Country Range<sup>®</sup>

Coffins & Caskets

The Country Range offers a selection of coffins which are made with sustainability in mind, for example, by using biodegradable materials, which are suitable for all types of natural or traditional burial and have also been tested for their suitability and are accepted for cremation.

This range of products has been tested against Global Warming Potential (GWP) carbon footprint

criteria and offers a social and ethical benefit, be it to a community involved with their manufacture or through donations to Groundwork UK and tree tribute initiatives.

The Country Range products encompasses all these values and offers a range of styles to suite all tastes.

## “English Willow” Personalised Wicker Coffins

Made from willow grown in Somerset, each coffin is beautifully and caringly hand woven to order by a skilled craftsman.

These coffins can be completely personalised as the shape of the coffin, colour of the willow and different coloured bands and handles are chosen by the family to create a unique, special and personal tribute to their loved one.

The willow is harvested annually and grows from the same crown for up to 60 years.

# English Willow Personalised Wicker Coffins

Made from willow grown and harvested in England. Each Coffin is carefully made to order and is hand woven by skilled craftsmen, ensuring that each Coffin is unique and special.

Personalisation options include your choice of;

- Curved-end Casket Shape or Traditional Coffin shape
- Natural Buff Willow, Barked Willow or Steamed Willow
- Woven Band & Block Colours
- Coloured Woven Willow handles or Hemp Rope handles.

All Coffins and Caskets are lined with a natural cotton lining.

## “Daisy” Premium Woven Coffins

“Daisy” Premium Woven Coffins Daisy coffins are the natural and individual, alternative to the traditional style wood coffin. Designed primarily with softer lines and beauty, they still retain the strength, security and rigidity of a traditional wood coffin as they are woven onto a wooden frame.

They are hand crafted and are all supplied with quality wood handles and they are manufactured with the environment in mind, using a natural cotton interior lining which ensures the coffin is 100% biodegradable. Daisy Premium Woven Coffins – a unique, alternative range of coffins manufactured to the highest standard

Premium Woven Coffins

-  100% Biodegradable
-  Hand Woven Design
-  Suitable for Cremation & Burial
-  Engraved Wooden Nameplate

## Our Premium Wicker

coffins are made from **Rattan**. Rattan is a vine that grows around tree trunks and branches. By providing an alternative to loggers, the economic value of rattan can help protect forest land. It is much easier to harvest, as it requires only basic tools, and is easier to transport. It grows a lot faster than most tropical wood, making it a profitable crop for locals and the communities it supports.

## Premium Wicker Coffins

Our 100% biodegradable traditional shaped coffins come in a choice of styles: **Golden Wicker** and **Grey Wicker**. The wicker is carefully woven onto a strong wooden Albasia frame and finished with bespoke wooden handles and hand carved wooden peg screws.

Each coffin comes with an unbleached calico lining and an engraved wooden nameplate.

## Premium Bamboo Coffin

Created with hand woven bamboo panels, this traditional shape coffin comes with an elegant natural unbleached calico decorative interior, and engraved wooden nameplate.

**Natural Legacy** by Hainsworth is a range of woollen coffins which offer a comforting and soft alternative to the traditional wood coffin.

Working closely with the British Wool Marketing Board, Hainsworth supports British Farmers by buying their wool through the Quality Assurance Scheme.

Natural Legacy offers a contemporary style with comfortable handling. Each coffin is completed with a personalised hand embroidered woollen name plate.

Comforting Woollen Coffins

## Swaledale Woollen Coffin

These coffins are made in Yorkshire using pure new wool, supported on a strong recycled cardboard frame. Wool is a fibre that is both sustainable and biodegradable. The interior is generously lined with organic cotton and attractively edged with jute, with embroidered woollen nameplate. Available in Natural (white) or Limestone (grey).

Limestone (grey)

## "Oasis" Fair Trade Woven Coffins

The Oasis Coffins enterprise has been set up in one of the most poverty-stricken areas of Bangladesh, in Nilphamari, 500km north of Dhaka. Not only does this bring paid employment to the region, but also an upward social mobility and education opportunities for families and children connected to this project.

Representatives from Traidcraft, the UK's largest Fair Trade organisation have conducted a rigorous assessment of the business on location in Bangladesh, and are pleased to endorse all of the coffins and urns produced by Oasis as Fair Trade. Ongoing assessments will be made to ensure that these high standards are maintained. Locally, Oasis is an active member of the Fair Trade Forum in Bangladesh.

## Natural Seagrass Coffin

Seagrass is a natural freshwater plant which is grown in abundance in the Noakhali district of Bangladesh. It is sun dried, spun and woven onto a bamboo frame to form this unique oval shaped coffin.

**Woodland** burial grounds are becoming ever more popular and provide a more natural and serene setting as a final resting place. They often involve the planting of a natural memorial rather than a traditional headstone, and have a strong focus on preserving the natural beauty of the environment.

In response to this growing demand, we have created a selection of traditionally styled coffins manufactured from FSC certified wood, with a cotton lining and a choice of natural handles. Hand finished to the highest standard, these low impact coffins are perfect for woodland burial, cremation or burial in a traditional cemetery or churchyard.
