Working abroad isn't about luck — it's about positioning. This guide shows you what actually works in today's global job market.

## The Truth

### **Why most people fail to get jobs abroad**

- They apply without a strategy
- Their CV isn't market-aligned
- They don't understand recruiter psychology
- They wait too long to start

## The 3 Pathways:

1. Canada: employer-led hiring, credential focus
2. Australia: skills-based, trade-heavy
3. New Zealand: role-specific shortages

## The 5 Biggest Mistakes

1. Using a South African CV format
2. Applying without LinkedIn optimisation
3. Targeting the wrong job boards
4. No recruiter outreach strategy
5. Waiting for a visa before applying
