

SITE MANAGERS' SAFETY TRAINING SCHEME (SMSTS)

Site Manager Safety Training Scheme

The CITB Site Managers' Safety Training Scheme (SMSTS) is a comprehensive five-day course designed for those responsible for managing construction sites. It provides an in-depth understanding of health, safety, welfare, and environmental issues that impact site management. Ideal for site managers, project managers, and supervisors, this course equips learners with the skills and knowledge to manage site safety efficiently and in compliance with legal regulations.

Who Should Attend?

This course is aimed at professionals in the construction industry who have management responsibilities, including:

- Site Managers
- Project Managers
- Supervisors
- Business Owners
- Clients

Key Course Features

- Duration: 5 days
- Location: Classroom-based learning
- Group Size: Limited to ensure interactive and focused sessions

Topics Covered

- Health and Safety at Work Act and CDM Regulations 2015
- Effective site setup and risk management
- Risk assessments and method statements
- Safe working practices, including working at height and managing scaffolding, electricity, excavations, and demolition
- The latest developments in accepted working practices and behavioural safety
- Addressing health, safety, and environmental responsibilities

Learning Outcomes

By the end of this course, participants will:

- Understand and apply all health, safety, welfare, and environmental legislation that affects site management
- Manage site safety in accordance with legal requirements and best practices
- Recognise that an efficient and productive site is also a safe one
- Implement the latest safety guidelines and industry practices on-site
- Understand your duties and responsibilities concerning health, safety, welfare, and the environment

Assessment and Certification

- Examination: A paper with 20 multiple-choice questions and five short written questions
- Trainer Review: Evaluated based on group exercises, participation, and four core exercises related to site safety
- Full attendance is required for certification, and certificates are valid for five years
- It is recommended that participants take the SMSTS Refresher Course within three years to stay updated on changes in the law and best practices

Course Requirements

- A good understanding of English is required for participation
- If you have concerns regarding language proficiency, please contact us in advance

Learning Environment

- Interactive classroom-based learning with hands-on exercises
- Support from experienced tutors and collaboration with fellow professionals
- A focused study environment away from workplace distractions
- Focused study environment away from the workplace for maximum engagement
