

WAYNE NEUROLOGY, PLC

INFORMED CONSENT FOR

BOTULINUM TOXIN INJECTIONS

ALL TYPES

INSTRUCTIONS

This is an informed consent document that has been prepared to help inform you concerning your injections, its risks, alternatives treatments(s).

It is important that you read this information carefully and completely. Please initial each page, indicating that you have read the page and sign the consent for Wayne Neurology, PLC.

INTRODUCTION

The procedure involves a series of injections to the chosen muscles. The effects on the injected muscles begins to be apparent after 2-3 days with the peak effect being reached after 7-10 days. Results can last 3-6 months. The procedure can be repeated after 3 months; however, injections given less than 3 month intervals may reduce the efficacy of the injections.

RISKS OF BOTULINUM TOXIN INJECTIONS

Every procedure involves a certain amount of risk, and it is important that you understand that risks involved. An individual's choice to undergo a procedure is based on the comparison of the risk to potential benefit. Although most patients do not experience these complications, you should discuss each of them with your doctor to make sure you understand the risks and potential complications.

- ❖ **Bleeding** It is possible, though unusual, to experience a bleeding episode during or after the procedure. **Do not take any aspirin or anti-inflammatory medications for 24 hours prior to your any type of injection.**
- ❖ **Bruising** Following this procedure, it is not uncommon to bruise at the injection site.
- ❖ **Infection** Infection is unusual. Should an infection occur, additional treatment including antibiotics may be necessary.
- ❖ **Unsatisfactory Results** There is a possibility of an unsatisfactory result from the procedure.

Wayne Neurology, PLC

Allergic reactions – In rare cases, local allergies to topical preparations have been reported. Systemic reactions, which are more serious, may result from drugs used during surgery and prescription medicines. Allergic reactions may require additional treatment.

❖ In some situations, it may not be possible to achieve optimal results with a single procedure. Should Complications occur, other treatments may be necessary. Even though risks and complications occur infrequently, the risks cited are the ones that are particularly associated with these injections. The practice of medicine and surgery is not an exact science. Although good results are expected, there cannot be any guarantee or warranty expressed or implied on the results that may be obtained.

It is important that you read the above information carefully and have all your questions answered before signing this consent.
I have read a copy of the foregoing consent for the procedure, understand it, accept these facts, and hereby authorize Wayne Neurology, PLC and/or Dr. _____ to perform the procedure. You are getting _____ unit injections.

Injection Policy for Botox/Xeomin/Dysport/Myobloc

Wayne Neurology is making some changes to its injection policy. **A follow-up appointment is required after each injection.** If you do not show up to your follow-up appointment, you will not receive your next injection and we will change your next injection appointment to a follow-up. **Your last injection payment from insurance must be paid in full and you must pay any balance that shows on your account before you can receive your next injection.** As you know, we are a small office, so it becomes difficult for us to provide quality care if we give out injections without receiving any payments.

For all patients that have medications coming through the pharmacy: it is your responsibility to call your pharmacy and schedule the medication's delivery to our office. This is because pharmacies require patient consent before delivering any medications, and Wayne Neurology is not able to schedule the delivery if the patient has not approved beforehand.

We highly recommend calling into the office before your appointment to make sure you are scheduled for an injection and that your injection has been received by our office. If you are scheduled for a follow-up appointment or anything else and your injection is due on the same day, notify the office staff otherwise you will not be able to receive your injection.

If you cancel your Botox appointment or no show, you will be rescheduled four weeks out.

We apologize for any inconveniences this may cause. If you have further questions, please do not hesitate to contact me.

Sincerely,

Shaheen Younus
Office Manager

I have read the policy above and understand that I am responsible for paying balances on my account before my injection appointment and I am responsible for calling my pharmacy to deliver my injection to Wayne Neurology.
