# NSA MOORING CHECKLIST FOR NEW PERMIT HOLDERS

---

**Follow these steps if you want a mooring in the NSA mooring field in Frost Fish Cove.**

- ☐ Contact NSA Rear Commodore to ensure that there is room for your boat.
- ☐ Pay annual NSA mooring fee to the NSA Membership Chair for each approved mooring you have.
- ☐ Arrange for purchase and professional installation of suitable mooring tackle. NSA recommends Mooring Master Marine-Tim Macort (508-237-6944) or Arey's Pond Boat Yard (508-255-0994).
- ☐ If you are NOT using one of our Mooring Field partners you must contact the NSA Rear Commodore to ensure coordination with our partners. Be aware if you set your own mooring it may have to be moved to ensure optimal mooring field configuration. In addition, your mooring tackle must be inspected each year before placing to comply with NSA's obligations to the Town of Orleans to maintain a safe mooring field.
- ☐ You must have a Mooring Permit from the Town of Orleans. New Mooring Permits require a Letter of Good Standing from the NSA Commodore.
- ☐ Present the Letter to the Town of Orleans Natural Resources Department (Harbormaster) along with your boat registration and complete a Mooring Permit Application (select "NSA" for the mooring field requested). Orleans will send you a mooring permit and sticker (your mooring permit must be renewed, by you, annually with the Town of Orleans to comply with NSA's obligations).
- ☐ Inform NSA Rear Commodore what your mooring permit number is so it can be recorded in the NSA mooring list.
- ☐ Inform the NSA Mooring Field partner so your name and permit number will be put on your mooring float (Orleans requirement).
- ☐ Attach your mooring permit number sticker to your boat (Orleans requirement).
- ☐ NSA Rear Commodore will post the Mooring Field Map after all moorings are installed by our mooring field partners.
- ☐ If you have any questions or concerns contact the NSA Rear Commodore (rear-commodore@namequoitsailing.org)
- ☐ Enjoy the privilege of having a mooring in Frost Fish Cove!
