

## PAINT SHEEN

### In order of left to right, consider:

Flat → Low sheen → Matte → Eggshell → Satins → Semi-Gloss → Hi-Gloss

Less reflection of light → More reflection of light

More-subtle appearance on wall → Higher shine

Lower scrubbability → Greater scrubbability

| SHEEN :                            | FLAT | LOW SHEEN | MATTE | EGGSHELL | SEMI GLOSS |
|------------------------------------|------|-----------|-------|----------|------------|
| <b>WALLS</b>                       |      |           |       |          |            |
| <b>FAMILY ROOM</b>                 |      | X         | X     | X        |            |
| <b>LIVING ROOM</b>                 |      | X         | X     | X        |            |
| <b>DINING ROOM</b>                 |      | X         | X     | X        |            |
| <b>BEDROOM</b>                     |      | X         | X     | X        |            |
| <b>HALLWAY</b>                     |      |           | X     | X        |            |
| <b>KITCHEN</b>                     |      |           | X     | X        |            |
| <b>BATHROOM</b>                    |      |           | X     | X        |            |
| <b>CEILINGS</b>                    | X    |           |       |          |            |
| <b>BATH &amp; KITCHEN CEILINGS</b> |      |           | X     | X        | X          |

| SHEEN :                 | SATIN | SEMI GLOSS | HIGH GLOSS |
|-------------------------|-------|------------|------------|
| <b>TRIM &amp; DOORS</b> |       |            |            |
| <b>BASEBOARDS</b>       | X     | X          | X          |
| <b>WINDOW TRIM</b>      | X     | X          | X          |
| <b>DOOR TRIM</b>        | X     | X          | X          |
| <b>DOORS</b>            | X     | X          | X          |
