

HQ Amara Software Downloads

On occasion, we release software updates to introduce new features as well as improve product stability. Please click on the link below to access the software files.

If you encounter any issues or have any questions about installing your new software, please contact us at HQCares@handiquilter.com or 1-877-MY-QUILT (697-8458).

Please read the items below carefully before downloading and installing the software. Only Amara machine software should be used for updating an Amara machine; using non-Amara update files may render the Amara non-functioning.

Software Download

INSTALLATION INSTRUCTIONS:

Right click on the [Click Here](#) and click "Save As" to download.

[Click here to download the Installation Instruction Sheet \(PDF\)](#)

HQ Amara Machine Update (FOR USE WITH OR WITHOUT HQ PRO-STITCHER):

To download the file, right-click on the link, then click "Save File As", then save the file to your computer. You can then open it from there.
