

NEAR SHORE MANUFACTURING FOR AEROSPACE, DEFENSE & MEDICAL IN PUERTO RICO, USA.

From concept

to completion

Why Multi Axis for Manufacturing

At Multi Axis we care about each customer, big or small. We offer:

- State of the Art machining technology
- Leadership Team with over 100 years of combined experience
- GOLD level customer experience
- Certifications achieved: HubZone, JCP (WOSB Pending)
- Certifications soon to have: AS9100D and ITAR
- Unbeatable global business location
- Diversified local industrial base and presence
- HubZone worker availability
- Outside the box thinking

Unbeatable Global Business Location

Advantages of operating in a US Territory

- US Citizens
- ITAR/EAR compliance
- No duties. Interstate commerce applies
- No US Passport required
- Mfg makes up 47% of PR GDP

Source: PR Planning Board 2014

Diversified Industrial Base and Presence

Worker Availability

- Diversified pool of workers, almost all live in designated HubZone
- Willingness to work and grow in technically advanced fields
- Motivated workers, approximately 200k unemployed
- We had over 900 attendees at a job fair. 900 resumes in addition to job fair have been received. Up to 10% of these applicants are qualified for work in a technically advanced, CNC precision manufacturing environment.
- PR Dept of Labor is willing to assist in helping to identify qualified team members to hire
- Apprenticeship program, in house

Strategic Facilities

Airports

- Luis Munoz Marin International Airport, San Juan
- Rafael Hernandez Airport (formerly Ramey Air Force Base)
- Mercedita Airport, Ponce
- Jose Aponte de la Torre Airport (formerly Roosevelt Roads Navel Station)

Ports

- Port of San Juan
- Port of Mayaguez
- Port at Ponce

*Note smaller facilities are available in both categories

Manufacturing, Warehousing and Distribution

Manufacturing

Phase 1 – 11,000 sq ft of manufacturing space. Planned 23 spindles, CNC machining centers, mills and lathes along with fabrication, laser, bending and welding.

Phase 2 – 19,000 sq ft of open space for growth. Additive manufacturing, additional spindles and ancilliary services along with recycle tire opportunities.

Opportunity and FTZ benefits apply.

Warehousing and Distribution

With available space we can support our customers by offering warehousing and distribution services. With our central location we can easily ship product to the US, Mexico, South America, the Caribbean and others around the globe.

MULTI  **AXIS**
MANUFACTURING

CORE COMPETENCY:

Multi Axis Manufacturing, LLC is a **precision manufacturer** specializing in ***complex shapes, hard materials and tight tolerances***. Our dedication to quality, customers and innovation drive our daily operations. Over 100 years of combined experience is committed to small and large projects in the public and private sector. We are a HUBZONE certified WOSB.

Machine Core Competencies:

- CNC Machines, Machining Centers, Mill Turns
- Precision machining: 4/5 Axis
- Precision turning: Up to 8" diameter, 24" length
- Mill turning: Up to 2" diameter, Bar feed capable
- Advanced, up to date technology
- Assembly, Fabrication, Kitting and Saw capabilities
- Up to 64 HRC, maximum 55" travel, metals and plastics

Differentiators:

- JCP Approved, HUBZone Certified, WOSB is Pending
- AS9100 & ITAR Compliant (Certification by 3.1..2021)
- Reverse Engineering
- New Equipment with Advanced Technology
- Another 19,000 sq. ft. to grow into
- Can bring equipment in to match customer needs
- Kitting & Assembly partially provided by our disabled yet amazingly capable team members

Past Performance:

Manufacturing and/or Reverse Engineering:

- | | | |
|------------------|------------------------|----------------|
| - Coca Cola | - Florida' Natural | - SmartTrailer |
| - ThermoDyne | - Hot Shot Motorsports | - InverSol |
| - Various Others | | |

Summary

- Puerto Rico is an unbeatable global business location with the resources required to sustain Multi Axis' long-term growth.
- Strategic HubZone certified operation and facilities offering more than just production, warehousing and distribution partnerships
- Precision quality centric capabilities

**Through consistent quality we turn opportunities
into long-term client relationships.**

- Jolee Martin, President
