

# IF THE SETBACK MEASURE WINS, COLORADO LOSES

 Area off limits for natural gas and oil development by adopting setbacks of 2500 ft.

 Federal lands that could be open to natural gas and oil exploration due to 2500 setback in the rest of the state.

# 85%

of non-federal surface acreage in Colorado would be **UNAVAILABLE** for natural gas and oil development under the proposed mandatory setback requirement

# 94%

of the non-federal surface area in the state's top 5 producing natural gas and oil counties would be **UNAVAILABLE** for new natural gas and oil development

\* Percentages reflect state and private land

MAP BASED ON COLORADO OIL & GAS CONSERVATION COMMISSION ANALYSIS (JULY 2, 2018).

Paid for by Protecting Colorado's Environment, Economy, and Energy Independence

**PROTECT**COLORADO

Anti-Colorado ballot measures targeting natural gas and oil are disguised as reasonable setbacks.

# DON'T LET THEM FOOL YOU

In reality these measures would:

1

Ban natural gas and oil development in Colorado.

2

Increase Colorado homeowners' energy bills.

3

Devastate the economy by eliminating more than \$26 billion a year in state GDP, more than \$1 billion in tax revenue and as many as 147,800 jobs by 2030.\*

4

Give the government the right to take property, including mineral rights, without compensating the owner.

## BE SMART

It does not improve our environment nor improve either health or safety.

## TAKE ACTION!
