

# Roses and Clematis

Updated for 2018

Why are clematis and roses together? Reason one: It works to display the clematis in the rose garden with the roses. Reason two: Clematis twining through a rose bush is a very pretty sight. It is much easier to choose colors that go well together if they are next to each other. We also plant morning glories so that they twine up through our rose bushes.

## **Easy Elegance Roses**

Changing your perception about growing roses, the Easy Elegance Roses make it easy for everyone to grow and maintain beautiful roses. Bred for natural disease resistance and hardiness, Easy elegance roses will continue to bloom throughout the season giving you long-lasting beauty and unparalleled ease of care.

**Easy care, low maintenance**-no complicated pruning required.

**Rich color all summer long**-continuous blooms provide long lasting beauty.

**Outstanding form**-superior shape and evenness of size to fit your garden.

**Environmentally friendly**-no chemicals are required to maintain.

### **Easy Elegance Champagne Wishes**

White Shrub Rose

Recurring 3' blooms, 24-31 petal count

Height: 3-4 feet Zone 4

Clusters of pale apricot buds open fully to blooms of antique white with just a hint of apricot before fading to a clear white. Combines beautifully with perennials in a mixed border or plant as a refined low hedge. Disease resistant.

\$14.95

## **Easy Elegance High Voltage**

Yellow shrub rose

Recurring double 2-3 inch  
blooms, 22 petal count

Height: 3-5 feet Zone 4

Shockingly beautiful, clusters of yellow blossoms are held high on sturdy canes. Fragrant double blooms. Upright, vase-shaped habit will stand up in the back of the border or stand out as an accent. Own root.

\$14.95

*Roses like full sun, deep, well-drained,  
fertile soil.*

## **Easy Elegance Kashmir**

Dark red shrub rose

Recurring very full, dark red,  
blooms, 50 petal count

Resembling a hybrid tea rose, the velvety blossoms are as soft as cashmere and beg to be cut for the vase. With an rounded habit Kashmir fits perfectly into your landscape. Try this bold accent plant in the border, foundation or as a low hedge, hugging paths and walkways. Own root.

\$14.95

## **Easy Elegance Ramblin' Red Climber**

Medium red shrub rose

Recurring 3-4 inch blooms, 35 petal ct.

Height:6-10 feet Zone 3

This climber comes to us from the creator of "Knock Out". Th foliage is born on strong pliable canes and displays a touch of red before maturing to a deep, dark green. Very hardy, disease resistant with rich, true red blossoms. Own root.

*Climbing roses must be tied in*

\$16.99

## **William Baffin Climbing Rose**

Height:8-10 feet Zone 3

Recurring deep pink double 2.5-3 inch blooms, 15-20 petal count.

From June until hard frost the thick, upright canes of this rose are covered with clusters of up to 30 informal blooms of strawberry pink highlighted by stamens of bright yellow. Hardy, vigorous and resistant to pests and disease this rose comes back year after year on the north side of my house with no protection. Own root

\$13.95

Question? Call 207-327-1398

## **Purple Pavement Rose**

Height: 3 feet Zone 3

Recurring, semi double mauve 2.5-3 inch blooms. 12-16 petal count.

The bright green foliage of this rose has excellent disease resistance and forms a nice mounded plant well suited for mass plantings or as a colorful low hedge. With the approach of autumn the intensely fragrant blooms are replaced by colorful dark red rose hips. Own root.

\$13.95

## **Cuthbert Grant Rose**

Shrub rose

Height: 3 feet Zone 3

Recurring semi-double 4' dark red blooms, 15-20 petal count

This award-winning rose blooms throughout the season with fragrant clusters 3-6 roses. Very often blooming with a cap of snow, the flowers are a velvety red and splendid to behold! Resistant to disease the foliage is a luxuriant glossy green. Own root.

\$14.95

*Don't plant your roses where their deep roots will have to compete with tree roots. But those same deep roots mean that roses can be an attractive part of a perennial bed as perennial roots are shallow.*

### **Easy Elegance Little Mischief**

Everblooming, double, 1" , 19-24  
petal count

Exposure: Full Sun Zone: 4-9

Let mischief reign in your garden with this compact everblooming rascal. New blooms of deep-pink with a white eye contrast nicely with the lighter pink aging blooms. With its low-growing habit and disease-resistant foliage, the only trouble this rose will get into will be with the rose it replaces in your garden. A wonderful companion plant in a border planting, a hedge plant or in a decorative container as the star performer

**\$14.95**

### **Rosa John Cabot Medium Climber**

Free-flowering shrub with clusters of semi-double medium red flowers. Very disease resistant and undemanding. Will grow quite tall in warmer areas and can be used as a climber.

Zone 3-9

### **Rosa Champlain Red**

Outstanding for its continuous flowering habit throughout the summer and into the fall. Flowers are fragrant and velvety dark red.

Zone 3-9

### **Rosa Hope For Humanity**

This is one of the darkest roses you can find, bearing large clusters of velvety blood red flowers over the entire season; compact mounded habit, hardy and resistant to disease, a good garden detail shrub; needs full sun and well-drained soil

Zone 3 2-4ft. tall

### **Jackamanii**

This is the best and most profuse Clematis of all times. It was the first hybrid to combine a deep purple with a good size of 4-6". June, July and September blooming.

Zone: 3-9

### **Jackamanii Superba**

Similar to the more popular Jackmanii, but with a fuller flower. Blooms from mid-June to August.

Zone: 3-9

### **Perrin's Pride**

An American variety introduced in the early 1900s by the former Steffen's Clematis Nursery. The deep purple 5" (15cm) well rounded flowers are produced from early summer through to early fall. Mature height 9-12"

Zone: 4-9

### **Mrs. Cholmondeley**

One hundred and twenty years old and still a winner. Clear light lavender-blue 7-9" (17-22cm) flowers, bloom from May on into September. Mature height 14-20' (4-6m)

Zone: 4-9

### **Silver Moon**

Mother of pearl with yellow stamens. 6-8" (15-20cm) flowers from June to September. Mature height 8-10' (2.5-3m). Excellent on a north facing exposure.

Zone: 4-11

### **Madame Edouard Andre**

Deep wine-red 4-6" (10-15cm) flowers from July to September. Mature height 8-12' (2.5-3.5m).

Zone: 3-9

### **Killian Donahue**

Early flowers open ruby red, mature to brilliant fuchsia with an orchid edge to 5" across. Mature flowers of Kilian Donahue are pink lavender with a pink bar. Gives the appearance of two Clematis intertwined. Blooms early and repeats well through the season . Blooms from early summer to late summer.

Zone: 4-10

### **Mrs. N. Thompson**

Deep violet-purple sepals with a bright red bar. The 4-6" (10-15cm ) blooms are produced on a compact 8-10'(2.5-3.5m) plant in May, June and September.

Zone: 6-9

*Even clematis that will do well with some shade like six or more hours of sun. All clematis, even the ones who thrive in full sun like their roots to be cool. I find that if I keep the pots of clematis plants for sale sunk in a bed of mulch they are much happier. Some people prefer to plant perennial or annual flowers around the clematis vine so the plants' foliage shades the clematis roots. The vines do best in a well drained, slightly alkaline, loamy garden soil. In March or April prune each healthy stem back to two or three feet tall. Weak or dead stems can be cut off near the ground. Even if the vine dies back close to the ground the clematis varieties we have at Country Junction grow so rapidly in spring that they fill a trellis by mid summer. Clematis tendrils are not very large. It is often wise to string indivisible fishing line on a trellis for the tendrils to wrap around as they climb.*

### **Comtesse De Bouchard Clematis**

Velvet rose-pink large flowers with yellow anthers. A profuse bloomer. Our best selling pink Clematis because it will tolerate a little more shade. The vines grow to 8-10 feet. Zone 4

### **Madame Baron Veillard**

Very large bluish-pink flower. Vigorous grower and very showy. 7-8" flower. Blooms June and is covered with blooms in September. The vines are 10-12 feet. Zone 4

### **Venosa Violacea Clematis**

4-5" flowers of white background with purple veins throughout, turning all purple on the edges. Very distinctive variety that became popular in the 1800s. It is so gorgeous, vigorous, easy to grow, has superb disease resistance, and produces beautiful flowers in great profusion for a long duration that it is still popular. Zone 4
