a trolley operating mechanism, a lifting trolley and electrical parts.

性能稳定：场地利用率高、性能稳定、适应面广、通用性强等特点

Stable performance: high site utilization, stable performance, wide adaptability, strong versatility, etc.

源头厂家 品质保证 支持定制 售后完善

Source manufacturer, quality assurance, customization support, after-sales improvement

精益求精
