

```
; Exercise 6 - Reverse Bytes in Array
; Purpose: Reverse a short byte array in-place.
; #belleswhoshell.ca
```

```
section .data
arr db 1,2,3,4,5
len equ 5
```

```
section .text
global _start
```

```
_start:
    ; TODO: implement two-pointer swap to reverse array

    ; exit
    mov eax, 60
    xor edi, edi
    syscall
```
