LEONARDO DA VINCI

7th edition
Self Supporting Bridge Engineering Competition

Register to compete at www.thebitcenter.org

The Italian Cultural Center of Maryland, a program of The Bit Center, is celebrating Leonardo Da Vinci by giving you and three friends the opportunity to build one of Da Vinci's brilliantly designed self-supporting bridges.

You and your team could even win one of two \$1,000 grand prizes!

Register your team of four students for Middle School and High School and get ready to have some fun, friendly competition to determine who has engineering skills worthy of the Italian Renaissance.

No experience is required!

Just a team of four students eager to enjoy a good time building up with 2 x 4 lumber boards.

The bridges will be judged according to categories of speed, accuracy, and appearance. Each division will produce a \$1,000 grand prize winner!

Registration Fee: \$50 per Team of Four

To confirm your registration, a refundable \$50 deposit is required. The deposit will be refunded in full once your team checks in on the day of the event.

Register online at: <https://thebitcenter.org/da-vinci-bridge>

What to bring: a pair of gloves, comfortable clothes, and close-toed shoes.
