5280 Managed kiosks provide Businesses a secure, managed, Purpose driven kiosk at a value price.

Solutions by 5280 provide businesses an efficient, affordable kiosk solution that can be used for a variety of purposes.

Managed, secured kiosks can be configured as a stand-alone workstation to provide an easy secure way to surf the web and perform basic tasks.

These secured devices can be configured to allow access to a single application or perform a specific task such as fill out an application or sign up for a rewards program.

5280 kiosks are designed to provide best in class security, reliability, real-time updates and fast boot-up.

All backed by an experienced team that understand client needs and pricing that just makes sense.

We offer turnkey solutions that will provide all software, hardware, and support for your needs, or you can procure their own hardware and 5280 can configure, secure and manage the solution.
(Must meet min requirements)

This proposal is valid for 30 days from the date posted on the cover. Thank you.
