**100% Ghanaian
Whipped Aromesque Shea Butters**

The Butter Way

We Know Butters

For more than 10 years, "It's Butter Baby!" has serviced the best beauty products available by revolutionizing the butter industry & focusing on healthy skin to provide the best skin care & Shea butter benefits in the world. We also allow our customers to create blends that combine their favorite Aromas to suit their needs. We offer many Aromesques and want you to have the opportunity to create your own butters, and call it yours!

About Shea Butters

Although Shea-Butter just recently hit the commercial market within the last seven years, it has been a part of most African families for centuries. Shea Butter is made out of the Shea Nut that grows from North to South African regions. Most of us know that Shea Butter is a popular ingredient in virtually every skin, hair, and nail product on the market. That's because it has been known to help heal stretch marks, cellulite, dark marks, and blemishes, eczema, psoriasis, razor bumps, diaper rash, evens skin tone, eliminates acne, grows hair, regenerate youthful skin cells, and is an all-natural sun screen! So clearly, Shea Butter is the closest thing to the fountain of youth.

Our Passion

We believe the healing benefits that come from Shea Butter is universal, and the ingredients should reflect the various countries and cultures around us. Our primary focus is to bring you a diverse selection of Botanicals, Extracts, Oils, and combine them to create a perfect Shea for you and your family.
