How to get from terminals to terminal I at Atlanta airport: the Plane Train.

The quickest and most popular way to get around Hartsfield-Jackson is the Plane Train. This underground automated people mover runs 24/7, approximately every two minutes, and connects all concourses with the Domestic and International Terminals. Delta flies from both terminals (I = international on the east side; S = domestic on the west side) and all domestic concourses: T, A, B, C, D, E, F.
