

# Booth Rental FAQs

Thanks for choosing Shine On Consignment

## 1 How do I determine pricing?

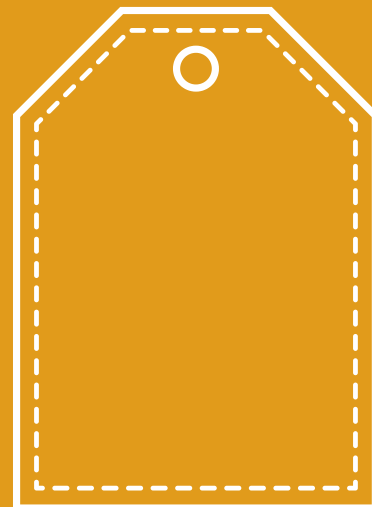

A popular price point for shoppers is \$10-\$12

Typical resale prices for items usually fall between 25% and 30% of their retail value.

However, items that are New with Tag (NWT) can often command 40% to 50% of the retail price.

## 2 Do I need to provide my own tags?

We provided white prestrung tags that you pick up prior to your rental start date. Attach the tags to your items. We will print the sticker/sku labels and you will add the sticker label to the tag during set up.

## 3 How do I mark my items?

Instructions are sent to your email. Follow the Ricochet App instructions to input your inventory; we will print the barcode stickers for you on setup night.

## 4 When can I restock?

Booth setup is on Sunday from 4-5 PM. Consignors can restock their booths anytime during business hours. The team can print added inventory on demand in just a few minutes.

## 5 How do I know if I need to restock?

The Ricochet App notifies you of your sales in real time, helping you plan restocking efficiently.

## 6 When and how will I receive my payout?

Options for payout are check or Venmo. Checks must be picked up by the consignor, and payouts are processed within 5 days after packing up.

## 7 What steps can I take to ensure the success of my booth?

- Set competitive prices to boost sales and highlight quality items.
- Avoid out-of-season items to maximize booth space.
- Stick to the hanger limit; too many items make booth feel cluttered and may deter shoppers.
- Promote your booth on social media by sharing photos.
- Consider offering discounts towards the end of your rental period (25%-75%).
