

ENERGY PROCUREMENT, COMPLIANCE & EFFICIENCY

Executive Summary

Asset Solutions helps private owners and Tier-1 facility contractors cut utility spend and stay compliant—without disrupting mission. We deliver end-to-end energy procurement, ENERGY STAR® benchmarking and verification, and ASHRAE I/II/III audits. We execute **three-source competitive bidding** for energy supply—collecting apples-to-apples supplier quotes and terms, normalizing load profiles, and recommending the award on total cost + risk, not just the headline rate.

UEI: M1H8KR3FBLC5 **DUNS:** 080603169
CAGE: 7VYF7

Compliance Without Chaos

Savings Without Drama

CAPABILITY STATEMENT

Certifications

CEA • CEM • CPM® • PMP • LEED AP
Professional Engineer (PE) • Qualified Third-Party Verifier (DC/MD BEPS)

Core Competencies

- **ENERGY STAR® Benchmarking & Third-Party Verification** — Full-service data QA, submissions, and verification.
- **Actionable Audits & Surveys (ASHRAE I/II/III)** — Utility surveys, ECMs with savings, cost, payback, and sequencing.
- **BEPS Compliance & Pathway Planning (DC/MD)** — Strategy, filings, and execution support—no guesswork.
- **Energy Procurement & Utility Cost Optimization** — Competitive sourcing, bill audits, load analysis, and contract strategy to fund upgrades.
- **Environmental Due Diligence** — Property condition & environmental assessments to surface risk and prioritize action.

- **Full-Cycle Project / Facility Management (Optional)** — Turnkey support across contract compliance, vendor coordination, and execution.

Differentiators

- **Fast Deployment** — Mobilize within 24–48 hours of award.
- **Effective Delivery** — O&M realities, and vendor coordination baked in.
- **Integrated Services, One Invoice** — Audit → procurement → BEPS filings → compliance tracking.
- **Proven ROI** — \$300M+ energy savings delivered across public and private portfolios.
- **Contractor-Friendly Docs** — ECM packages designed for immediate pricing and mobilization.

Socioeconomic: Small Business (self-certified)

Past Performance

Museum of the Bible (Washington, DC; 450k SF) — BEPS readiness, electricity & gas procurement, ASHRAE audit, and RCx. \$629,581/year combined commodity + operational savings; clear pathway to BEPS compliance.

EMCOR / Institute for Defense Analyses (Alexandria, VA; 330k SF) — Building utility survey & analysis; ENERGY STAR benchmarking; load-factor/schedule optimization roadmap. Identified 7 low-cost ECMs; launched a \$7,400 diagnostic program (~\$0.022/SF) and documented initial 1% energy reduction.

Raytheon — *"In December 2012, Asset Solutions conducted an ASHRAE Level I energy audit for three of our buildings in Sterling, Virginia. The audits discovered a combined electricity savings of \$499,769 with a payback of 3 years or less. I have no hesitation in recommending them as a sustainable energy company with which to do business."*
