

Winterization check list, winter of 2022-2023

- Single gas engine (\$285). Twin (\$450) “must be on same boat”

Includes warming engine to operating temperature filling block with antifreeze, coating both electrical components, manifolds, and risers with silicone spray, stabilization of fuel, fogging for carburetor engines and fuel treatment for injection engines, and visual inspection of all engine components.

- Oil change gas engine (\$100)

Remove old oil and dispose of, change filters and fill with new oil. "Filter price not included".

- Winterize outboard engine (\$260). Twin (\$400) “must be on same boat”

Includes warming engine to operating temperature, coating components with silicone spray, stabilization of fuel, fogging for carburetor engines and fuel treatment for injection engines, as well as a visual inspection of all engine components.

- Winterize PWC (\$150)

Warm to operating temperature run antifreeze throughout and coat with silicone spray, stabilize fuel.

- Winterize head (\$75)

Disconnect line and force antifreeze throughout toilet and into holding tank.

- Fresh water system "with hot water" (\$125)

Drain water from system and fill with non toxic antifreeze, bypass and drain hot water heater. Run antifreeze through all fixtures.

- Fresh water system "without hot water" (\$75)

Drain water and fill with non toxic antifreeze and run through all fixtures.

- Winterize air conditioner (\$75)

Force antifreeze through air conditioner, strainer, and water pump.

- Winterize generator (\$85)

Warm generator and run antifreeze through system and coat with silicone spray.

- Single fixture (\$45)

Disconnect hose and force antifreeze through.

- Shrink wrap boat up to 24' (\$18 per foot) on lift (\$24 per foot)

Remove necessary canvas, string up with supports, install moisture absorbing packs, cover heat and shrink add vents. “Prices subject to change after boat in inspected”

- Shrink wrap boat 25' to 28' (\$20 per foot) on lift (\$26 per foot)

Remove necessary canvas, string up with supports, install moisture absorbing packs, cover heat and shrink add vents. "Prices subject to change after boat in inspected"

- Shrink wrap boat 29' and up (\$22 per foot) on lift price subject to inspection.

Remove necessary canvas, string up with supports, install moisture absorbing packs, cover heat and shrink add vents. "Prices subject to change after boat in inspected"
