

AN ANIMAL KINGDOM SCAVENGER HUNT

WITH KIDS!

BY MELISSA RICHESON

There is so much to explore in Disney's Animal Kingdom, and Wilderness Explorers is the most popular activity for kids to learn about the animals at Animal Kingdom.

But for those who may have already gotten all their badges, try our new scavenger hunt intended to help you notice some of the amazing species who call the park their home.

Just follow the clues, and if you need a hint, refer to the optional location list at the bottom of the page!

When you're done, share a few photos with us in our subscribers group on Facebook, but be careful not to give away *all* the answers! As always, enjoy another way to make Walt Disney World memories with your kids! 🍷

CAN YOU FIND...

1. A bird with rainbow feathers
2. An animal with a striped tail
