WHAT WE PROVIDE FOR INTERIOR PRODUCTS?

ATELIER AND CUSTOM-MADE WORKS

In custom-made projects the communication is really important. Especially, project details must be under control for every piece of production. Nextdoor has a good chance for your custom-made projects. We have lots of connection with strong and best ateliers. Our aim is good quality with minimum time. For this reason, our team who is experienced architects and designers always have control for the custom-made productions until they get the best!

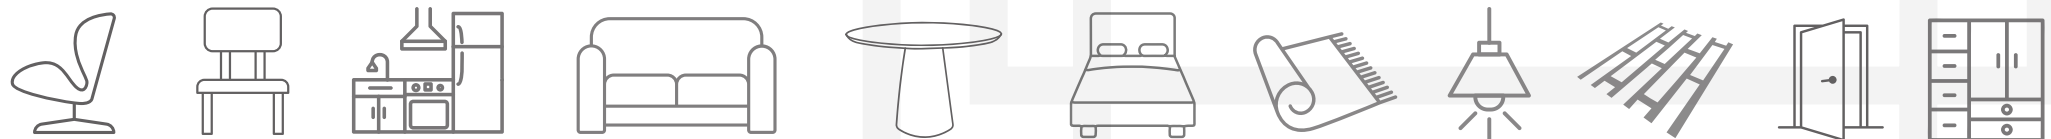

READY MADE WORKS

In ready - made production, there are different tips. You can always find a company however there are several different changeables. Especially, price and quality. Most of time, this two tips does not make happy. clients who does not take professional support. In this case Nextdoor has a good option for you! We are a global partner of interior architects for providing high quality of interior products solutions from Turkey, Poland and Italy. You can find best price - quality range with controlling every piece of production.

LOGISTIC & ASSEMBLY

Logistic and Assembly one of the most important part of furniture. It is important to protect your products from several damages during the transportation. The logistics part of the products belongs entirely to us. Products packaged to European standards are transferred in a protected manner. After the product reaches to destination city , our teams quickly check for damages and proceed to the assembly phase. If there is any damage we recover all damaged products before we assembly! In this case, we guarantee %100 for your products to deliver in safe.

FORMS AND MATERIALS

FABRIC

Fabrics, one of the most important elements in terms of visuality and user experience in all groups; type, quality and use, adds value to our collections in terms of its convenience.

WOOD

Wood is a structural tissue found in the stems and roots of trees and other woody plants. It is an organic material – a natural composite of cellulose fibers that are strong in tension and embedded in a matrix of lignin that resists compression.

METAL

Metal which is used as mainly on legs, gives both elegance and in terms of durability power to our products.

GLASS

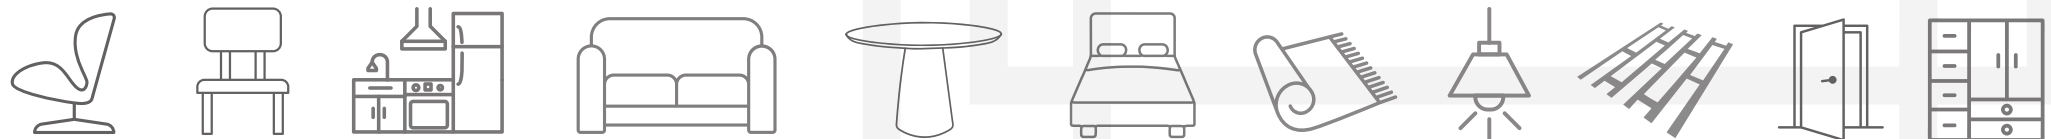

Glass materials, which we include in many different collections in their original form and with marble print, are among the leading actors of our processes of creating a design difference.

MIRRORS

Mirrors that add depth and spaciousness to the atmosphere of the environment in which they are used; are featured in our living, dining and bedroom collections in different forms and purposes.

SUMMARY OF WORKING PROCESS

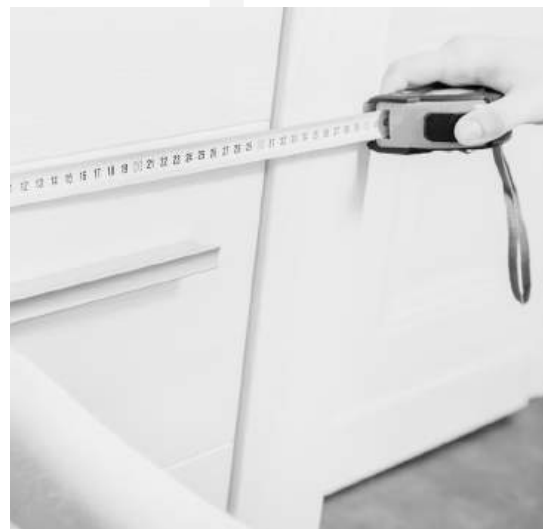

1) ANALYSIS

- Analyzing the project and making product - producer analysis.
- Determining the factories which we will supply the products from.
