

5280 Print Solutions

Touchless - Secure - Simple

Many properties today have opted out of providing a full "Business Center".

Guests today travel with a personal device to connect and work. What guests do need is an easy way to print.

Placing a stand-alone printer in a lobby or allowing staff to print items from their computer, presents a significant security concern, and a safety issue.

A typical stand-alone printer requires guest to connect, set up drivers and can be a source of great frustration. Guests will simply look to your staff for assistance, using up your most valued resource, your team.

5280's touchless print solution allows guests to print from their Laptop, Tablet or Phone easily. No drivers to download, No specific networks, No wasted resources.

TOUCHLESS – SECURE - SIMPLE
