**1. What do we want to do?**

That will last

That will not change my situation

That will bring victory

That is worthy to exchange with life

That is my “call to BE and Do”

## 2. Why do we want to do that?

That it may remain on “the day of fire test”

That it may reward on my eternal account

That it may bring abundant life on earth

That it may become my garments of “good work”

That I may hear “good and faithful” on that day

That I become a joyful volunteer of “Morning Dew”

That may lead me to continue on the “call to do”
